PART I.

SUMMARY OF THE ADMINISTRATION.

PART I.

GENERAL SUMMARY.

SECTION I.—General and Political.

General.

Col. Sir Hugh Daly, K.C.I.E., C.S.I., held the office of Chief Commissioner throughout the year and paid two visits to Coorg—the first in November 1912 in company with His Highness the Maharaja of Mysore, and the second in February 1913 when visits were paid to Somwarpet, Virajendrapet and Pollibetta. The principal subject discussed during the latter tour was the proposed branch railway into Coorg from some point on the projected Mysore-Hassan line. The visit of His Highness the Maharaja in November was the first visit of the kind paid to Coorg by His Highness or his predecessors. During his four days' stay he paid a visit to Tala Cauvery temple, met the leading Planters and Coorg gentlemen and witnessed a Coorg dance.

2. Mr. L. T. Harris, I.C.S., held the office of Commissioner till 13th November 1912 when he was succeeded by Mr. F. Hannyngton, I.C.S. Mr. R. H. Ellis, I.C.S., continued to hold the post of District Magistrate. He was on leave for six months during the year during which period his place was taken by Mr. A. C. Duff, I.C.S.

SECTION II.—Administration of the land.

Realization of the revenue and agricultural advances.
[*Part II, pages 1-3.*]

3. The year was a favourable one for the ryot but the coffee crop was not good owing to heavy crops in the previous two years. This was, however, compensated for by the good prices realized.

The collection of revenue was carried out promptly and without difficulty. The actual arrear demand at the end of March was only Rs. 7,359 which was the lowest for the past decade.

The area under coffee decreased still further owing to the relinquishment of abandoned estates.

(Re-settlement).
[*Part II, page 3.*]

The re-settlement of Nanjarajpatna and Mercara taluks was completed and the new rates were introduced during the year and resulted in an increase of Rs. 6,653 on the former demand of Rs. 1,26,255. The re-settlement of Yedenalknad taluk was sanctioned by Government and the revised rates will be introduced during the current year.

SECTION III.—PROTECTION.

Police. *[Part II, pages 4-5.]*

4. The number of cognizable cases increased by 88. This was, however, due to greater vigilance under special and local laws. Heinous crime and offences against property continued to decrease.

The number of police stations was reduced from 16 to 12, the four stations affected were converted into outposts. The deficiency in the number of sub-inspectors was made up by the appointment of five men, four of whom were sent to Vellore for training.

Criminal Justice. *[Part II, pages 5-6.]*

5. The increase in the number of cases brought to trial (395) was greater than in the previous year. No special measures were necessary against habitual criminals except that the Yeravas in South Coorg were more carefully watched. No proceedings were taken under the security sections of the Criminal Procedure Code.

There was a noticeable decrease in the number of appeals presented which dropped to 28 out of which ten were wholly or partially successful.

Prisons. *[Part II, pages 6-8.]*

6. The health of the prisoners was good, the rate of sickness falling from 14·88 to 11·26 during the year. There were two deaths among convicted prisoners. The population of the District Jail remained very low.

The question of removing the jail to a better site is now nearing fulfilment and it is hoped that the present cramped and badly designed structure, which was never intended for a jail, will shortly be relegated to other uses or razed to the ground.

Civil Justice. *[Part II, pages 8-9.]*

7. The number of civil suits instituted rose by 143 which is a smaller increase than last year while the average value was Rs. 18 higher. The increase in total value by 31·25 per cent. is perhaps due to the revival in the coffee industry and may be taken as a sign of prosperity.

The number of vakils enrolled was 23.

The number of regular appeals filed showed a slight increase.

Registration. *[Part II, page 9.]*

8. The number of documents registered rose to 2,923 which is the highest figure for the past decade. While the value of the property concerned decreased, there was a surplus of Rs. 1,481 in the working of the department which exceeds all previous totals. The work was performed most expeditiously.

District Board. *[Part II, pages 9-11.]*

9. The total outlay on education exceeded 25 per cent. of the total income of the Board. In addition to this a special grant of Rs. 36,500 was received from the Government of India which is being devoted to opening new schools, improving existing ones and increasing the number and pay of teachers. Five new schools were opened during the year.

Dispensaries and sanitation claimed Rs. 10,973 or Rs. 556 more than in the previous year.

A mild outbreak of plague occurred at Sidapur but there were only four cases altogether and the disease showed no signs of spreading. The Sanitary Inspector performed good work in checking the outbreak.

The District Fund roads were kept in good order. The new road from Suntikoppa to Sidapur was completed and a start was made in the Pollibetta-Sidapur road which is the last link in the system of roads running through Coorg from north to south. Among recently constructed roads, the Somwarpet-Banawara and Fraserpet-Sidapur roads have attracted a large amount of traffic and the metalling of these roads is being pushed on as fast as funds will permit.

10. Mercara happily escaped a further visitation of plague this year. **Municipal.** *[Part II, pages 11-12.]*

The chief original work of the year was the acquisition of the insanitary Lascar Bazaar and its conversion into a public garden to be known as the "Coronation Garden." This was declared open by the Chief Commissioner during his visit to Mercara in November 1912 and the laying out of the garden is now in progress.

At the close of the year a special grant of Rs. 27,000 was received from Government which is being utilized in various urgently needed improvements in Mercara and Virajendrapet.

In Virajendrapet a tailoring school has been started under Municipal control.

SECTION IV.—Production and distribution.

11. The total rainfall at Mercara amounted to 133·49 inches which is 8·49 inches in excess of the average for the past 15 years. It was fairly well distributed, but there was an unusually long drought from December to the end of March. **Weather and crops.** *[Part II, pages 13-14.]*

The area of wet holdings rose by 1,502 acres and the area cultivated with rice by 495 acres. In spite of some damage caused by caterpillars of the Arctiid moth *Diacrisia obliqua* the paddy crop was an excellent one. The area under coffee remained practically stationary and there was no perceptible increase in the area under orange cultivation.

Tea is now being planted on abandoned coffee land and elsewhere but it is too early to gauge the success of the experiment. The tapping of ceara rubber was begun and high prices were realized for the finished product, but here again the industry is in an experimental stage and prices have not yet found their normal level. Experimental work is being carried on at Gonikoppal and Sidapur but the effort to persuade the Coorg ryot to grow ragi has been abandoned and attention is now being directed to the cultivation of oranges, potatoes, maize and leguminous crops.

Forests. [Part II, pages 14-16.]

12. The area affected by fires was not so large as in the previous year but still exceeds 3,000 acres. It is hoped that the lantana campaign will have a beneficial effect, especially in preventing such destructive fires in sandal-bearing areas.

The new forest bungalow at Hebbalé was nearly completed and is in a much better position from an inspecting officer's point of view than the old one at Kanvé.

A good start was made in opening up the forests in the Western Ghâts which are at present of little economical value owing to their inaccessibility.

Public works. [Part II, pages 16-17.]

13. A new house for the Head Master of the Mercara High School was under construction during the year.

The roads were in very fair order and a start was made in putting the Periambadi Ghât into proper order. The road has suffered from heavy traffic and insufficient allotments. Some progress was made on the new road from Banawara to Hebbalé which will complete the road systems on the east. The new road between Pollibetta and Sidapur was started. The owners on this route have given the necessary land free of cost and the link will be a useful and important one when completed.

SECTION V.—Revenue and Finance.

Gross revenue. [Part II, page 18.]

14. The net financial results of the year's transactions showed a surplus of Rs. 76,712. The Forest surplus fell by over Rs. 53,000 owing to important development works. The net surplus under Excise however increased by Rs. 29,333 owing to the favourable character of the season. The special grants of Rs. 27,000 for Sanitation and of Rs. 38,000 for Education, of course, lowered the net surplus by a corresponding amount.

Excise. [Part II, pages 18-19.]

15. In spite of the closing of 3 arrack and 15 toddy shops, the income under this head continued to expand and the prices fetched at the annual auction sales of shops increased by Rs. 5,862. There are signs, however, that the prices fetched by these shops are now finding their normal level and a set-back may be expected shortly with the advent of a less favourable season.

The number of excise offences dropped to 61. Illicit distillation of arrack and excess consumption of home-made toddy appear to be on the decline.

The sudden increase in the sales of ganja is worthy of note. In spite of the raising of the duty last year from Rs. 5 to Rs. 7–8–0 per seer, the quantity sold increased by over 334 seers. The ganja sold in Coorg is imported from the Javadi Hills in North Arcot and is apparently superior to that sold in Mysore. Travellers from Mysore, who are the chief consumers of the drug in Coorg, appear to be laying in all their supplies on this side of the border.

It has been usual to assume that the consumption of arrack increases or decreases *pari passu* with the coffee crop. This however cannot always be the case. In the present year the coffee crop decreased by nearly 2,000 tons but the consumption of arrack increased by 5,979 gallons and it is impossible to attribute this increase entirely to the suppression of illicit distillation.

16. The slight increase under this head was quite normal. **Stamps.** [*Part II, page 20.*]

17. The increase, other than that under the head of tax upon salaries, was very trifling. **Income-tax.** [*Part II, page 20.*]

18. The finances of the various local funds including the School Endowment Fund were in a satisfactory condition. **Local Funds.** [*Part II, pages 20-21.*]

SECTION VI.—Vital statistics and medical services.

19. The death-rate (38·37 per mille) was abnormally high and it is difficult to explain the heavy rise under "deaths from fevers" especially as the heaviest mortality occurred during the monsoon which is rather the reverse of malarious. The birth-rate continued to increase. **Births and deaths.** [*Part II, pages 21-22.*]

20. As might be expected in an unhealthy season, the number of patients treated in the various hospitals and dispensaries rose by over 26,000 while the number of in-patients increased by over 20 per cent. The rate of mortality among these latter remained about the same as in the previous year. **Medical relief.** [*Part II, page 22.*]

21. The special grant for sanitation of the municipalities was urgently required and will render possible projects which have long lain dormant owing to want of funds. **Sanitation.** [*Part II, pages 22-23.*]

22. The total number of vaccinations dropped considerably owing to comparative immunity from any serious epidemic of small-pox, the deaths under this head falling from 297 to 53. **Vaccination.** [*Part II, page 23.*]

SECTION VII.—Instruction.

23. The number of schools was increased by four and the number of pupils rose by over 700 and now represents 19·71 per cent. of the children of school-going age. The increase is, of course, chiefly among pupils in the primary classes. The number of boys and girls attending secondary schools remained practically stationary. **Education.** [*Part II, pages 23-28.*]

The Lower Secondary Girls' school at Mercara under the management of the nuns continued to do excellent work and it is hoped that means will be forthcoming for improving the building and adapting it to its rapidly increasing requirements.

The development of the private Lower Secondary school at Ammatti will be watched with interest.

SECTION IX.—Miscellaneous.

Co-operative Credit Societies.

24. The working capital of Co-operative Credit Societies continued to increase and Mr. Haller was busy throughout the year in explaining and introducing his proposals for cattle insurance. The ryots evinced great interest in the scheme and it is hoped, with their co-operation to make it a success.

Sholas.

25. The protection of the sholas at the head waters of all the rivers draining into the Cauvery basin was carried out with the greatest success in Kiggatnad and fairly successfully in the other taluks affected. This work requires the careful personal supervision of the revenue staff. If the grass is allowed to grow too long it is difficult to control the fires and prevent injury to the sholas. No special staff was employed, but the burning was successfully carried out in 65 out of the 69 villages concerned.

Lantana.

26. This somewhat Sisyphean labour was pursued with a fair measure of success and the arrival of the Forest Department into the arena has considerably increased the chances of ultimate victory over the pest. The total of 3,453 acres newly cleared during the year is in excess of all previous totals. The number of villages now declared clear is 188 as compared with 88 three years ago. Special attention is now being directed to preventing re-infection of previously cleared areas.

The need for some form of legislation in order to prevent previous efforts from being nullified is very urgent.

Records.

27. The work of record sorting was carried on by the ordinary establishment subsequently to the end of September. The central record room was completed and order has now been evolved out of the chaos which existed a few years ago.

28. The issue of the Nad Office Manual and the Standing Orders has been withheld till both these and the new Revenue Rules can be issued simultaneously. Revenue-officers will then have all the rules for their guidance in a handy and up-to-date form.

PART II.

DEPARTMENTAL CHAPTERS.[1]

PART II.

DEPARTMENTAL CHAPTERS.

I.—PHYSICAL AND POLITICAL GEOGRAPHY.

1. The standing information which should be incorporated in this Chapter is printed in the administration report for the year 1911–1912 under the following headings :— **Standing information and geographical statistics.**

	PAGE.
Physical features of the country ...	1
Area	3
Climate	3
Chief staples	3
Historical summary	4
Form of administration	5
Character of land tenures	7
System of survey and settlements ...	8
Civil divisions of the British territory ...	10
Details of the last census	10
Tribes and languages	11

Other statistical information will be found in the Coorg District Gazetteer, Volume B. Statements Nos. 1 to 5 exhibit the prescribed statistics regarding the area, character of the surface, climate, civil divisions and population of the province.

2. There were no changes in the form of administration during the year under report. **Changes in the administration.**

3. Mysore is the only foreign State adjoining Coorg and the relations therewith were satisfactory. **Relations with Native States.**

4. The public health during the year was not good. The number of deaths was 10·9 per cent. higher than the average for the previous five years. "Fever" accounted for nearly 85 per cent. of the deaths. The birth-rate was slightly below the average but the figures are not very trustworthy. The outturn of the principal food-grain crops was about normal and the prices ruled high. The coffee crop was poor but the price was good. There was no outbreak of rinderpest in the province during the year. The total mortality among cattle was a little higher than in the previous year in which it was the lowest on record. The statistics of litigation and registration point to a general prosperity and the condition of the people was generally satisfactory. **Condition of the people.**

II.—ADMINISTRATION OF THE LAND. (1912–1913.)

5. Statement No. 6—*Land revenue.*—The *demand* for the year was Rs. 3,58,598 as compared with Rs. 3,54,248—an increase of Rs. 4,350. The important variations were under land and coffee assessment (+ Rs. 10,165) and miscellaneous or fluctuating land revenue (— Rs. 6,026). The increase under the former was chiefly due to the introduction of the revenue re-settlement of two more taluks, viz., Nanjarajpatna and Mercara, while the decrease under the **Realization of the revenue.**

latter was owing to smaller receipts on account of lands sold for the cultivation of coffee and rubber. Including an outstanding balance of Rs. 67,482 at the beginning of the year, the gross demand amounted to Rs. 4,26,080. Of this sum, Rs. 3,58,994 were collected and Rs. 263 remitted during the year leaving a balance of Rs. 66,823 at its close. This amount, however, included Rs. 59,464 due from coffee planters who are allowed to defer payment until 31st May. The actual balance was therefore Rs. 7,359.

6. Statement No. 7—*Assignment of land revenue.*—The total value of assignments was Rs. 1,09,035 or an advance of Rs. 1,545 when compared with that of the previous year, due to the assignment of a portion of the assessment levied on the excess area of privileged holdings as discovered by re-survey and settlement.

7. The acreage held under the principal tenures is shown in the following table, which includes the corresponding figures for the previous year :—

Years.	*Sagu.*		*Jama.*		*Jodi.*		*Umbli.*		*Jágir.*	
	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.
1911-1912	43,892	20,296	40,052	191	3,655	940	7,588	38	3,592	925
1912-1913	44,605	19,861	40,556	196	3,698	873	7,670	34	3,752	883

Continued.

Years.	Coffee.	Orange.	Arecanut.	Cardamom.	Rubber.	Agave.	Pepper.	Total.
1911-1912	97,255	2,586	272	54,961	1,319	280	235	278,077
1912-1913	94,332	2,494	237	58,612	2,470	280	1,069	281,622

The increases under wet and dry holdings as well as under pepper are due to corrections in the re-settlement, while the decrease under coffee is accounted for by the relinquishment of deteriorated estates. The advance in the area under cardamom is due to the fresh grant of certain *malés* under the lease system.

8. Statement No. 8—*Incidence of land revenue on area and population.*—This is a quinquennial return prepared in the year under report. The total land revenue excluding cesses was Rs. 3,64,604 giving an incidence of Rs. 2-1-4 per head of population. The incidence per acre of land revenue on the area fully assessed was Rs. 1-12-1.

9. Statement No. 9—*Transfers of landed property.*—Of the 37 transfers of unprivileged lands, 27 cases refer to sales by revenue courts for the recovery of arrears of assessment and the remaining 10 to sales by order of civil courts. In seven cases under the former head the lands were resumed to Government for want of bidders. The number of privileged holdings brought to sale for arrears of revenue were 13, but the area sold amounted only to 9 acres. On their transfer to the auction purchasers the privileged tenure became extinct. The number of sales during the year for the recovery of revenue was the smallest on record.

Agricultural advances.

10. Statements Nos. 10, 11 and 12—*Transactions under the Land Improvement and Agriculturists' Loans Acts.*—The total amount advanced to cultivators during the year under both the acts, which aggregated Rs. 24,240 increased by Rs. 4,240 when compared with that of previous year. This, together with the outstanding balance (Rs. 33,880) at the commencement of the period under review, brought the gross amount for recovery to Rs. 58,120. The realizations aggregated Rs. 17,941 leaving a balance of Rs. 40,179 made up of

(*a*) Rs. 760 which became due but was not realized before the close of the year and (*b*) Rs. 39,419 not payable during the year. The whole of the arrear balance except Rs. 39, the collection of which has been suspended, has since been realized. The net result from these loan operations was an income of Rs. 1,746 as compared with an average of Rs. 877 for the preceding five years.

11. The sum advanced under the Land Improvement Loans Act, 1883, was Rs. 12,450 distributed among 129 ryots in sums ranging from Rs. 20 to Rs. 300. The amount falling due for recovery during the year (including arrears) was Rs. 7,701 and the percentage of collection was 92·99 against 89·04 in the previous year.

12. The advances under the Agriculturists' Loans Act, 1884, amounted to Rs. 11,790. The number of ryots benefited was 326 and the sums distributed ranged from Rs. 20 to Rs. 100. The percentage of realizations was 98·00 as compared with 84·98 in 1911–1912.

13. The steady improvement in the percentage of collections under both Acts is highly satisfactory.

14. Statement No. 13—*Survey and Settlement.*—Nineteen village maps were republished during the year. **Surveys, settlements and land records**

15. Eight land disputes were settled by the Settlement Officer as compared with 39 in the previous year. Forty-four crop experiments were conducted by the Land Record Department.

16. The field work in connection with soil classification has been completed for the whole province. The revised assessment as sanctioned by the Government of India in their letter No. 1031-315-2, dated the 23rd September 1910, has been introduced for the Nanjarajpatna and Mercara taluks and resulted in a total increase of Rs. 6,652–15–7. The re-settlement for the remaining Yedenalknad taluk will be introduced in the coming jamabandi season completing these operations for the whole province.

17. The Department of Land Records and Agriculture continued to be under the control of the Commissioner, but the executive charge vested in Mr. Gustav Haller assisted by Mr. Kodandera Madappa, Assistant Settlement Officer.

18. The progress made by the Land Record Department was satisfactory. The maps and records were kept up to date.

19. The survey school at Fraserpet was not held during the year.

20. The area of land sold under the Waste Land Rules during the year was 252·49 acres. Excluding timber growth, the value realized was Rs. 5,140 giving an average per acre of Rs. 20–6–4, compared with an average of Rs. 8–0–6 per acre in the preceding year. The increase in the average value was due to keen competition in respect of a block of 15·50 acres which fetched Rs. 2,744 excluding timber growth. **Waste lands.**

21. The number of minors (4) under the official guardian at the close of last year remained the same there being no fresh admissions. The arrangements made for the management of the landed property and the recovery of debts due to the minors were satisfactory. **Wards' estates.**

Revenue and rent-paying classes.

22. There are no *zamindaris* in Coorg and the great bulk of the holdings are *ryotwari*, the ordinary tenure being known as *sagu*, though there are one or two separate villages held as *jágirs*. Particulars have been given in paragraph 7 *supra* of the holdings under the various classes of tenure, a description of which will be found in paragraphs 23—30 of the administration report for the year 1911–1912. Owing to the fact that individual ryots frequently hold land under more than one tenure it is impracticable to compile statistics of the several rent-paying classes. Reference has been made in paragraphs 6 and 8 *supra* to the revenue foregone in respect of the several privileged tenures and to the incidence of the land revenue demand on the population, while information as to the average assessment is furnished in Statement No. 82.

III.—PROTECTION.

Standing information,

23. The standing information which should be incorporated in this Chapter is printed at page 14 of the administration report for the year 1911–1912 under the heading "Legislating Authority".

Course of legislation, (1912–1913.)

24. Statement No. 14—*Acts of the Governor General in Council affecting Coorg.*—The Madras Cattle Disease Act, 1886, II of 1886, was with certain modifications extended to Coorg during the year under the Scheduled Districts Act. The Coorg District Fund (Amendment) Regulation, 1913, was promulgated under 33 Vict., c. 3.

Police, (1912.)

25. Statements Nos. 15 and 16—*Cognizable crime.*—The number (556) of cognizable offences reported was 88 more than in the previous year. There was a rise under breaches of special and local laws, but there was a corresponding decrease both under serious and minor offences against property. Police investigation was refused in 15 cases.

26. The percentage of convictions obtained in cognizable cases investigated by the police was 84·52 against 79·68 in the previous year. Of 623 persons arrested by the police, 440 were convicted, the figures for 1911 being 605 and 371 respectively.

27. Four cases of murder were reported during the year. Of these, two ended in conviction, in one the accused was acquitted as he was adjudged to be of unsound mind and the remaining case was pending. Of the three cases pending from the previous year, two ended in conviction and one was referred.

28. One case of culpable homicide was reported during the year. The accused was discharged as it was proved that he acted in self defence.

29. Two cases of dacoity reported during the year were referred.

30. Six cases for preferring false charges were dealt with during the year and convictions were obtained in all of them.

31. Statement No. 19—*Property stolen and recovered.*—The recovery of property was very much better than in the previous year, the percentage being 70·61 as against 28·99.

32. Statement No. 20—*Sanctioned strength and cost.*—The total expenditure was Rs. 52,577 against Rs. 55,407 in 1911.

33. Statement No. 21—*Equipment, discipline, and internal management.*—The actual strength of the police was 227 against 255 in the previous year. The number of sub-inspectors was increased by 5; one was appointed direct and four were sent to Vellore for training. Ten out of the twelve stations were in charge of sub-inspectors. Six policemen were judicially punished, and 104 were departmentally dealt with as against 61 in the previous year. Four men were dismissed during the year. The conduct of the police force on the whole was satisfactory. The number of men who are literate in Canarese was 222 against 249 in 1911. The training school at Mercara was open throughout the year for the instruction of recruits and six men passed through it. The number of Coorgs in the department was 133 against 142 in the previous year. The strength of the head constables was raised by four and that of the constables was reduced by 16.

34. The number of processes issued during the year was 8,499 against 9,025 in 1911; of this number 13 were pending execution at the close of the year.

35. Five suicides were reported as compared with 14 in the previous year and the number of accidental deaths rose from 41 to 53.

36. Mr. E. H. Sullivan was in charge of the department throughout the year.

Criminal Justice. (1912.)

37. Statement No. 23—*Number of criminal courts and trials conducted.*—Mr. R. H. Ellis, I.C.S., District Magistrate, availed himself of leave from 18th April to 4th November 1912 and Mr. A. C. Duff, I.C.S., officiated for him. Mr. K. Appayya, Assistant Commissioner and First Class Magistrate was appointed a Sub-divisional Magistrate and placed in charge of Mercara and Nanjarajpatna taluks. Mr. P. Belliappa, Subedar and Second Class Magistrate, retired during the year after a long and faithful service of 37 years. There were no other permanent changes in the personnel of the subordinate magistracy.

38. Statement No. 24—*Particulars regarding the trial of offences.*—The number of cases brought to trial (2,266) was 395 more than in the previous year, while the number of offences reported (2,489) increased by 369. Under the Workman's Breach of Contract Act, 1,067 cases involving 1,067 persons were instituted as compared with 712 cases in 1911. Excluding this class of cases, the criminal trials during the year resulted in the discharge or acquittal of 1,094 persons and the conviction of 698. The percentage of convictions was thus 38·95 compared with 38·91 and 36·30 in the two previous years. Excluding petty cases of hurt, assault, mischief and insult, most of which are only technically criminal, the percentage of persons convicted comes to 69·99 against 71·21 in the previous year. Offences against public tranquillity and justice numbered 35, those against the person 291, and those against property 230, while there were 151 other offences under the Indian Penal Code, and 1,559 breaches of special and local laws. Petty cases under the Police Act showed an increase (281 as against 205), but cases under the Arms Act (42 as against 51), Excise Act (60 as against 73), and municipal by-laws (38 as against 57) decreased. The number of offences against property was 230 against 224 in the previous year. Eleven persons were found guilty of offences classed as heinous crime. Of these, seven were convicted of murder. The sentence of death passed in one case was commuted to transportation for life. In the case of a woman convicted of murdering her illegitimate child, the sentence of transportation for life was reduced to one of rigorous imprisonment for two years. Four persons were convicted of attempt to commit suicide.

There were no cases of opium smuggling during the year, nor were any proceedings taken under the Indian Press Act.

39. Statement No. 26—*General result of criminal trials.*—The average duration of each case was 8 days in the District Magistrate's court and 18 days in the subordinate courts.

40. Statements Nos. 27 to 31—*Punishments inflicted by the various courts.*—One person was sentenced to capital punishment by the Sessions Judge but the sentence was commuted to transportation for life by the Judicial Commissioner; five were sentenced to transportation for life, of which one was commuted to two years' rigorous imprisonment. Whipping was awarded in only one case. As stated in last year's report the decrease in this form of punishment is chiefly due to the withdrawal of whipping powers from the second class magistrates. The amount of fines imposed and of compensations paid was Rs. 9,212 and Rs. 375 respectively as compared with Rs. 6,920 and Rs. 471 in the previous year. The increase in fines is chiefly attributable to a heavy fine of Rs. 2,500 imposed in two cases of bribery by a public servant and Rs. 500 in a case of criminal breach of trust by an estate writer. The percentage of realizations was 90 against 70 in the previous year. One old offender who was convicted was ordered to notify his residence under section 565 of the Criminal Procedure Code.

41. Statement No. 32—*General result of the trial of European British subjects.*—One European British subject was brought to trial for an offence under section 32 of the Indian Arms Act but was acquitted.

42. Statement No. 33—*Result of appeal and revision.*—Eleven appeals were preferred before the District Magistrate. In one case the sentence was reversed and in another reduced. Ten cases were dealt with by the Sessions Judge. Sentences in five cases were reduced and in two reversed. The Judicial Commissioner received seven appeals against convictions. Of these, the sentences in six cases were confirmed and reduced in one. There were in all 23 applications for revision as compared with 20 in the previous year. Of these nine were preferred to the Judicial Commissioner who, in five cases, upheld the orders passed.

43. Statement No. 34—*Juries and assessors.*—Trials before the Sessions Court were conducted with the assistance of assessors.

44. The records and registers of all subordinate courts were inspected by the District Magistrate during the year.

Prisons. (1912.)

45. Statements Nos. 35 to 62—*Detailed statistical information regarding the administration of the jail department during the year 1912.*—The particulars for the Mercara District Jail and the four lock-ups attached to the taluk offices at Somwarpet, Napoklu, Virajendrapet and Ponnampet, are given separately.

46. The bulk of the jail population is confined in the District Jail and the lock-ups are used only for under-trial prisoners, persons sentenced to periods of imprisonment not exceeding fifteen days, and convicts temporarily detained pending transfer to the District Jail.

Sub-jails.

47. The total number of admissions to lock-ups during the year under report was 332 or 24 more than in the previous year. The number of convicts included in this total fell from 81 to 72, and 62 of these were for transfer to the District Jail. Ten convicts were confined in the lock-ups as against twenty-two in the previous year. The maximum period of detention in the case of under-trial prisoners was 60 days, the average being 14 days. The expenditure on dieting charges per annum per head of average strength rose from Rs. 63 to Rs. 105. The ordinary allowance per man is one seer of rice and five pies' worth of curry stuff.

District Jail.

48. The accommodation available was the same as in 1911. The wards provide for the custody of 151 prisoners of all classes. The largest number in custody on any one day was 88. In the male under-trial ward there was slight overcrowding which was relieved by making use of other wards.

49. Statements Nos. 36 to 43—*Number and disposal of jail population, classification according to religion, age, offences, etc.*—The daily average strength including under-trials and civil prisoners was 66·59 against 67·88 during the previous year. Of the total jail population (370), 190 were convicted prisoners, 169 under-trials and 11 civil debtors. The figures for 1911 were 205, 135 and 17 respectively while those for 1910 were 191, 139 and 14.

50. Thirty-nine convicts were in custody on the 31st December 1911 and 151 were admitted during the year. Of these, 103 were released on expiry of sentence, six on appeal and seven under remission rules, eight were released on account of remissions granted on the Imperial Delhi Durbar Day, two died and four were transported to the Andamans. There were thus 60 convicts in confinement on 31st December 1912.

51. Of the under-trials, 68 were subsequently convicted, 72 were released, and 11 were transferred to other jails and 18 remained in custody at the close of the year.

52. Statements Nos. 44 to 49—*Particulars regarding jail discipline.*—The number of offences committed by convicts fell from 39 to 30. Three offences related to work, seven to receiving and possessing forbidden articles, nine to assaults, two to theft of a gold brooch and nine to other breaches of jail discipline. The two convicts who escaped in 1905 and the convict who escaped in 1902 were not re-arrested. Corporal punishment was inflicted in three cases during the year for breach of jail discipline. Of the total number of jail offences 50·16 per cent. were committed by habitual offenders whose proportion to the entire jail population was 11 per cent. Prisoners of this class were kept, as usual, in cubicles at night, and in separate gangs at meal time, and were not appointed to the post of maistry. Seven convicts were released under the remission rules during the year, the maximum remission earned being 313 days by a convict under sentence of imprisonment of seven years.

53. Statements Nos. 50 to 53—*Scales of diet.*—Diet was, as usual, supplied departmentally in accordance with the authorized scale and the result was satisfactory. The quality of the food was good and the quantity sufficient to keep the prisoners in good health. The daily cost per head was two annas and seven pies or three pies more than in the previous year. The increase was due to the price of food-grains being higher during the year. The gross outlay on the articles of food was Rs. 3,861 against Rs. 3,490 in the preceding year. On account of the small jail population, however, there remained at the close of the year provisions to the value of Rs. 610 out of the stock purchased during the year under report.

54. A sum of Rs. 153 was spent in purchasing clothing for the prisoners.

55. Statements Nos. 54 to 56—*Detailed statistics of health.*—Water is supplied from the Mercara reservoir. Conservancy and drainage arrangements were adequate and satisfactory. The health of the prisoners was better than in the previous year, the rate of sickness per mille having fallen from 14·88 to 11·26. There were two deaths among the convicted prisoners, one was due to diarrhœa and the other to pneumonia.

56. Statement No. 57—*Gain and loss in weight of the prisoners.*—Of the 130 convicts discharged from jail, 90 had gained in weight while 18 had lost, the variations in the case of 14 of the latter being under 5 lbs. No convicts were released on medical grounds.

57. Statement No. 58—*Expenditure on guarding and maintaining prisoners.*—The gross expenditure was Rs. 10,906 against Rs. 9,074 in the previous year. The increase in expenditure was due to the revision of jail establishment, the biennial supply of clothing to the warders and to the purchase of a lathe with accessories for the jail manufactory. The gross average cost per prisoner (Rs. 164) was Rs. 30 more than in the previous year.

58. Statement No. 60—*Employment of convicts.*—The work of the prisoners was, as usual, carefully arranged with reference to class, sex and health. In-door labour consisted chiefly of grinding ragi and carpentry.

59. Statement No. 61—*Net cash earnings of convicts.*—The total receipts from jail manufactures was Rs. 2,868 against Rs. 3,419 in the previous year. As usual, the bulk of the receipts were from carpentry. The expenditure on materials amounted to Rs. 1,822 against Rs. 1,075 and the net profit to Government was thus Rs. 1,046 as compared with Rs. 2,344 in the previous year. Taking this profit into consideration, the net expenditure was Rs. 9,860 against Rs. 6,730 in 1911 and the average cost per prisoner rose from Rs. 99 to Rs. 148.

60. The jail was visited during the year by the Chief Commissioner of Coorg, and it was periodically inspected by the local official visitors. Captain W. R. J. Scroggie, I.M.S. was in charge of the jail throughout the year.

Civil Justice, (1912.)

61. There was no change in the number of Civil Courts (five) or their jurisdiction. The jurisdiction of the Munsiffs in small cause suits was raised from Rs. 50 to Rs. 100 in view of the increase of original suits and with the view of reducing their pendency.

62. Statement No. 63—*Number and description of suits instituted.*—The number of suits filed (2,651) was more than that of the previous year by 143. This is again the highest figure during the past decade.

63. Statement No. 64—*Number and value of suits instituted.*—The total value of suits was Rs. 243,961 or 31·42 per cent. more than that of the previous year and the average value (Rs. 92) is eighteen rupees higher.

64. Statement No. 65—*General result of the trial of original cases.*—The number of cases decided was 2,696 as against 2,540 in 1911 and the arrears fell from 404 in the previous year to 359 in the year under report.

65. The number of suits decreed *ex-parte* was 1,278 of which 92 were restored to file. Nine out of sixteen applications for review of judgment were granted. Five applications to sue *in forma pauperis* were received and three were granted, while two were rejected.

66. The total number of witnesses who attended the courts was 1,990 as against 2,438 in 1911. Fifty-two witnesses were detained for more than three days, while 1,567 were discharged on the first day of attendance.

67. Statement No. 66—*General result of the trial of miscellaneous cases.*—Including 65 pending at the close of the previous year the number of miscellaneous applications before the courts was 700; of these, 641 cases including 9 applications under the Guardian and Wards' Act, 1890, and 4 for probate and letters of administration, were decided.

68. Statements Nos. 67 and 68—*Regular and miscellaneous appeals.*—The number of regular appeals filed was 39 as against 30 in 1911; of these, one was successful and two were modified. There were eleven miscellaneous appeals as against 12 in the previous year and one was successful and one modified. Seven appeals

out of nine including two pending at the close of the year 1911, were decided by the Judicial Commissioner and in two cases the orders of the lower court were upheld. There were three miscellaneous appeals including one pending from the previous year; in two the orders of the lower court were confirmed. No case was pending at the close of the year.

69. Statement No. 69—*Particulars of execution proceedings.*—The number of cases filed was 3,433. In 57·59 per cent. no recovery was effected.

70. Statement No. 70—*Results of insolvency applications.*—Out of the 22 applications including 5 pending from last year, sixteen were withdrawn, three were rejected and one was granted; two were pending at the close of the year.

71. The total number of processes issued by all courts during the year was 16,350, the realization from process fees being Rs. 8,493-3-0.

72. The quarterly and annual returns of the subordinate courts were scrutinized by the District Judge, and all the courts were inspected by that officer. There were 10 first grade and 12 second grade pleaders and one Barrister practising in the province.

---

73. Statements Nos. 71 to 74—*Working of the Registration Department.*— The total number of documents registered rose from 2,748 in the previous year to 2,923 in the year under report; this is the highest number recorded during the past decade. On the other hand there was a decrease (Rs. 34,692) in the value of property concerned. The total receipts from fees (Rs. 5,347) and the surplus realized (Rs. 1,481) from the working of the department were more than in the previous year, while the total expenditure decreased by Rs. 10. The average surplus for the last ten years has been Rs. 1,259. **Registration.** (1912.)

74. The number of documents pending delivery at the end of the year was 22 against 7 in the previous year, and the average time taken to register each document was 12 hours. Registration was refused in five cases and there were no appeals against the refusal orders.

75. All the sub-registry offices were inspected by the Registrar and that of the Registrar by the Inspector-General.

---

76. Statement No. 75—*Constitution of the District Board.*—The number of representative landholders on the District Board was during the year increased from four to five so that each taluk might be represented by a landholder. To the additional membership thus created Mr. M. I. Mandanna was nominated. There was no other change in the *personnel* of the Board during the year. **District Board.** (1912-1913.)

77. Statement No. 76—*Income of the District Board.*—Excluding the opening balance the receipts amounted to Rs. 1,10,757 as compared with Rs. 73,400 estimated in the budget; the increase was entirely due to the special grant of Rs. 36,500 made at the close of the year by the Government of India for the improvement of education.

78. Statement No. 77—*Expenditure of the District Board.*—The expenditure was Rs. 86,037 as compared with Rs. 84,200 budgetted for.

79. Five new schools were opened during the year bringing the number of schools under the management of the Board to 70 with 4,387 pupils in attendance as compared with 65 schools and 3,578 pupils respectively in the previous year. English was taught in seven schools to 462 pupils against 252 last year.

Out of the total number of 3,216 boys and 1,171 girls attending the schools, 1,867 boys and 864 girls were Coorgs by race. The percentage of children protected from small-pox was 95·31 against 97·38 in the previous year. There were nine schools for the education of Panchamas of whom 222 were under instruction against 188 in the previous year. In five of the schools, caste boys were also admitted.

At the close of the year under report a special grant of Rs. 36,500 was made by the Government of India for the improvement of education. This grant is being utilized for constructing new schools and for extending the existing ones.

The total outlay on education was Rs. 18,760 as compared with Rs. 15,502 in 1911–1912 representing a percentage of 25·2 of the total income excluding the special grant referred to above. The increase is due to the entertainment of additional teachers both in the existing and newly opened schools and to the supply of furniture, etc., to them. The income from school fees was Rs. 3,270 as compared with Rs. 2,685 in the previous year.

80. There was no change in the number of local fund dispensaries (6). The total number of out-patients attended to was 54,540 as compared with 47,838 in 1911–1912. At the Somwarpet hospital, 315 in-patients were treated against 243 in the previous year. The principal ailments treated were malaria, dysentery, diarrhœa and diseases of the digestive and respiratory systems.

The gross expenditure on dispensaries including sanitation (Rs. 10,973) was Rs. 556 more than in the previous year.

81. The Sanitary Inspector was engaged in inspecting the municipalities and pettas and was also on plague duty for a short time at Sidapur.

82. The number of travellers' bungalows (4) and of shelter houses for the use of immigrant coolies (4) remained the same as in last year. The fees realized from the bungalows (Rs. 485) failed as usual to cover the outlay incurred in the shape of establishment charges (Rs. 1,108).

The net revenue from tolls amounted to Rs. 15,222 as compared with Rs. 17,132 in the preceding year. The decrease is chiefly due to the fact that the amount due for the year under report was collected in advance in the previous year. There was no change either in the number (25) or in the working of the ferries; the revenue realized was Rs. 1,152 as compared with Rs. 1,011 in the preceding year.

Village communications and bridle-paths were improved at a cost of Rs. 676.

83. The grant for public works under the control of the Board was Rs. 48,500 and the expenditure Rs, 44,166. The lapse of Rs. 4,334 is only apparent. A sum of Rs. 2,930 paid to a planter on account of compensation for land acquired for the Suntikoppa-Sidapur road and which has been met from the civil department remains to be finally adjusted to the debit of the public works expenditure. The balance represents savings under establishment.

84. Under *civil buildings* an expenditure of Rs. 4,213 was incurred. The weaving school at Sanivarsante was completed during the year and additional accommodation was provided in the local fund school at Kakotparambu. Improvements were also made to certain dispensaries and Sub-Assistant Surgeons' quarters. The annual repairs to local fund buildings account for an outlay of Rs. 515.

85. As usual the bulk of the expenditure was devoted to communications. On *original* works the gross outlay was Rs. 8,442. The greater part of this amount was spent on the works which were in progress during the past year, viz :

(i) Metalling the Gonikoppal-Pollibetta road.
(ii) Completing the junction road from Suntikoppa to Sidapur.
(iii) Metalling the first section of the Fraserpet-Sidapur road.
(iv) Constructing the bridge across the Kotail stream on the Mercara-Nalknad road.

The only new work taken in hand during the year was the opening out of the Sidapur-Pollibetta road.

Under 'minor works' a sum of Rs. 6,519 was spent on the construction or improvement of petty bridges and drains on lines of communication.

86. The outlay on repairs to communications amounted to Rs. 13,411. This includes Rs. 548 expended on ferries, Rs. 208 on bridle-paths, Rs. 478 on travellers' bungalows and Rs. 108 on toll-gates.

The length of communications maintained during the year was the same as in the previous year, viz : 155 miles $3\frac{1}{2}$ furlongs, of which 8 miles and 7 furlongs were metalled and 124 miles $2\frac{1}{2}$ furlongs unmetalled roads, while the remainder consisted of bridle-paths.

The roads under the control of the Board were kept in order at an average cost of Rs. 69 per mile including the upkeep of bridle-paths.

87. Under miscellaneous public improvements a sum of Rs. 2,789 was spent, the major portion being on wells at Sidapur, Pollibetta, Gonikoppal and Srimangala.

88. The balance of the public works expenditure represents the usual charges on account of establishment (Rs. 7,770), and tools and plant (Rs. 507).

---

89. Statements Nos. 78 to 80—*Constitution, income and expenditure of municipalities.*—The by-laws under the Coorg Municipal Regulation, 1907, have been drafted on the lines of those of the Central Provinces and they are under consideration. In the meanwhile the old by-laws continued in force. Municipal. (1912-1913.)

Mercara Municipality.

90. Mr. K. Appayya, R.B., Assistant Commissioner of Coorg was appointed President of the Municipality with effect from the 1st April 1912, and in the place of the Executive Engineer and the Civil Surgeon, the Sub-divisional Officer, Public Works Department, stationed at Mercara and the Assistant Surgeon were nominated as ex-officio members. At the 15 meetings held during the year, the average attendance of the ex-officio and non-official members was respectively 3·47 out of 5, and 6·8 out of 10.

91. The actual receipts of the year including the opening balance of Rs. 2,446 amounted to Rs. 45,494 and the expenditure to Rs. 17,395, as compared with the budget estimates of Rs. 16,350 and Rs. 16,990 respectively. The cash balance at the close of the year was Rs. 28,099. The gross demand, including an outstanding balance of Rs. 908, was Rs. 43,386. The collections and remissions (Rs. 89) amounted to Rs. 43,137 leaving an uncollected balance of Rs. 249 at the close of the year.

92. The most important items of expenditure were Rs. 3,041 under conservancy, Rs. 766 on the maintenance of roads, Rs. 183 on water-works, Rs. 369 on lighting, Rs. 374 on the eradication of lantana and Rs. 550 on preventive measures against epidemics.

93. A non-recurring grant of Rs. 27,000 was made by the Government during the year for sanitary purposes. Out of this amount Rs. 3,000 were made over to the Virajendrapet Municipality and the balance is being utilized for the following works:—

(i) draining the swamps round Mercara,
(ii) improvements to the water-supply system,
(iii) improvements to the Coronation Garden, and
(iv) improvements to Gowli lines.

94. The site of the Lascar bazaar acquired by public subscription assisted by a grant from Government as a Memorial of His Imperial Majesty's visit to India is being converted into a garden. The Chief Commissioner during his visit in November 1912 declared it open under the name of the "Coronation Garden" and on behalf of the public handed it over to the Municipality. Out of the Imperial grant referred to in paragraph 93 a sum of Rs. 2,000 has been allotted for laying out and improving the garden.

Virajendrapet Municipality.

95. There was no change in the composition of the Committee. The average attendance at the eleven meetings held during the year was 2·9 in the case of official, and 4·3 in the case of non-official members, the total strength being five and nine respectively.

96. Including a non-recurring special grant of Rs. 4,500 made by Government for the improvement of sanitation and primary education and an opening balance of Rs. 6,290 the gross receipts aggregated Rs. 18,750 and the expenditure to Rs. 8,742 leaving a closing balance of Rs. 10,008.

97. The total demand under all heads of revenue, including an outstanding balance of Rs. 31 at the beginning of the year was Rs. 12,509: of this, Rs. 12,460 were collected leaving a balance of Rs. 49 at the end of the year.

98. The town was free from plague during the year. In order to foster technical education under the auspices of the Municipality a tailoring school mainly for the benefit of Muhammadans was started on 1st April 1912 and the progress of this institution is being watched.

Notified Areas.

99. The average attendance of members at the three meetings held by the Fraserpet Committee was 3·5, the total strength being eight. The income was Rs. 807 and the expenditure Rs. 761. Rs. 45 were spent on road repairs and Rs. 465 under conservancy. The closing cash balance was Rs. 885.

100. The Somwarpet Committee held seven meetings at which the average attendance of members (7) was 10·5. The income of the year was Rs. 2,440 and the expenditure Rs. 2,108. The important items of expenditure were Rs. 443 for the construction of additional tiled market stalls, Rs. 780 under conservancy and Rs. 300 for the construction of side drains. Excluding Rs. 700 held in Government securities, the cash balance at the close of the year was Rs. 1,654.

101. At the four meetings held by the Kodlipet Committee, the average attendance of members was 6·6, the total strength being six. The receipts amounted to Rs. 1,123 and the expenditure to Rs. 897. Rs. 43 were spent on road repairs and Rs. 399 under conservancy. The cash balance at the end of the year was Rs. 593.

(Volunteering.) (1912-1913.)

102. The total strength of the Coorg and Mysore Rifles on the 31st March 1913 was 262. The command was held throughout the year by Lieut.-Col. G. R. Pearse, V. D., and the adjutancy by Lieut. N. D. Shaw of the Q. O. Cameron Highlanders from 1st April 1912 to 20th February 1913, and Captain W. B. Roberts of the 101st Grenadiers from 21st February 1913. No camps of exercise were held last year with the exception of one for C. Company at Chickmagalur in October 1912.

IV.—PRODUCTION AND DISTRIBUTION. (1912–1913.)

Character of the seasons.

103. Statement No. 3—*Rainfall and climate.*—The weather conditions were fairly normal both for wet and dry crops and the outturn was about an average one. The coffee crop was below the average as a natural result of heavy crops in the previous two years. The cardamom crop was affected by scanty rains in February and March and the outturn was much below the average. There was, however, a great improvement in price on account of the increased demand for this spice. The total rainfall in 1912 was 133·49 inches as compared with an average of 125 inches for the past 15 years.

Area under cultivation and cropped area.

104. Statement No. 81—*Area under crops.*—The total area cropped during the year was 140,253 acres as compared with 141,228 acres in 1911–1912 or a net decrease of 975 acres, chiefly under *ragi*, the area cultivated with which invariably fluctuates. Including the second crop cultivation (437 acres) the area under rice was 83,022 acres giving a percentage of 82·79 to the gross wet holdings (100,281 acres) as compared with 83·55 in the previous year. The total area of dry holdings was 21,847 acres, the extent actually cropped being 8,851 acres, which includes 653 acres of second crop cultivation. The total extent held under the coffee tenure was 94,332 acres, which included (*a*) 9,356 acres of *ryotwari* cardamom *malés*, (*b*) 1,792 acres of orange gardens, (*c*) 36,909 acres of abandoned coffee or land granted for coffee but not planted and (*d*) 3,765 acres planted with rubber. The area under actual coffee cultivation is thus 42,510 acres as compared with 43,313 acres in the previous year: the decline of 803 acres is due to the relinquishment of deteriorated gardens. In addition to the area shown under (*d*) *supra* 2,470 acres are cultivated with rubber and 114 acres with *agave*.

105. The area which is estimated as being cultivated with cardamoms, viz., 2,332 acres is made up of *jama malés* (382 acres), (*b*) leased *malés* (1,354 acres) and (*c*) coffee assessed *malés* (596 acres); the aggregate holdings under these heads being 8,976, 49,636 and 9,356 acres respectively (total 67,968 acres).

106. The 4,628 acres shown as "fruits and vegetables" include 4,286 acres of orange gardens of which 1,792 acres are cultivated in the area held under coffee tenure referred to in paragraph 104 *supra*. The extent of pepper cultivation as a by-product on lands held under the coffee tenure is returned as 7,572 acres and that on other holdings as 1,069 acres.

Irrigated area.

107. The area irrigated from Government channels and tanks was respectively 2,610 and 1,750 acres. As compared with the figures of previous year there is a net decrease of 90 acres in the area irrigated from tanks.

Outturn per acre and total produce.

108. Statement No. 82—*Rates of rent and produce.* The outturn under rice and *ragi* was normal. The coffee crop was much below the average, the estimated outturn being 2,516 tons against an average of 3,932 tons for the previous five years.

Prices, trade and stocks.

109. Statements Nos. 83, 93, 94, 95 and 96—*Prices, imports, exports, coinage and paper currency.*—Compared with the previous year there was no variation in the price of rice and *ragi*. There was a slight improvement in the price of coffee, which to a small extent compensated the planters for the low outturn. The export and import figures are for the most part compiled from the information supplied by the toll-gate contractors and cannot be relied on; nor is it possible to draw any inference as to the state of trade from the prescribed returns of coinage and paper currency.

Agricultural stock.

110. Statement No. 85—*Live-stock.*—This is a quinquennial return. The figures were compiled for the year 1909–1910. The total number of deaths among cattle from all causes aggregated 5,776 as compared with 5,172 in the previous year. Of this number, 529 were reported to be due to anthrax and 432 to foot and mouth disease.

111. Statements Nos. 86, 87, 88, 89, 90, 91 and 92 —*Cost of the Veterinary Department, etc.*—The Madras Cattle Disease Act, 1886 (II of 1886), was extended to Coorg under Chief Commissioner's Notification No. 92, dated 17th December 1912. This will greatly strengthen the hands of the Veterinary Department in dealing with the question of prevention of the spread of disease among cattle in the province. Although it is gratifying to report that there was no out-break of rinderpest there was unfortunately no decline in anthrax, black quarter and foot and mouth disease. Including 42 visits to sick elephants belonging to the Forest Department, 1,572 animals were treated for various ailments by the Veterinary Assistants while on tour. The fact that 1,298 cases were treated in the dispensaries prove that the Veterinary Department is gaining in popularity. In the slack season the Veterinary Assistants did much good work by lecturing on matters relating to the stabling of animals and on treatment of sick animals. They also rendered valuable service by examining animals for the Cattle Insurance Co-operative Societies recently started in the province. The total receipts and expenditure of the department were Rs. 201 and Rs. 3,457 respectively. The general supervision of the department was vested in Mr. Gustav Haller as in the previous year. At Somwarpet the buildings consisting of the dispensary, quarters for the Veterinary Assistant and out-houses generously promised by M.R.Ry. D. Venkatramana Shetti were almost completed.

Condition of the agricultural population.

112. Statement No. 84—*Prices of Labour.*—The labour market was well supplied: the slight rise in the rate of hire which occurred in the previous year however continued.

113. The experimental plots at Virajendrapet, Napoklu and Somwarpet were closed at the end of the previous year and attention was concentrated on the plots at Sidapur and Gonikoppal. The experiments were confined to ragi, gram, maize, oranges and leguminous plants for green manuring. After a trial for five years it has been decided to abandon ragi as unsuited to the wet climate. Orange plants were sold at cost price and were readily purchased: these are planted on lands cleared of lantana. The total receipts and expenditure of the Agricultural Department were Rs. 377 and Rs. 2,495 respectively.

Forests.

114. The area of the reserved forests was reduced during the year by 48 acres due to the disforestation of 19 acres of the Anekad forest and 29 acres of the Brahmagiri reserve for wet cultivation. The area at the close of the year was 333,057 acres.

115. One hundred and twenty old cairns were repaired at a cost of Rs. 62.

116. The existing roads and buildings were kept in repair at a cost of Rs. 1,935 and Rs. 2,265 respectively. A new cart road from Urti on the Virajpet-Cannanore road up the valley of the Barapolé was commenced and about one mile and a half partly made. Cholera effectively stopped the work in March 1913. Drag paths were also commenced to serve as feeders to this road. A trace for a bridle-path along the eastern slopes of the ghâts was made from Nalknad Palace to near Bhagamandala. The path will be constructed this year.

117. New quarters were partly constructed for 3 foresters and 7 guards at Nagerholé, Dubaré and Gaddigé. The rest-house at Kanvé which was in a very precarious condition was pulled down and its materials were used for building a similar bungalow at Hebbalé The work was not completed by the end of the year. The old distillery building near Fraserpet was converted into a sandal koti. A sum of Rs. 16,000 was spent in the purchase of the "Knoll" bungalow for the accommodation of the Deputy Conservator.

118. The number of offences reported during the year was 32 against 36 in the previous year. Of these six were compounded on payment of compensation by the delinquents, and in twelve cases the offenders were let off with a warning. In the remaining fourteen cases prosecutions were instituted of which nine ended in conviction, three were dismissed and two were pending at the close of the year. In both the cases which were pending at the close of the previous year, the offenders were convicted.

119. There were 21 forest fires affecting 3,004 acres against eleven covering an area of 3,367 acres in the previous year. Two of these were attributed to incendiarism, eleven to the spread of fire from adjoining paisaris, five were caused by accident or through carelessness in burning and one by workmen employed in the forests by purchasers of forest produce. The causes of the remaining two are unknown.

120. The prescribed areas were as usual open to grazing and the revenue realized including the sale proceeds of grass amounted to Rs. 1,244 as against Rs. 690 in the preceding year, the increase being due to the suspension by order of the Chief Commissioner of the grazing restrictions in the North Coorg Forests (Yedavanad, Jainkal and Nidta). Free grazing was permitted to persons who enjoy a customary right to it. The restrictions imposed upon free grazing in Anekad and Attur forests referred to in last year's report were withdrawn during the year.

121. The cultural operations of the year included the sowing of 90 acres with sandal seed; re-sowing the 25 acres sown with sandal seed in South Coorg during the previous year; burning 1,266 dead bamboo clumps, and sowing the blanks with teak, honne, and biti seeds; and the sowing of these seeds in 3,490 blanks caused by the felling of trees in South Coorg. Seed of evergreen species was sown along the banks of streams in South Coorg and in parts of the Kutompolé teak plantation. Lantana was cleared in the sandal plantations in North Coorg. Sandal trees affected with spike were also uprooted. The kumris were weeded and rewards paid for raising 73,500 teak plants in Hatgat and Kutompolé Ranges. The total expenditure under this head was Rs. 7,223 against Rs. 5,612 in the previous year.

122. A commencement was made during the year in uprooting lantana in the forests and sandal bearing paisaris in accordance with the recommendations of the Inspector-General of Forests. The work being new it was impossible to obtain contractors till late in the year. It was however thought that at all events, as far as paisaris were concerned, the local ryots would have so much interest in getting the country cleared of lantana that they would come forward to work without much persuasion. The opposite however was found to be the case, the local ryot being far too lazy to do anything approaching an honest day's work. Hence the allotment provided (Rs. 15,000) could not be spent, and much of the work done was more expensive than it otherwise might have been.

123. In reserved forests 690 acres were cleared at a cost of Rs. 3,809, and 371 acres of paisari were cleared at a cost of Rs. 2,517. The regrowth on 336 acres of forest and 62 acres of paisari was cleared at a cost of Rs. 572 and Rs. 108 respectively. In addition a sum of Rs. 2,000 was spent in cutting and burning lantana in the Anekad forest in the dry weather in order to facilitate uprooting in the rainy season. The amount actually spent on the work of uprooting the pest was Rs. 9,006. In addition to this, Rs. 2,906 were spent on construction of lines, purchase of tools, and pay of temporary establishment. The areas on which lantana was uprooted were as follows:—

	Acres.
Nalkeri and Hatgat forests	309
Arkeri forest at Tittimatti	136
At Dubare forest bungalow	7
Near Anekad forester's house	20
Paisaris near Fraserpet	355
Paisaris near Ramaswamikanvé	16
Forest near Banawara	97
Plantation at Mercara	19
At Makut	102
Total ...	1,061

124. The quantity of timber felled departmentally in reserved forests was 161,433 cubic feet against 154,033 cubic feet in the previous year. The timber felled by purchasers amounted to 116,760 cubic feet as against 167,050 cubic feet, the decrease being due to the smaller area of land sold under the waste land rules. 194 tons of sandalwood were collected at an average cost of Rs. 24 per ton, of which 185 tons were sold and realized Rs. 1,14,979, the price per ton (Rs. 621) being the highest on record. The number of bamboos and reeds removed was 181,525 and 59,550 against 121,450 and 60,200 in the preceding year.

125. The revenue realized from cardamoms was Rs. 18,505 against Rs. 17,784, and that from minor forest produce Rs. 3,723 against Rs. 3,032 in the previous year.

126. A sum of Rs. 10,105 was recovered on account of timber growth on the lands newly taken up for cultivation against Rs. 19,812 in the previous year, the total number of valuations made by forest officers being 120 as against 87 in the preceding year.

127. Free grants were made to the value of Rs. 101 during the year and consisted of bamboos distributed to the poor inhabitants of Mercara for the purpose of roofing their houses, the thatched roofs of which were removed for sanitary reasons. A few reeds and poles were also given for repairs of a village school.

128. Four elephants fell into pits during the year and all of them are in good condition. The cost of the capture and training amounted to Rs. 680 against Rs. 913 in the preceding year.

129. Including receipts in foreign treasuries and book adjustments the total revenue and expenditure of the year amounted respectively to Rs. 2,81,652 and Rs. 1,61,544 and the net surplus realized was Rs. 1,20,108. The decrease in the surplus is due chiefly to increased expenditure, Rs. 25,000 having been spent on buildings and roads, Rs. 12,000 on uprooting lantana and Rs. 2,000 on purchase of machinery for weighing sandalwood.

130. Mr. H. Tireman continued to be in charge of the department throughout the year and Mr. E. M. Crothers, Extra Assistant Conservator in charge of the Sub-division.

Mines and quarries.

131. There are neither Act-mines nor non-Act mines in Coorg. Granite and laterite are worked out from small quarries for the purpose of metalling roads but no account of the quantity raised is kept. A large quantity of clay is used for making bricks.

Manufactures.

132. There are no factories in Coorg and manufactures in the ordinary sense of the term are locally unknown.

Public works.

133. The revenue credited to Imperial Public Works amounted to Rs. 6,852 and was realized chiefly from the sale of old materials, rents of buildings and hire of tools by contractors; Rs. 52 appertained to "military" and the balance to civil receipts.

134. Including charges debited to military works and outlay on stock not charged against any sanctioned works, the expenditure for the year aggregated Rs. 3,01,429 against the grant of Rs. 3,14,484.

135. A sum of Rs. 560 out of a grant of Rs. 1,620 was spent on improvements and repairs to the quarters of the Sergeant-Instructors at Mercara,. Pollibetta, Chickmagalur and Saklespur. (Military.)

136. The expenditure on civil buildings was Rs. 90,666 against a grant of Rs. 87,598. The major works completed were (*a*) the construction of quarters with out-houses for the Head Master, Central High School, Mercara, (Rs. 5,342), and (*b*) improvement to the Government Primary School at Somwarpet (Rs. 2,545). (Civil.) Buildings.

137. On minor works a total expenditure of Rs. 36,077 was incurred. Rs. 17,396 were spent on repairs to civil buildings.

138. The outlay on communications aggregated Rs. 1,22,675 against a grant of Rs. 1,23,780. The expenditure on original works was Rs. 30,077 against a grant of Rs. 30,515. The major works in progress were:—(i) metalling the second section of the Fraserpet-Somwarpet road from the junction of the Kudigé road to Mercara (Rs. 131), (ii) metalling the fifth and sixth miles of the Fraserpet-Sirangal road (Rs. 1,122), (iii) metalling the second half of the first section of the Mercara-Kodlipet road (Rs. 1,168), (iv) constructing a road bridge across the Kadanur river on the Mercara-Periambadi road (Rs. 1,608), (v) constructing a bridge across the Devarakolli stream on the Sampaji ghât road (Rs. 3,647), (vi) constructing a bridge on 131/6 of the approaches to the Periambadi ghât (Rs. 1,108), (vii) reconstructing the Madénad bridge on the Sampaji ghât road (Rs. 1,685), (viii) raising the Mercara-Periambadi road on the south margin of the Cauvery at 12/5 and 12/6 (Rs. 3,001), and (ix) providing Horbury's steel flooring for the bridge at 136/1 of approaches to the Periambadi ghât Rs. (5,341). The construction of a bridge 30′ span across the Sanivarsante stream was completed during the year, and the final total cost of the work amounted to Rs. 6,994. Communications.

139. On minor works a sum of Rs. 11,071 were spent during the year.

140. Including the usual outlay on the upkeep of bungalows, cooly lines and bridges, the disbursements on account of repairs amounted to Rs. 92,598. The existing communications were maintained in good order. The length of metalled and unmetalled roads maintained during the year was the same as in the previous year, viz., 190 miles $3\frac{3}{4}$ furlongs and 59 miles $3\frac{1}{4}$ furlongs respectively.

141. The rain-gauges at various centres were, as usual, repaired during the year.

142. The grant under irrigation was Rs. 18,000, of which Rs. 6,968 were spent. The work in progress was the raising of the bund of the Rangasamudra channel. Minor improvements were executed to several tanks in various parts of the province. Irrigation.

143. The expenditure on establishment and tools and plant was Rs. 75,702.

144. The department remained under the control of the Public Works Department of Madras and was attached to the fourth circle, the Superintending Engineer of which continued to be the controlling officer and professional advisor to the Chief Commissioner.

145. Mr. R. N. H. Reid held the office of Executive Engineer till 9th February 1913 when he was succeeded by Mr. A. G. Romilly.

V.—REVENUE AND FINANCE. (1912-1913.)

Imperial Revenue and Finance.

Gross Revenue.

146. The gross *demand* under all heads of Imperial revenue (Rs. 8,60,721 as compared with Rs. 8,27,481 in 1911-1912) showed a net increase of Rs. 33,240. The important variations were under Land Revenue (+ Rs. 4,350), Excise (+ Rs. 29,047), Law and Justice—Courts (+ Rs. 4,473), Postage Labels (+ Rs. 1,863) and Forests (— Rs. 7,457). The reasons for increases under Land Revenue and Excise and decrease under Forest are given in paragraphs 5, 153 and 124 respectively. The increases under Law and Justice and Postage Labels were respectively due to levy of heavy fines in certain criminal cases and improved sales of postage labels.

147. Statement No. 97—*Gross and net revenue.*—The gross receipts (Rs. 8,69,962) as compared with the figures of 1911-1912 show a net increase of Rs. 24,644, which is chiefly under Excise. The expenditure charged against income was Rs. 3,30,443, while the net receipts were Rs. 5,39,519 against Rs. 5,53,514 in the previous year.

148. Statement No. 98—*Expenditure from net income.*—The expenditure charged against net income amounted to Rs. 6,22,900 as compared with Rs. 4,64,026 in 1911-1912 or a net increase of Rs. 1,58,874: this was due to increased expenditure chiefly under the heads (1) Civil and Political establishments, in which is included the special grant of Rs. 27,000 sanctioned by the Government of India for sanitary works in the municipal towns, (2) Military, (3) Public Works and (4) Education, to which head the special grant of Rs. 38,000 sanctioned by the Government of India for the improvement of elementary education was debited.

149. The net result of the Imperial transactions of the year was thus a deficit of Rs. 83,381. If allowance be made, however, for forest receipts on account of supplies to Government departments adjusted by book transfer and for payments made into treasuries outside Coorg, which amounted to Rs. 6,246 and Rs. 1,53,847 respectively, there results a surplus of Rs. 76,712.

150. Statement No. 99—*Cash transactions.*—The total receipts (Rs. 43,96,944) as compared with those of previous year show an advance of Rs. 8,84,417, the most important items of increase occurring under "bills drawn on other treasuries" and "remittances received from the treasuries". The total expenditure (Rs. 43,01,536) was more by Rs. 5,12,467 than that of 1911-1912, owing chiefly to larger remittances to other treasuries, which ordinarily consist of surplus currency notes and uncurrent coins. The closing balance rose from Rs. 4,13,273 to Rs. 5,08,681.

Land Revenue.

151. Statement No. 6—*Land Revenue.*—The gross demand including the outstanding balance (Rs. 67,482), amounted to Rs. 4,26,080, of which Rs. 3,58,994 were collected and Rs. 263 were remitted, leaving a balance of Rs. 66,823 at the end of the year.

Salt, customs and opium.

152. No revenue is derived in Coorg from salt or customs and the receipts from the sale of imported opium are included under the head "Excise."

Excise.

153. Statements Nos. 100 and 101—*Excise receipts and charges.*—The receipts amounted to Rs. 2,46,587, an increase of Rs. 29,522 as compared with last year. The increase was under still-head duty (+ Rs. 21,463), license fees on country liquor (+ Rs. 3,874), rent on toddy shops (+ Rs. 1,988), receipts under opium (+ Rs. 589) and ganja (+ Rs. 1,542). The lowering of arrack to 30° under proof and the increase of duty are thus having no effect on sales, thanks to the activity in the coffee and rubber industries. The charges amounted to Rs. 8,204 against Rs. 8,015 last year and the surplus was Rs. 2,38,383 as compared with Rs. 2,09,050.

154. Statement No. 102—*Manufactories, licenses and shops.*—The bonded warehouse is situated at Mercara. The number and location of the wholesale shops remained the same as last year. The number of retail foreign liquor shops rose from 7 to 8, a license having been granted to Messrs. Spencer & Co., at Pollibetta. The only beer tavern which is situated at Mercara did very little business. Three arrack shops and 15 toddy shops were closed during the year thus reducing their number to 33 and 88 respectively. The realizations from license fees under arrack and toddy were respectively Rs. 43,020 and Rs. 46,024, as compared with Rs. 38,146 and Rs. 44,036 in the previous year. There was no change in the number of opium and ganja shops.

155. The steps taken for restraining excessive home consumption of toddy have been successful. The private tree owner has recognized the advantage of leasing out his trees to the licensed shop-keeper *for cash only*. The other system under which the licensed shop-keeper entered into an arrangement by which the toddy drawn every other day was made over to the landholder may be said to have almost died out. The licensee has been warned against tapping private trees and the vigilance displayed by the excise executive staff in this respect is expected to achieve satisfactory results.

156. Statement No. 103—*Duty and consumption of spirits and drugs.*—The contract for the import and wholesale supply of arrack was granted to Messrs. A. Narainasami Mudaliar & Co. of Bangalore. The duty remained the same, viz., Rs. 3-15-0 per gallon, 30° under proof. The quantity of arrack issued was 37,847 gallons as compared with 31,868 gallons in the previous year.

157. The wholesale supply of opium and ganja was, as in previous years, in the hands of Government. Opium was imported from Madras and ganja from North Arcot. The quantity of opium sold was 62 seers and 38 tolas as compared with 48 seers and 50 tolas last year. The larger sale is due to the increase in the number of opium consumers who consist mostly of people moving from place to place such as fakirs, traders, etc. There was an increase of 334 seers and 69 tolas in the consumption of ganja. Owing to a difference in quality and price, traders from Mysore are said to display a preference for Coorg ganja and this accounts for the large increase last year, ganja being chiefly consumed by visitors to Coorg.

158. Statements Nos. 104 and 105—*Incidence of consumption, and demand, collection and balance of excise revenue.*—The total demand was Rs. 2,45,699 as compared with Rs. 2,16,652 in the previous year. The total incidence of still-head duty and license fees per gallon of London proof was Rs. 7-3-4.

159. Statement No. 106—*Excise offences.*—The number of prosecutions instituted was 61 as compared with 77 last year. The cases chiefly relate to illicit distillation and possession of paddy arrack and to sale of toddy without license. There were no cases of drunkenness on licensed premises during the year, and no useful figures relating to drunkenness in general could be collected. A sum of Rs. 1,446 was realized on account of fines, out of which Rs. 218 were distributed as rewards to excise and police officers and informants, as compared with Rs. 1,737 and Rs. 299 respectively in the previous year.

160. Statement No. 107—*Working of the Excise Department.*—The subordinate excise staff was under the direct control of the Excise Inspector and the inspection work of the preventive establishment was satisfactory.

161. Statement No. 108—*Wholesale and retail vend of foreign liquors.*—As already stated, the number of retail shops for the sale of foreign liquors increased by one. No wholesale license was issued during the year. The sales show a slight decrease as compared with last year.

162. Due regard was, as usual, paid to the opinions of neighbouring planters and ryots in the matter of location of both arrack and toddy shops: representative local men were also consulted in each case.

Stamps.

163. Statements Nos. 109 to 112—*Receipts and charges under Stamps.*—The receipts and charges aggregated Rs. 52,637 and Rs. 1,092 respectively giving a net revenue of Rs. 51,545 against Rs. 51,205 in the preceding year. The larger receipts under non-judicial stamps account for the increase in the net revenue.

164. Statements Nos. 113 and 114—*Insufficiently stamped or unstamped instruments and stamp prosecutions and results* —The aggregate sum levied in respect of duty and penalty was Rs. 1,167 on 224 documents impounded under the Stamp Act. There was no stamp prosecution during the year.

165. Statement No. 115—*Action taken to test the valuation of estates.*—Two applications for probate and letters of administration were disposed of during the year and the court-fee realized was Rs. 635 including Rs. 90 being the deficit fee recovered as a result of the enquiry instituted to test the valuation of the property concerned.

Income-tax.

166. Statement No. 116—*Collections of the tax from salaries, pensions, etc.*—The total collections under this head amounted to Rs. 2,817 against Rs. 2,698 in the previous year. The increase is due to the incremental additions to the salaries of certain officers in Coorg.

167. Statement No. 117—*Realizations from interest on securities.*—The amount collected (Rs. 182) was Rs. 80 more than in the preceding year. The small increase does not call for any remark. The following Government securities to the aggregate amount of Rs. 55,700 were exempted:—the Mercara School Endowment Plantation Fund, Rs. 30,000; the Thomson Prize Fund, Rs. 1,300; the Fraser Endowment Fund, Rs. 500; the Proclamation Jubilee Prize Endowment Fund, Rs. 100; the Koravandra Bollavva Nanjappa's Charity Fund, Rs. 5,000; the Kodandera Tangavva Prize Fund, Rs. 1,000; the investments of the civil dispensaries, Rs. 6,000; municipal committees, Rs. 1,800; and the Coorg District Board, Rs. 10,000.

168. Statement No. 118—*Collections of the tax from all sources.*—The increase of Rs. 119 under salaries, pensions, annuities and gratuities paid by Government has been explained above. No taxable salary or pension was paid by any local authority, nor were there any assessments to income-tax under the head "profits of companies" during the year. There was an increase of (Rs. 647) in the revenue from salaries, etc., paid by companies and private employers. The collections under "other sources of income" also increased by Rs. 297, which is due to the inclusion of new assessees.

169. Statement No. 119—*Original and final demand and uncollected balance.*—The final demand under salaries and pensions was Rs. 8,098 as compared with Rs. 7,927 and the aggregate assessment on other sources of income was Rs. 3,057 as compared with Rs. 2,849 in the previous year. There were in all 21 objection petitions against 31 in the previous year resulting in a total reduction of Rs. 273. Of the final demand under all heads including arrears, viz., Rs. 12,624, all but Rs. 994 were collected before the close of the year. Of the balance, a sum of Rs. 683 has since been recovered, leaving Rs. 311 for collection.

170. The collections of the tax as usual devolved on the ordinary revenue establishment of the province and no extra expenditure was incurred on the assessment during the year. The First Assistant Commissioner exercised the functions of Collector of Income-tax as in the previous year.

Forests.

171. The forest receipts, including a sum of Rs. 1,60,093 realized outside Coorg or adjusted by book transfer, amounted to Rs. 2,81,652, and the charges, as debited in the treasury accounts, to Rs. 1,63,329. The net surplus was thus Rs. 1,18,323, which was Rs. 56,850 less than that of previous year.

Revenue and Finance other than Imperial.

The District Fund.

172. Including an outstanding balance of Rs. 4,994 at the commencement of the year, the gross demand of the District Fund amounted to Rs. 1,15,303. The collections and remissions aggregated Rs. 1,10,923 leaving an uncollected

balance of Rs. 4,380 at the close of the year. With the opening cash balance (Rs. 37,302) the gross receipts of the fund amounted to Rs. 1,48,059 and the expenditure to Rs. 86,037, leaving a closing balance of Rs. 62,022, of which Rs. 10,000 were held in Government securities.

173. Including an outstanding balance of Rs. 1,091, the total demand of the municipalities and the notified areas amounted to Rs. 60,600. The collections and remissions aggregated Rs. 59,974 leaving an uncollected balance of Rs. 626. Together with an opening cash balance of Rs. 11,264, the receipts amounted to Rs. 71,142 and the expenditure to Rs. 29,903 leaving a closing balance of Rs. 41,239. **Municipal Funds.**

174. The opening cash balance of the Mercara School Endowment Fund was Rs. 1,537. The receipts and expenditure amounted respectively to Rs. 1,348 and Rs. 733: the closing balance was thus raised to Rs. 2,152. **The Mercara School Endowment Fund.**

VI.—VITAL STATISTICS AND MEDICAL SERVICES.

175. Statement No. 120—*Particulars of births, deaths and marriages in towns.*—The excess of deaths over births is chiefly due to the mortality among the immigrant coolies admitted into the hospitals at Mercara and Virajendrapet. **Births and deaths. (1912.)**

176. Statement No. 121—*Births registered.*—The number of births (4,606) registered was 162 more than in 1911. Of these, 90 occurred in families not permanently resident in the province. Male births exceeded female by 164.

177. Statement No. 122—*Births and deaths registered.*—6,713 deaths (38·37 *per mille*) were recorded against 5,695 in 1911 and 6,822 in 1910; of these, 498 occurred among individuals not permanently resident in the province. The high mortality is chiefly attributable to the increased prevalence of malarial fever and dysentery and diarrhœa. The death-rate among females was higher than among males.

178. Statement No. 123—*Deaths registered during each month.*—The mortality was, as in last year, heaviest in the months of May, June, July and August. The healthiest season of the year was the last quarter.

179. Statement No. 124—*Deaths registered according to age.*—Excluding infants, deaths were more numerous in the age groups from 20 to 30 and 30 to 40 which comprised the bulk of the immigrant cooly population.

180. Statement No. 125—*Deaths registered according to class.*—The mortality in the category of "other classes" was slightly higher than in the previous year, while the death-rate among Coorgs was 41·47 *per mille* as compared with the general average of 38·37.

181. Statement No. 126—*Deaths registered from different causes in towns and districts.*—As usual, fever caused the greatest number of deaths (5,697), while dysentery and diarrhœa were responsible for 231. The mortality in municipal areas was higher than in the previous year.

182. Statements Nos. 127 and 128—*Deaths from cholera and small-pox.*—There was no death from cholera during the year and the deaths from small-pox fell from 297 to 53.

183. Statement No. 129—*Deaths from fevers.*—There was an increase of 1,142 deaths under this head as compared with the previous year, the ratio *per mille* being 32·56 against 26·03. The mortality was highest in June, July and August and lowest in February.

184. Statement No. 130—*Deaths from dysentery and diarrhœa.*—The mortality ascribed to this cause was 115 more than in the previous year.

185. Statement No. 131—*Deaths from plague.*—Plague accounted for 9 deaths against 57 in the previous year.

186. Statement No. 132—*Deaths from respiratory diseases.*—The rate of deaths *per mille* from this cause was 0·43 as compared with 0·38 in the previous year.

187. Statements Nos. 133 and 134—*Ratio of deaths from small-pox, fever, dysentery and diarrhœa, and comparative statement of mortuary and meteorological statistics with prices of food-grains.*—From the latter return it will be observed that the mortality was higher than in any of the previous five years except 1910. Prices were normal.

Emigration and immigration. (1912-1913.)

188. There are no recruiting stations in Coorg and no record is kept of emigration and immigration.

Medical relief. (1912.)

189. Statement No. 135—*Hospitals and dispensaries.*—The Mercara Jail hospital is excluded from this statement as it is dealt with separately. Of the eleven other institutions, three are of a private character and are maintained in the "Bamboo" district by the South Coorg Medical Relief Fund.

190. Statements Nos. 136 to 142—*Accommodation, number of patients treated during the year and the rate of mortality among in-patients.*—There was an increase of 26,421 in the total number of patients (98,259) treated in the Imperial and local fund dispensaries, while 8,415 against 8,344 in the year 1911 received treatment in the three private institutions in South Coorg. The in-patients all of whom were treated in the public institutions numbered 3,062 or 758 more than in the previous year; the rate of mortality was 12·87 against 12·07.

Twenty-four patients suffering from small-pox were treated during the year as compared with 138 in the previous year; three of them died. These were individuals that had arrived from the adjoining districts who had not been vaccinated.

191. Statement No. 143—*Patients under treatment according to sex and race.*—The proportion of adult males treated exceeded that of females by more than three to one.

192. Statement No. 144—*Operations performed.*—Operations numbered 1,589 against 1,283 and the percentage of success was 99·12 against 98·84 in 1911.

193. The sale of quinine to the public through the agency of the post offices continued during the year. The number of powders sold was 55,800 as compared with 52,959 in the previous year.

194. Statement No. 145—*Income and expenditure of hospitals and dispensaries.*—Excluding the pay and allowances of the Civil Surgeon and the reserve sub-assistant surgeons which are not debitable to any specific institutions, the total expenditure on medical relief was Rs. 28,408 or Rs. 2,172 less than in the previous year. The decrease falls under the cost of European medicines.

195. Captain W. R. J. Scroggie, I.M.S., was in charge of the Medical Department throughout the year.

Sanitation. (1912-1913.)

196. All the *pettas* were inspected during the year by the Civil Surgeon, who is also the Sanitary and Health officer, the Commissioner or the Assistant Commissioners. The duties of the Sanitary Inspector were mainly confined to the periodical inspection of the municipalities and *pettas*, and the supervision of meat supply in Mercara, and of preventive measures in connection with plague and other epidemics. Wells were sunk in four *pettas*, the funds being supplied by the District Board. The site of the Lascar Bazaar acquired last year by the Mercara Coronation Memorial Fund Committee was converted into a public garden and it was opened by the Chief Commissioner during his visit

to Mercara in November 1912 under the name of the "Coronation Garden". A special non-recurring grant of Rs. 25,000 for expenditure on sanitary works in Mercara was made by the Government of India at the close of the year under report. It is proposed to utilize the grant for the drainage of swamps round Mercara, and for the improvement of the water supply system, the Coronation garden and the Gowli Bazaar. A small sum was also allotted to the Virajendrapet Municipality for expenditure on the improvement of the very defective water supply in that town.

197. Statement No. 147—*Sanitary works and comparison of mortality prior and subsequent to the construction of the Mercara water-works.*—No safe inference can be drawn from the comparison as among the deaths were those of many immigrant coolies brought to the hospitals in a moribund condition. The water supplied is of excellent quality and the quantity available was sufficient.

Vaccination. (1912-1913.)

198. Statement No. 148—*Summary of vaccination work.*—The number of operations performed was 12,730. Of these 8,867 were primary cases and 3,863 were re-vaccinations against 8,358 and 4,803 respectively in the preceding year, during which a severe small-pox epidemic resulted in numerous re-vaccinations. The percentage of successful cases was 94·63 and 81·84 respectively compared with 94·76 and 81·79 in 1911–1912. Only calf lymph was used.

199. Statement No. 149—*Cost of the vaccine department.*—There was no change in the establishment which consisted of eight vaccinators. The total cost including supervision charges, amounted to Rs. 2,876.

200. Statement No. 150—*Dispensary vaccination.*—247 vaccinations were performed by the staff of the Jail hospital and the dispensaries of the province compared with 208 in 1911-1912. Of these, 64 were primary cases and 183 were re-vaccinations; the percentage of success was respectively 96·61 and 84·80 compared with 95·45 and 86·03 in the preceding year.

201. Statements Nos. 151 and 152—*Number and result of primary vaccinations during the last decade and verification of vaccinations.*—1·51 per cent. of these cases were inspected by the Civil Surgeon and 49·97 per cent. by the Assistant Surgeon and the Inspector of Vaccination compared with 1·27 and 49·00 respectively in the previous year.

202. Statement No. 153—*Infantile vaccinations in municipal areas.*—From October 1911 to September 1912, 224 infants were born. One hundred and sixty-two children under one year old were vaccinated during the year and the total number successfully vaccinated was 102.

203. Statement No. 154—*Statistics of vaccination and mortality from small-pox during the past fifteen years.*—The number of successful vaccinations was considerably above and the number of deaths from small-pox below the average.

VII.—INSTRUCTION. (1912–1913.)

General system of public instruction.

204. The standing information which might otherwise be included in this chapter is printed at pages 33 and 34 of the administration report for the year 1911–1912 under the heading "General System of Public Instruction."

Education—Preliminary remarks.

205. The educational arrangements of the province underwent no material changes during the year under report. As a result of the policy advocated by the Government of India, some impetus was given to elementary education in the province. Five new elementary schools were established during the year, 26 more schoolmasters were entertained to cope with the increased attendance in the schools, and a number of schools were provided with more furniture and apparatus for teaching. The funds allotted to Coorg were however so small that compared with the magnitude of the task before us—the breaking down of illiteracy in the country—very little can be said to have been accomplished.

General summary.

206. Statements Nos. 155 and 157—*General Statistics of attendance.*—On the 31st of March 1913, there were in all 94 public institutions with 6,942 pupils in attendance as against 6,203 during the previous year. As stated above, five new local fund schools were established during the year, part of the Durbar grant of Rs. 3,000 having been devoted to this object, while the Muhammadan aided school at Ammatti was amalgamated with the local fund school there. The number of private schools and the attendance in them was 31 and 603 as against 35 and 608 of the previous year. The percentage of pupils under instruction to the total population of school-going age was 19·71 as against 17·79 for the year 1911–1912, the percentage being higher both in the case of boys and girls.

207. The educational institutions in the province consisted of one training school, one upper secondary school and one lower secondary girls' school at Mercara, one lower secondary school at Virajendrapet and ninety primary schools throughout the province. English was taught as an optional subject in nineteen of the primary schools, the Municipal Hindustani school at Mercara having also added English to its course of studies. These figures exclude the thirty-one private institutions referred to in the preceding paragraph, all of which were elementary. Mention might here be made of a private lower secondary school at Ammatti, which has been recently started by an enterprising Muhammadan gentleman. This school which appears to be yet in an experimental stage maintains a staff of two untrained teachers with about 22 boys on the rolls.

208. Statements Nos. 159 and 160—*Stages of instruction and results of examinations.*—There was a further increase during the year under review in the number of pupils in the primary stage of instruction, which is noticeable both in the boys' schools and the girls' schools. The number of girls attending secondary schools increased by three, while the increase among boys in secondary schools was slight amounting only to nine. The results of examinations are dealt with in paragraphs 217 and 228 *infra*.

209. Of the 94 public institutions, thirteen were managed by Government, seventy were under the control of the District Board, five were maintained by Municipal Committees and six were Missionary institutions.

210. Statement No. 163—*Scholars according to sex, race or creed.*—As usual non-Brahmin Hindus (6,583) formed the predominating element among the school-going population and included no less than 4,433 Coorgs. There were only two Europeans under instruction during the year. The number of Muhammadan pupils showed an increase of twenty-eight, while there was no appreciable change in the number of Panchamas under instruction.

211. An examination of the social position of the parents of the children attending public institutions shows that the great majority (50·44) were dependent on agriculture. The percentages recorded as belonging to the poorer, middle and richer classes were 80·19, 18·34 and 0·66 respectively against 74·94, 23·68 and 1·38 in 1911–1912.

212. The percentage of pupils who were protected from small-pox was 93·96. This low figure was due to the large number of unprotected children in the private unaided institutions.

Financial summary.

213. Statements Nos. 156, 158 and 161—*Expenditure on education.*—The total expenditure was Rs. 1,09,531 or Rs. 36,677 more than during the previous year, the distribution according to the source of income being as follows :—

Imperial Funds	68·66
Local Funds	11·34
Municipal Funds	1·64
Fees	12·20
Other sources	6·16

The additional expenditure was due mostly to an Imperial grant of Rs. 35,000 to local bodies for the construction and improvement of school buildings and to a grant of Rs. 1,058 to the municipalities of Virajendrapet and Mercara for the purpose of providing instruction in tailoring and carpentry to poor Muhammadan children.

214. The private contributions to expenditure consisted of subscriptions in aid of the Missionary schools and of the income from the Mercara School Endowment Fund. During the year a total sum of Rs. 882 was disbursed from this fund for scholarships to students studying in professional colleges and secondary schools and for the upkeep of the boarding house attached to the school. The average cost of education of each pupil in the primary and secondary schools was Rs. 7–5–4 and Rs. 58–9–2 against Rs. 5–11–2 and Rs. 59–12–1 respectively in the previous year. In the Mercara Lower Secondary Girls' school the average cost of educating each girl amounted to Rs. 106–12–10 against Rs. 92–0–4 in the previous year, while the cost to provincial revenues amounted to Rs. 43–6–9 against Rs. 42–4–11 in 1911–1912. The average cost of educating each student at the Government Training School was Rs. 178–4–7 against Rs. 172–2–4 in the previous year.

Controlling agencies.

215. The inspection and examination of the educational institutions in the province vest in the Inspector of Schools, Eighth Circle, with head-quarters at Cannanore. Mr. C. Ransford was in charge of the circle during the greater part of the year, being relieved by Mr. Littlehailes in November 1912. The former officer visited Coorg twice during the year 1912–1913, once in May and again in October, and inspected a number of primary schools as also the secondary schools and the training school. The Hon'ble Sir Alfred Bourne, Director of Public Instruction, also toured through the province in October and visited the more important schools. This visit was undertaken mainly with a view to formulate proposals for the extension and improvement of primary education and give effect to the liberal policy outlined by the Government of India. As a result of this visit a three years' programme involving an expenditure of a lakh and three-quarters of rupees has been drawn up and will be brought into force as funds become available. The Assistant Inspector of Schools inspected 135 schools and travelled a total distance of 1,302 miles, besides paying a number of surprise visits to schools not included in the ordinary tour programme. The Supervisor of primary schools also examined the primary schools with the exception of the girls' schools. Revenue-officers from Subedars upwards paid frequent visits of inspection to the schools.

Collegiate education.

216. There were no colleges in Coorg, but a sum of Rs. 522 was spent on scholarships in Arts and professional colleges.

Secondary education.

217. In the three secondary schools, the total attendance rose from 439 to 451, 89 of these being girls. The average number on the rolls was 451 as compared with 439 in 1911–1912. Eleven candidates from the Mercara High School went up for the Secondary School Leaving Certificate examination. The results showed a distinct improvement in the standard attained by the pupils.

At the last annual inspection, which took place in October 1912, the schools were found to be in a fairly satisfactory condition. A little has been done to improve the appliances for teaching science, but there is still very serious need of large expenditure on furniture and appliances.

218. Mr. W. H. Whitworth was in charge of the Central High School throughout the year, and was assisted by an efficient staff of graduates and trained teachers, most of whom had specialized in the subjects they taught. The school, however, suffered considerably through the frequent ill-health of the Headmaster and some of the staff. No less than two of the senior teachers, viz., Messrs. Chinnappa and Krishnaswami Aiyer died during the year under review.

219. The two hostels attached to the Central High School were well filled, but are not in a healthy situation and there is a proposal to transfer them to a more suitable site. The Headmaster's quarters were also condemned and new ones are in course of erection on a fine site some distance from the school.

220. No issue of the High School Magazine was made during the year owing to lack of funds. The Old Boys' Society had previously borne the cost of the publication and as it is a source of considerable expense which is out of all proportion to the benefit received by the old boys by its publication, sanction is being applied for for its publication at Government expense.

221. The school at Virajendrapet continued to be under the management of M.R.Ry. M. Srinivasa Rau. There were 39 boys in residence in the hostel of this school. Arrangements have been made by which from the beginning of the year 1913–1914, the school is to come under the supervision of the Headmaster of the Central High School.

Primary education.

222. As shown in paragraph 206 above, the number of primary schools increased by four during the year, and the attendance rose from 5,743 to 6,466. In many of these schools, in addition to the compulsory subjects, geography, nature study, elements of hygiene and outlines of Indian history and civics are taught, while garden work, clay-modelling and other manual occupations are employed both on account of their intrinsic value and as a relief from intellectual work. With a view to cultivate the artistic sense of children and to provide better models for them, a more plastic material than clay was found necessary, and ten pounds of plasticine were purchased during the year for the larger elementary schools. The school garden has always formed a feature of elementary education in Coorg.

223. In teaching many of the subjects, kindergarten methods are adopted. The lower classes of the larger elementary schools have regularly drawn up schemes of study embodying this principle to work upon. About two pounds worth of geographical slides for use with the lecture lantern were added to the collection during the year. A set of slides on India, costing £ 50, prepared by the Visual Instruction Committee of the Colonial Office, have also since been indented for. Moral instruction in the shape of selected stories from the Indian Epic poems is receiving due attention in almost all the primary schools.

224. Organised games and sports including national dances and exercises, are being encouraged in the boys' as well as the girls' primary schools. During the year, sports requisites to the value of Rs. 92 were purchased and furnished to the various primary schools.

225. Clay modelling, rope making, basket making, rattan work and similar manual occupations are taught in most of the schools. Regular instruction in carpentry is given in two of the primary schools, and in tailoring in the Virajendrapet Hindustani school. It has been proposed to employ a Sloyd instructor on the staff of the Mercara training school to provide instruction to the teachers under training. When this is done, it will be possible to gradually introduce Sloyd training into the elementary schools. The weaving school at Sanivarsante continued to work during the year with seven students on the rolls, five of them being in receipt of stipends, two of the value of Rs. 5 each and three of the value of Rs. 2 each. Work to the value of Rs. 448 was done during the year. The new building for the weaving school with a floor area of 1,700 sq. ft. was completed during the year at a cost of Rs. 3,610 and was occupied from 26th February 1913.

226. The system of village school committees or panchayats was in force during the year and proved fairly useful. The lists of panchayatdars are revised yearly, and the names of persons who are found to be indifferent are eliminated.

227. During the year an Imperial non-recurring grant-in-aid of Rs. 35,000 was given for the extension of some of the local fund schools and the Virajendrapet municipal school. These extensions have become necessary as four of the local fund schools are to be raised to the higher elementary grade, as also on account of the increased attendance in the primary classes.

228. The only training school is the Government Training School at Mercara, which provides the provincial supply of primary school masters. Ten trained students were relieved from the school in March 1913 on the completion of their course and were provided with appointments. Ten students went up for the written test in February 1913. **Training schools.**

229. M.R.Ry. N. Dasappa continued in charge of the school throughout the year.

230. There are no technical schools in Coorg. The weaving school at Sanivarsante and the carpentry and tailoring schools at Mercara and Virajendrapet are dealt with in paragraphs 225 and 234. **Technical education.**

231. There are altogether one secondary and six primary schools (five Government and two aided) exclusively appropriated to girls. The total number of girls under instruction in all classes of schools rose from 1,935 to 2,128 during the year. Eighty-nine girls were studying in the secondary schools, and one was under training in the training school on the 31st March 1913. The Mercara Lower Secondary girls' school worked successfully during the year, there being 78 girls on the rolls, 32 of whom were boarders in the school hostel. During the year, quarters for the Head Mistress at Virajendrapet and extensions to the Ammatti and Nalkeri girls' schools were taken in hand by the D. P. W. Additional mistresses have been proposed to cope with the increased attendance in the girls' schools. Some of the girls in the Parané school have learnt to use the knitting machine and the work turned out finds a ready sale in the locality. **Female education.**

232. There are no separate schools for Europeans and Eurasians in the province. **European education.**

233. There were two schools intended solely for Muhammadans and maintained by the municipalities at Mercara and Virajendrapet. The aided Muhammadan school at Ammatti was amalgamated with the local fund school at that place. The number of Muhammadans under instruction in primary schools was 220 boys and 8 girls and there were five boys in secondary schools. Eleven scholarships, seven of the value of Rs. 3 each and four of the value of Rs. 2 each have since been made permanently available for Muhammadan boys studying in secondary and primary schools. **Muhammadan education.**

234. During the year carpentry and tailoring branches were attached to the Municipal Hindustani schools at Mercara and Virajendrapet, with the help of an Imperial grant-in-aid of Rs. 1,058 per annum. All the six stipendiary students of the tailoring school were relieved at the end of a year's course and have found employment with the local tailors on salaries ranging from Rs. 8 to Rs. 10 per mensem. To place the tailoring school on a satisfactory basis, the Virajendrapet Municipality have since sanctioned the employment of a full time manager on Rs. 15 per mensem. The carpentry school at Mercara continued to do fair work and the students have acquired a certain amount of skill. In both of these institutions it is regrettable to notice that the students do not stay the full length of time required to give them high proficiency in their trade, as the temptation to take up outside employment on wages more remunerative than the stipend of Rs. 2 per mensem is too strong.

235. There are nine schools for Panchamas which include holeyas, madigas and yeravas. In three of the schools caste boys are also admitted. Out of a total of 331 Panchama children, 305 attended the schools for the special classes, and 26 attended the caste schools. With a view to encourage the Panchamas to send their children to school, books and slates are given free of cost, and prizes in the shape of cloth are being annually given to the children who have regularly attended school during the year. **Special classes.**

•236. The Virajendrapet Municipality propose to add a boot and shoe making class to the Panchama school under their management and proposals on the subject are under consideration.

Private institutions.

237. The private schools with the exception of the secondary school referred to in paragraph 207 above, are mostly unaided institutions of the primary grade. They are ill-housed and poorly equipped and do not call for special remarks.

Educational conferences.

238. Nine meetings of the Teachers' Association were held during the year. One of these was a general conference of all the primary teachers in the province presided over by Mr. C. Ransford, M.A., Inspector of Schools, Eighth Circle. These meetings were well attended. Most of the teachers gave lectures and model lessons and took part in the discussions held on educational subjects. Several of them also made use of the lending library opened in connection with the association.

239. M.R.Ry. A. Rama Rau, B.A., Assistant Inspector of Schools, was in charge of the primary schools throughout the year.

Preparation and distribution of text-books.

240. There is a Government depôt at Mercara with five branch depôts, the operations of which are confined to the supply and distribution of text books to primary schools. These depôts, however, did not transact any business during the year.

There is no Text-book Committee for Coorg.

The Press.

241. Statements Nos. 165 to 170.—*Receipts, expenditure, etc.*—The only printing press in the province is the Coorg District Press at Mercara. The total charges, including a sum of Rs. 317 adjusted by book transfer on account of depreciation of plant and type, amounted to Rs. 4,091 as compared with Rs. 4,168 in the previous year. The value of the work done for the various offices and the cash receipts were respectively Rs. 4,000 and Rs. 759 as compared with Rs. 3,588 and Rs. 568 in the preceding year. The value of plant at the close of the year was Rs. 9,918.

242. The outturn of composing work done was equal to 2,512 pages of pica solid foolscap folio and the number of impressions printed was 579,200. The cost of composing a page of pica solid foolscap folio was Rs. 1-0-5, while the cost of printing 100 impressions was Rs. 0-3-3, as compared with Rs. 0-14-5 and Rs. 0-3-1 respectively last year.

243. The management of the press which, as usual, devolved on the Foreman, was quite satisfactory. In addition to the ordinary work, a Nad Office Manual, a volume of Standing Orders and gradation lists were printed. A revised edition of the Revenue Manual was taken in hand at the close of the year.

Literary societies.

244. There are no literary societies properly so called in Coorg, but in Statement No. 171 will be found particulars of three institutions which incidentally foster the study of literature through the medium of libraries and reading rooms.

VIII.—ARCHÆOLOGY. (1912–1913.)

Archæology.

245. No action was taken under this head during the year. The monuments selected for conservation are in good order. Mr. L. Rice, C.I.E., is engaged in issuing a revised edition of his "Coorg Inscriptions."

IX.—MISCELLANEOUS. (1912-1913.)

Ecclesiastical jurisdiction.

246. The standing information which concerns this chapter is printed at page 39 of the administration report for the year 1911-1912 under the heading "Ecclesiastical jurisdiction".

Ecclesiastical.

247. Statement No. 172—*Religious institutions.*—There were no changes during the year under report.

248. The contributions paid by Government to the indigenous religious institutions in the province aggregated Rs. 19,300, and consisted of cash payments (Rs. 7,021), deductions from the land revenue demand (Rs. 975) and assignments of land revenue (Rs. 11,304). As compared with the previous year there was a net increase of Rs. 588 in the total assignment due chiefly to corrections in the re-settlement. Of the gross amount (Rs. 19,300), Rs. 12,476 form the endowment of minor temples under the management of the village communities concerned, while the remaining Rs. 6,824 relate to the grants made to the temples under the management of the Committee constituted under the Coorg Temple Funds Management Regulation, 1892. This body which consists of 15 members held nine general meetings during the year and the average attendance was 9·1. With an opening cash balance of Rs. 917, the income, including the sum (Rs. 6,737) paid by Government towards the upkeep of the *chattrams*, was Rs. 18,399. The expenditure amounted to Rs. 16,979 and the closing balance was Rs. 1,420. In addition to the Government grant (Rs. 13,561), the other sources of income were voluntary offerings by pilgrims (Rs. 2,044) and contributions of grain by the people Rs. 1,079. The chief items of expenditure were the purchase of food-grains for piligrims to the value of Rs. 10,034, and the performance of the customary religious services and ceremonies.

Charitable institutions.

249. Statement No. 173—*Charitable institutions.*—The *chattrams* are situated at Mercara (2), Bhagamandala and Irpu. They enjoy an annual endowment of Rs. 6,737 from Government and are under the control of the Temple Funds Management Committee. There are three similar institutions maintained by private charity, and they are located at Talakaveri, Virajendrapet and Somwarpet.

Stationery.

250. The supply of articles of stationery to Government offices in Coorg is arranged for in communication with the Superintendent of Stationery, Madras.

Condition of records.

251. The work of sorting and arranging the records continued during the year. The period for which the temporary record sorting establishment had been sanctioned expired on the 30th September 1912, and the work is now being carried on by the Record-keepers of the several branches of the Commissioner's office assisted by such clerks as can be spared from the ordinary establishment. The records of the office of the Assistant Superintendent of Police have been now taken in hand and the indexing of the records of the Commissioner's English Branch already sorted and arranged is being done at the same time.

The records of the several branches of the Commissioner's office are now housed in a Central Record Room which was completed during the year under report.

Co-operative credit societies.

252. The number of societies in the province remained the same as in the previous year. With the opening balance of Rs. 11,505 and a Government loan of Rs. 350, the receipts of the fund amounted to Rs. 68,901. The out-goings aggregated Rs. 54,048 leaving a closing balance of Rs. 14,853. The number of members rose from 2,133 to 2,295. The collections were satisfactory. A separate report will as usual be published on the working of these societies.

Treasure Trove.

253. There were no cases of treasure trove during the year under report.

Fish preservation.

254. The Coorg Fishing Association continued to take interest in the matter of the conservation of fish in the Coorg rivers. February 15th to June 30th was fixed as the close season for netting.

PART III.

STATISTICAL APPENDICES.

I.—PHYSICAL AND POLITICAL GEOGRAPHY.

I.—PHYSICAL AND POLITICAL GEOGRAPHY.

Total area of the province of Coorg for the year 1912-1913.

Presidency or Province.	Coorg.	
Total area.	Acres.	
1. Area according to professional survey ...	1,012,260	*Note.*—This statement corresponds with Form A—1 of the Tables of Agricultural statistics.
2. Deduct (*a*) Feudatory States ...	...	
(*b*) Area for which no returns exist ...	...	
3. Net area by professional survey ...	1,012,260	
4. Corresponding area by village papers ...	1,012,260	

(2). Character of Surface.

1. Forests	357,795	*Note* 1.—This statement is Form A—2 of the Agricultural Tables. A detailed description of the character of the surface will be found in paragraphs 1 to 11 of the administration report for the year 1911-1912 *vide* pp. 1—3.
2. Not available for cultivation ...	330,449	
3. Culturable waste other than fallow ...	20,870	
4. Current fallows	162,893	*Note* 2.—The area shown as not available for cultivation consists of (*a*) unculturable Government waste and (*b*) unculturable *banés*, estimated respectively at 117,092 and 213,357 acres.
5. Net area cropped during the year	140,253	
Total ...	1,012,260	
6. Irrigated during the year. (*a*) Government canals ...	2,610	*Note* 3.—Item 3 is the estimated area of culturable Government waste.
(*b*) Private canals ...	...	
(*c*) Tanks	1,750	*Note* 4.—Item 4 is composed of (*a*) the estimated area of culturable *banés* (6,380 acres) and (*b*) the difference between the net area cropped and the gross holdings other than *banés*. It thus includes unculturable extents under actual holding, the area of which there is no means of ascertaining.
(*d*) Wells	...	
(*e*) Other sources ...	...	
Total area irrigated...	4,360	
7. Crops irrigated. (*a*) Rice	4,360	
(*b*) Other cereals and pulses ...	...	
(*c*) Miscellaneous food-crops ...	...	
(*d*) Miscellaneous non-food crops ...	...	
Total ...	4,360	

(3). Climate, 1912.

Place at and year for which observation taken.	January to May.		June to September		October to December		Total.		Normal rainfall.	Average temperature in the year.				Prevailing winds.

COORG.	Coorg	*Civil* —District Judge (1) Subordinate Judge (1) Assistant Commissioner (1) Munsiffs (2) ...	2	1,582	174,976	Mercara, 6,269	516
		Criminal—Sessions Judge (1) District Magistrate (1) First-Class Magistrates (2) Second-Class Magistrates (7) ...	7				
		Revenue —Commissioner (1) Assistant Commissioners (3) Subedars (5) ...	7				

Notes.—Col. 2. The whole province constitutes a single district.

Col. 3. (*a*) This does not show the Chief Commissioner who forms the highest revenue court and in his capacity as Judicial Commissioner is also the highest civil and criminal court.

(*b*) Under Assistant Commissioners has been included the Deputy Director of Land Records and Agriculture, who is invested with the powers of an Assistant Commissioner.

Col. 4. The civil, criminal and revenue sub-divisions are, respectively, the local areas in charge of (*a*) the munsiffs, (*b*) the second-class magistrates, and (*c*) the European and the Native Assistant Commissioners and the subedars. The powers of the other officers named in column 3 extend to the whole province.

Col 8. Only 495 villages are shown in the census tables, but 516 are recognized as units for the purpose of revenue collections.

Territory in the Coorg Province for the year 1912–1913.

PART I.

SUMMARY OF THE ADMINISTRATION.

PART I.

GENERAL SUMMARY.

SECTION I.—General and Political.

General.

Col. Sir Hugh Daly, K.C.I.E., C.S.I., held the office of Chief Commissioner throughout the year. He paid one visit to Coorg—in February 1914 when he opened a new Veterinary Dispensary at Somwarpet, built by Mr. D. Venkataramana Shetti and generously handed over by him to Government for the use of the Veterinary Department. Visits were also paid to Pollibetta and Virajendrapet. At the latter place the Chief Commissioner addressed the first local conference of Co-operative Credit Societies which has taken place in Coorg, and laid the foundation stone of a clock tower presented to the town by Mr. Mukkati Ayyappa in commemoration of the King-Emperor's Coronation at Delhi in 1911. On February 6th a Durbar was held at Mercara at which the Chief Commissioner presented badges and sanads of Rao Bahadur to Messrs. K. Appayya, Assistant Commissioner and A. R. Ramayya Punja, retired District Judge of Bangalore.

His Excellency the Viceroy and Governor-General of India paid a visit to Mysore in November 1913. Two deputations—one from the Coorgs and the other representing the Planting Community—waited on His Excellency there and presented addresses of welcome.

2. Mr. F. Hannyngton, I.C.S., held the office of Commissioner throughout the year.

SECTION II.—Administration of the land.

Realization of the revenue and agricultural advances.
Part II, pages 1-3.

3. The season was somewhat unfavourable for the rice crop especially in Nanjarajpatna and parts of Kiggatnad. The crop in Nanjarajpatna was almost everywhere very light and in many places was a complete failure, necessitating a remission of Rs. 334 from the assessment. In Padinalknad, however, the shortage of rain resulted in a crop above the average. This is due to the fact that in normal years the paddy lands adjoining the western ghâts suffer from an excess of moisture.

The coffee crop was somewhat below the average on Indian estates but extremely good on European estates and abnormally so on some. Prices however which had been fairly good at the commencement of the season showed a tendency to weaken towards its close. There was a further small decrease (434 acres) in the area under coffee.

(Re-settlement).
[*Part II, page 3.*]

The land revenue demand showed an increase of Rs. 6,247, mainly due to the introduction of the new settlement rates into Yedenalknad. With the settlement of this taluk the settlement operations for the province were completed. A final settlement report was submitted to the Chief Commissioner and approved of by him. As a result of the settlement operations there has been a net increase in revenue for the whole province of Rs. 16,007 representing an increase of 4·8 per cent. on the previous revenue.

The collection of the land revenue was carried out promptly and without difficulty. Excluding Rs. 60,944 due by European planters who are allowed to defer payment until 31st May, there was an actual balance uncollected of only Rs. 9,507.

SECTION III.—PROTECTION.

Police. *[Part II, pages 4-5.]*

4. Four probationary Sub-Inspectors returned after undergoing training at Vellore and one other was sent for training during the year. This brings the Sub-Inspector grade up to the full strength recommended by the Police Commission.

The number of cognizable cases again showed an increase, but this year only a slight one of 17 over last year's figures, which however were 88 more than those for the year before. The number of murder cases increased remarkably; no less than 11 cases of murder and 4 of culpable homicide were dealt with.

Most of the increase in crime in South Coorg is attributable to the Yeravars. They continued to be carefully watched and their movements were reported to the police by the village patels.

Criminal Justice. *[Part II, pages 5-6.]*

5. The total number of cases brought to trial increased by 698. The number of cases brought under the Workmen's Breach of Contract Act continued to increase, being 1,547 or exactly double the number filed in 1911.

Prisons. *[Part II, pages 6-8.]*

6. The convict population during the year was the lowest on record.

The health of the prisoners was not quite so good, due to an increase in the number of cases of dysentery and malaria. The rate of sickness per mille rose from 11·26 to 19·00. Two men in an extra-mural gang engaged in plunging holes in rock for blasting charges were seriously injured by an explosion through carelessness in plunging an old hole without first making certain that the charge placed in it had been completely exploded.

The construction of a new jail at a cost of Rs. 1,25,000 has been sanctioned by the Government of India. A site has been selected on the old race course hill above the Police Training School. Plans and estimates have been prepared and are under consideration.

Civil Justice. *[Part II, pages 8-9.]*

7. The number of civil suits instituted increased only very slightly by 31, but the total thus reached is the highest that has been attained during the past decade. The average value of each suit remained the same as last year (Rs. 92).

Registration. *[Part II, page 9.]*

8. The total number of documents registered rose very slightly by 10, but there was an increase of Rs. 33,340 in the value of the property registered. The surplus on the working of the department was slightly less than last year.

The work of registration was performed with the greatest promptitude, the average time taken for the registration of each document being only 12 hours.

District Board. [*Part II, pages 9-11.*]

9. The total expenditure on education amounted to Rs. 27,608 representing a percentage of 29·59 of the total income. Of this however only Rs. 15,590 or a percentage of 19·18 was met from the ordinary income of the Board, the balance representing an Imperial grant for education. The expenditure in the previous year was Rs. 18,760.

Five new schools were opened during the year, and there are now 75 schools with 4,740 scholars under the Board.

A temporary dispensary located at Srimangala for 6 months was made permanent, and an in-patient ward was opened at Gonikoppal for such patients as were prepared to meet their own charges for maintenance.

An additional Sanitary Inspector for the charge of the two northern taluks was under training at the King Institute, Madras.

Expenditure on dispensaries and sanitation rose from Rs. 10,973 to Rs. 12,998.

SECTION IV.—Production and distribution.

Weather and crops. [*Part II, pages 13-14.*]

10. The total rainfall at Mercara amounted to 108·99 inches or 17 inches below the average for the previous 15 years. The deficiency occurred in September and during the north-east monsoon, which ended abruptly with four days' very heavy rain in October.

The area of wet holdings fell by 478 acres. Except in parts of Padinalknad the paddy crop was not good. The area under coffee showed a very slight decrease.

The attempt to plant tea on abandoned coffee land referred to in last year's report has been given up as the young plants failed to survive the drought during the hot weather. A plantation of tea was however opened out on virgin soil at Hysodlu near Hudikeri by the Glen Lorna Tea Company and the results are said to have been most encouraging. The tapping of ceara rubber continued in South Coorg. The quantity of latex obtained was disappointing but the quality of the rubber produced was excellent and fetched the highest prices on the market. In North Coorg ceara has proved an entire failure and all attempts to work it have been abandoned. The experimental farm at Gonikoppal has been abandoned, and there is now only the farm at Sidapur. Good work was done here in the cultivation of oranges, potatoes and maize and attention has now been turned to the silk industry. Some acres of mulberry were planted during the year and the rearing of the silk worms themselves will be undertaken in the current year.

Forests. [*Part II, pages 14-16.*]

11. The area affected by fires showed a satisfactory decrease of 1,000 acres.

Excellent work was done in the eradication of lantana; 2,000 acres in reserved forests and 650 acres in paisaris were cleared at a total cost of Rs. 18,000.

Out of 200 tons of sandalwood collected 144 tons were sold at an average price of Rs. 978 per ton, the highest on record.

The western ghâts have been opened up by a bridle-path for 18 miles from Bhagamandala to Nalknad Palace while 2½ miles of a road up the Barapolé valley was constructed.

Public works. [*Part II, pages 16-17.*]

12. The new house for the Head Master, Mercara High School was completed. Rosebank was acquired for the Assistant Superintendent of Police and put in thorough repair.

The District Fund roads were maintained in good order. The earthwork on the new road from Sidapur to Pollibetta was completed, and the first section of the Fraserpet-Sidapur road was metalled. A bridge was constructed across the Kotail river on the Mercara-Nalknad road and a brick bridge at 136/1 on the Mysore-Cannanore road, which collapsed during the south-west monsoon of 1912, was replaced by a girder bridge.

Municipal. [*Part II, pages 11-12.*]

13. In Mercara a non-official Vice-President was appointed for one year. With a special grant of Rs. 40,000 received from Government important improvement schemes have been taken in hand and some are already completed. The improvement of the Gowli bazaar was commenced, the swamp beside it was drained, six model buildings were constructed on healthy sites to relieve the more congested area, and a good road is to be run right through the bazaar. Rs. 7,000 was spent by the Public Works Department in the drainage of other swamps round Mercara, and Rs. 11,000 was set apart for improvements to the water-works.

At Virajendrapet there was a small outbreak of plague in August 1913. Twelve persons were attacked of whom eight died. The town was subsequently completely disinfected.

SECTION V.—Revenue and Finance.

Gross revenue. [*Part II, page 18.*]

14. The net financial results of the year's transactions showed a surplus of Rs. 2,04,497, as against Rs. 76,712 the year before, the main increases in receipts being under Forests (Rs. 47,574), Excise (Rs. 18,203) and Stamps (Rs. 10,324).

Excise. [*Part II pages 18-19.*]

15. The income under this head again showed considerable increase, although six arrack shops and seven toddy shops were closed. The revenue from arrack shops increased by Rs. 8,750 and that from toddy shops by Rs. 600. The old "bari" system under which tree owners leased their trees to the tappers for the toddy tapped on alternate days has now practically ceased. This reform should go a long way towards the checking of drunkenness among the better classes.

There was a slight increase in the number of prosecution for excise offences. The majority of the cases related to illicit distillation of paddy arrack and to toddy sales without license.

The increase in the sales of ganja noted last year continued, 843 seers being sold as compared with 740 in the previous year, an increase of 400 seers over the normal figure. The reason appears to be as stated last year that the ganja sold in Coorg is a better quality and cheaper than the ganja obtainable in Mysore. There is reason to believe that the Mysore ganja has since improved in quality and the figures for the current year may be expected to show a considerable decrease in sales in Coorg.

16. There was an increase of nearly Rs. 9,000 in receipts from sales of stamps. **Stamps.** [*Part II, page 20.*]

17. The finances of the various local funds remained in a satisfactory condition. **Local Funds.** [*Part II, pages 20-21.*]

SECTION VI.—Vital statistics and medical services.

18. The death-rate showed a slight decrease, falling to 33·48 per mille. **Births and deaths.** [*Part II, pages 21-22.*]

19. The year was rather more healthy than the preceding one, and the total number of patients treated fell by nearly 12,000. The number of in-patients also fell. **Medical relief.** [*Part II, page 22.*]

20. Much of the Sanitary Inspector's time was spent at Virajendrapet in dealing with the outbreak of plague there. The appointment of a second Sanitary Inspector during the current year will enable some attention to be paid to the problems of village sanitation with which the single Sanitary Inspector has so far been unable to cope. **Sanitation.** [*Part II, pages 23.*]

As already mentioned above, important sanitary schemes have been undertaken in Mercara with generous assistance from Government.

SECTION VII.—Instruction.

21. During the year Coorg was formed with South Canara and Bangalore into a new ninth circle under an Inspector with head-quarters at Bangalore. **Education.** [*Part II, pages 24-28.*]

A recurring grant-in-aid of Rs. 10,000 from the Government of India rendered possible the very necessary strengthening of the staff of the elementary schools and the improvement of their pay and prospects to some extent. Five new schools were opened during the year and the number of scholars increased by 700 to 7,684 representing 21·01 per cent. of the population of school-going age.

In the secondary schools the attendance rose by 60 to 510 of whom 109 were girls. The private Lower Secondary School at Ammatti continued to exist but does not yet fulfil any of the requirements of the Educational Department.

The Lower Secondary Girls' School at Mercara continued its good work under the management of the nuns. Plans and estimates have been made out for a new dormitory which when completed will give the institution the extra accommodation it so badly needs. Estimates have also been prepared for providing much needed hostels for the Central High School and are under discussion.

SECTION IX.—Miscellaneous.

Co-operative credit societies.

22. The Co-operative credit societies continued to do steadily good work. The result of the first year's working of the new cattle insurance societies is most encouraging. The rate of mortality among insured cattle was very favourable and all the societies were able to make a small profit. The scheme seems to meet with the approval of the ryots and they may be expected to support it in increasing numbers in future.

Sholas.

23. The protection of sholas by the burning of all grass before the hot weather sets in was again successfully accomplished. Most of the ryots preferred to accept remuneration in the form of free grazing for their cattle instead of as a remission of their Local Fund Cess as in previous years.

Lantana.

24. The progress in lantana clearance was disappointing. It cannot be said that much more was done except in Kiggatnad, than to maintain the ground already won. The Forest Department however has entered upon a systematic lantana campaign which if sanctioned is calculated to free the reserved forests of the pest within a term of years.

25. The Coorg Noxious Weeds Regulation, I of 1914, was promulgated during the year and came into force with effect from the first day of the current year. If judiciously worked it should add the impetus which is now needed to carry the campaign a stage further towards success.

PART II.

DEPARTMENTAL CHAPTERS.

PART II.

DEPARTMENTAL CHAPTERS.

I.—PHYSICAL AND POLITICAL GEOGRAPHY.

Standing information and geographical statistics.

1. The standing information which should be incorporated in this Chapter is printed in the administration report for the year 1911–1912 under the following headings :—

	PAGE.
Physical features of the country ...	1
Area	3
Climate	3
Chief staples	3
Historical summary	4
Form of administration	5
Character of land tenures	7
System of survey and settlements ...	8
Civil divisions of the British territory ...	10
Details of the last census	10
Tribes and languages	11

Other statistical information will be found in the Coorg District Gazetteer, Volume B. Statements Nos. 1 to 5 exhibit the prescribed statistics regarding the area, character of the surface, climate, civil divisions and population of the province.

Changes in the administration.

2. There were no changes in the form of administration during the year under report.

Relations with Native States.

3. Mysore is the only foreign State adjoining Coorg and the relations therewith were satisfactory.

Condition of the people.

4. The public health during the year was fair. The mortality registered was lower by 4·34 per cent. than the average for the previous five years though there were outbreaks of cholera, plague and small-pox in parts which accounted for 243 deaths. The failure of the later rains was prejudicial to the rice crop and the outturn was consequently much below the normal. The prices of the principal food-grains ruled high. The coffee crop was better than that of the previous year but the market was dull. Though there was no outbreak of rinderpest in the province the cattle mortality was heavy. The records of civil litigation and the transactions of the Registration and Excise departments however point to a general prosperity. There was a material increase in the rate of hire payable for labour.

II.—ADMINISTRATION OF THE LAND. (1913–1914.)

Realization of the revenue.

5. Statement No. 6—*Land revenue.*—The *demand* for the year was Rs. 3,64,845 as against Rs. 3,58,598 or an increase of Rs. 6,247. The bulk of the increase was due to the introduction of the revenue re-settlement of the Yedenalknad taluk and the remainder to the sale of a larger area of Government waste lands for the cultivation of coffee, etc. The gross demand including the outstanding balance (Rs. 66,823) amounted to Rs. 4,31,668. The collections

and remissions aggregated Rs. 3,61,217. The balance at the close of the year was thus Rs. 70,451, which however included Rs. 60,944 due by planters who are allowed to defer payment till the end of May. The actual balance was therefore Rs. 9,507.

6. Statement No. 7—*Assignment of land revenue.*—The total value of assignments was Rs. 1,09,502 or Rs. 467 more than that of the previous year. The increase is wholly due to the assignment of a portion of the assessment levied on the excess area of certain privileged holdings discovered at the re-settlement.

7. The acreage held under the principal tenures is exhibited in the following table, which includes the corresponding figures for the previous year :—

Years.	*Sagu.*		*Jama.*		*Jódi.*		*Umbli.*		*Jágir.*	
	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.
1912-1913	44,605	19,861	40,556	196	3,698	873	7,670	34	3,752	883
1913-1914	45,275	19,964	40,490	195	3,679	862	7,671	34	3,752	883

Continued.

Years.	Coffee.	Orange.	Arecanut.	Cardamom.	Rubber.	Agave.	Pepper.	Total.
1912-1913	94,332	2,494	237	58,612	2,470	280	1,069	281,622
1913-1914	94,880	2,906	237	59,182	2,745	280	1,138	284,173

The increases under *sagu* and orange are chiefly owing to excess areas found by re-survey, while those under coffee, cardamom and rubber are due to fresh grants and expansion of cultivation.

8. Statement No. 8—*Incidence of land revenue on area and population.*—This is a quinquennial return and was last prepared in 1912–1913 (vide paragraph 8 of the report for that year).

9. Statement No. 9—*Transfers of landed property.*—There were 53 transfers by order of a court of unprivileged lands. Thirty-five cases refer to sales by revenue courts for arrears of assessment and 18 to civil court sales. Of the number sold by revenue courts the lands were resumed to Government in 13 instances for want of bidders. Thirteen *jama* holdings amounting to 48 acres were brought to sale for default of payment of assessment and were transferred to the auction purchasers, the privileged tenure becoming thereby extinct.

Agricultural advances.

10. Statements Nos. 10, 11 and 12—*Transactions under the Land Improvement and Agriculturists' Loans Acts.*—The total amount advanced to cultivators during the year under both acts amounted to Rs. 24,885 or Rs. 645 more than that of 1912–1913. Including the outstanding balance (Rs. 40,179) at the commencement of the year, the gross sum for recovery amounted to Rs. 65,064. The realizations aggregated Rs. 17,414 leaving a balance of Rs. 47,650 of which Rs. 47,018 represents instalments not payable during the

year and Rs. 632 those in respect of which there was default; the whole of the arrear balance, except Rs. 247, the collection of which has been suspended, has since been realized. In only three cases had lands to be attached and sold, for arrears aggregating Rs. 112–3–1. The net profit to Government from these loan operations was Rs. 1,642 against an average of Rs. 1,089 for the preceding five years.

11. The amount advanced under the Land Improvement Loans Act, 1883, was Rs. 11,655. The number of ryots benefited was 120 and the sums distributed ranged from Rs. 20 to Rs. 400. The amount which became due during the year (including arrears) was Rs. 7,769 and the percentage of collection was 95·21 against 92·99 in the previous year.

12. The advances under the Agriculturists' Loans Act, 1884, amounted to Rs. 13,230 and were distributed among 337 ryots in sums varying from Rs. 20 to Rs. 180. The total amount collected was Rs. 10,017 and the percentage of collection to amount due (10,277) was 97·47 as compared with 98·00 in 1912–1913.

13. In consequence of the heavy mortality among cattle the number of applications for loans under the Agriculturists' Loans Act was unusually large. As many deserving applications as possible were granted and this resulted in an increase of Rs. 1,440 over the amount advanced in 1912–1913.

Surveys, settlements and land records

14. Statement No. 13—*Survey and Settlement.*—The new settlement for the Yedenalknad taluk was introduced during the year and resulted in a net increase of Rs. 4,699–2–11. This completes the settlement operations for the whole province. The final settlement report was drawn up and approved of by the Chief Commissioner. The total net increase in revenue for the whole province, as the result of the settlement operations has been Rs. 16,007–6–6 or 4·86 per cent. of the previous revenue.

15. The Department of Land Records and Agriculture continued to be under the executive charge of Mr. Gustav Haller.

16. The progress made by the Land Record Department was satisfactory. The maps and records were kept up to date and 42 village maps were republished.

17. A survey school was held at Fraserpet during the monsoon and ten parpattigars, twelve other officials and four candidates were declared to have qualified in surveying.

Waste lands.

18. The area of land sold under the Waste Land Rules during the year was 126·82 acres. Excluding timber growth, the value realised was Rs. 2,191, the average price per acre being Rs. 17–4–0, compared with Rs. 20–6–4 in the previous year.

Wards' estates.

19. The number of minors (4) under the official guardian remained the same as in the previous year, there being no fresh admissions. The arrangements made for the management of their properties were satisfactory.

Revenue and rent-paying classes.

20. There are no *zamindaris* in Coorg and the great bulk of the holdings are *ryotwari*, the ordinary tenure being known as *sagu*, though there are one or two separate villages held as *jágirs*. Particulars have been given in paragraph 7 *supra* of the holdings under the various classes of tenure, a description of which will be found in paragraphs 23—30 of the administration report for the year 1911–1912. Owing to the fact that individual ryots frequently hold land under more than one tenure it is impracticable to compile statistics of the several rent-paying classes. Reference has been made in paragraphs 6 and 8 *supra* to the revenue foregone in respect of the several privileged tenures and to the incidence of the land-revenue demand on the population, while information as to the average assessment is furnished in Statement No. 82.

III.—PROTECTION.

Standing information.

21. The standing information which should be incorporated in this Chapter is printed at page 14 of the administration report for the year 1911–1912 under the heading "Legislating Authority".

Course of legislation. (1913–1914.)

22. Statement No. 14—*Acts of the Governor General in Council affecting Coorg.*—No Act was extended to Coorg under the Scheduled Districts Act during the year. The Coorg Noxious Weeds Regulation, I of 1914, was promulgated under Statute 33, Victoria, C. 3.

Police. (1913.)

23. Statements Nos. 15 and 16—*Cognizable crime.*—The number (573) of cognizable offences reported was 17 more than in the previous year. There was a rise under breaches of special and local laws, but there was a decrease under minor offences against property. Police investigation was refused in 14 cases.

24. The percentage of convictions obtained in cognizable cases investigated by the police was 85·18 against 84·52 in the previous year. Of 661 persons arrested by the police, 433 were convicted, the figures for 1912 being 623 and 440 respectively.

25. Eleven cases of murder were dealt with during the year. Four ended in conviction, one was referred as mistake of fact, two were undetected and the remaining cases were pending.

26. Four cases of culpable homicide were reported during the year. Convictions were obtained in all of them.

27. Three cases for preferring false charges were dealt with during the year. In two cases convictions were obtained and in one the accused was discharged.

28. Statement No. 19—*Property stolen and recovered.*—The recovery of property was not so good as in the previous year, the percentage being 46·38 as against 70·61.

29. Statement No. 20—*Sanctioned strength and cost.*—The total expenditure was Rs. 59,591 against Rs. 52,577 in the previous year. Of the excess of Rs. 7,014 over last year Rs. 3,222 is debitable to "miscellaneous refunds" and "refund of advances." Deducting this amount the actual increase in expenditure comes to Rs. 3,792 due mainly to the entertainment during the year of four

additional sub-inspectors who were under training at Vellore, to promotions to higher grades of inspectors and sub-inspectors and to increments granted to head-constables and constables.

30. Statement No. 21—*Equipment, discipline, and internal management.*—The actual strength of the police was 239 against 227 in the previous year. One sub-inspector was enlisted and was sent to Vellore for training. Ten out of twelve stations were in charge of sub-inspectors. Four policemen were punished judicially and 98 were dealt with departmentally as against 104 in the previous year. One man was dismissed during the year. The conduct of the police force on the whole was satisfactory. The number of men who are literate in Canarese was 233 against 222 in 1912. The training school at Mercara was open throughout the year for the instruction of recruits and sixteen men passed through it. The number of Coorgs in the department was 138 against 133 in the previous year.

31. The number of processes issued during the year was 10,490 against 8,499 in 1912; of this number 36 were pending execution at the close of the year.

32. Twelve suicides were reported as compared with 5 in the previous year and the number of accidental deaths fell from 53 to 30.

33. Mr. E. H. Sullivan reverted to the Madras service and Mr. C. A. Lidbury was in charge of the department from 21st May 1913.

---

34. Statement No. 23—*Number of criminal courts and trials conducted.*— Mr. R. H. Ellis, I.C.S., held the post of District Magistrate throughout the year. There were no permanent changes in the personnel of the subordinate magistracy. Criminal Justice. (1913.)

35. Statement No. 24—*Particulars regarding the trial of offences.*—The number of cases brought to trial (2,964) was 698 more than in the previous year, while the number of offences reported (3,143) increased by 654. Under the Workman's Breach of Contract Act, 1,547 cases involving 1,547 persons were instituted as compared with 1,067 cases in 1912. Excluding cases of this class the criminal trials during the year resulted in the discharge or acquittal of 1,216 persons and the conviction of 885. The percentage of convictions was thus 41·65 compared with 38·95 and 38·91 in the two previous years. Excluding petty cases of hurt, assault, mischief and insult, most of which are only technically criminal, the percentage of persons convicted comes to 67·54 against 69·99 in the previous year. Offences against public tranquillity and justice numbered 35, those against the person 362, and those against property 229, while there were 136 other offences under the Indian Penal Code, and 2,202 breaches of special and local laws. Petty cases under the Police Act showed an increase (308 as against 281), and also cases under the Arms Act (135 as against 42), Excise Act (82 as against 60), and municipal by-laws (59 as against 38). The number of offences against property was 229 against 230 in the previous year. Thirteen persons were found guilty of offences classed as heinous crime. Of these, three were convicted of murder, one being hanged and the other two transported for life.

There were no cases of opium smuggling during the year, nor were any proceedings taken under the Indian Press Act.

36. Statement No. 26—*General result of criminal trials.*—The average duration of each case was 7 days in the District Magistrate's court and 11 days in the subordinate courts.

37. Statements Nos. 27 to 31—*Punishments inflicted by various courts.*—One person was sentenced to capital punishment and two to transportation for life by the Sessions Judge. Whipping was awarded only in one case. As stated in previous years' reports the decrease in this form of punishment is chiefly due to the withdrawal of whipping powers from the second class magistrates. The amount of fines imposed and of compensations paid was Rs. 7,494 and Rs. 164 respectively as compared with Rs. 9,212 and Rs. 375 in the previous year. The percentage of realizations was 90.

38. Statement No. 32—*General result of the trial of European British subjects.*—One European British subject was brought to trial for an offence under section 32 of the Indian Arms Act and was convicted.

39. Statement No. 33—*Result of appeal and revision.*—Seventeen appeals were preferred before the District Magistrate. In five cases the sentences were reversed and in another reduced. In one case in which eight persons were involved, sentences were reversed in respect of two and confirmed in respect of the other six. Eighteen cases were dealt with by the Sessions Judge. Sentences in three cases were reduced and in two reversed. The Judicial Commissioner received three appeals against convictions. The sentence in one case was confirmed and the other two were pending at the end of the year. There were in all 30 applications for revision as compared with 23 in the previous year. Of these, eight were preferred to the Judicial Commissioner who, in six cases, upheld the orders passed, enhanced the sentence in one and quashed the proceedings in another.

40. Statement No. 34—*Juries and assessors.*—Trials before the Sessions Court were conducted with the assistance of assessors.

41. The records and registers of all subordinate courts were inspected by the District Magistrate during the year.

Prisons. (1913.)

42. Statements Nos. 35 to 62—*Detailed statistical information regarding the administration of the jail department during the year 1913.*—The particulars for the Mercara District Jail and the four lock-ups attached to the taluk offices at Somwarpet, Napoklu, Virajendrapet and Ponnampet, are given separately.

43. The bulk of the jail population is confined in the District Jail and the lock-ups are used only for under-trial prisoners, persons sentenced to periods of imprisonment not exceeding fifteen days, and convicts temporarily detained pending transfer to the District Jail.

Sub-jails.

44. The total number of admissions to lock-ups during the year under report was 348 or 16 more than in the previous year. The number of convicts included in this total fell from 72 to 57, and 46 of these were for transfer to the District Jail. Eleven convicts were confined in the lock-ups as against ten in the previous year. The maximum period of detention in the case of under-trial prisoners was 52 days, the average being 6·52 days. The expenditure on dieting charges per annum per head of average strength fell from Rs. 105 to Rs. 59. The ordinary allowance per man is one seer of rice and five pies' worth of curry stuff.

District Jail.

45. The accommodation available was the same as in 1912. The wards provide for the custody of 151 prisoners of all classes. The largest number in custody on any one day was 83. In the male under-trial ward there was slight overcrowding which was relieved by making use of other wards.

46. Statements Nos. 36 to 43—*Number and disposal of jail population, classification according to religion, age, offences, etc.*—The daily average strength including under-trials and civil prisoners was 58·41 against 66·59 during the previous year. Of the total jail population (351), 189 were convicted prisoners, 145 under-trials and 17 civil debtors. The figures for 1912 were 190, 169 and 11 respectively while those for 1911 were 205, 135 and 17.

47. Sixty convicts were in custody on the 31st December 1912 and 129 were admitted during the year. Of these, 128 were released on the expiry of sentence, two on appeal, sixteen under remission rules, one was transferred, one was transported to the Andamans, one was executed and two died. There were thus 38 convicts in confinement on 31st December 1913.

48. Of the under-trials, 49 were subsequently convicted, 71 were released, 14 were transferred to other jails and 11 remained in custody at the close of the year.

49. Statements Nos. 44 to 49—*Particulars regarding jail discipline.*—The number of offences committed by convicts fell from 30 to 14. Seven offences related to work, five to receiving and possessing forbidden articles, one to assault and one to other breach of jail discipline. The convict who escaped in 1902 and the two convicts who escaped in 1905 have not been re-arrested. No corporal punishment was inflicted during the year. Of the total number of jail offences 19·31 per cent. were committed by habitual offenders whose proportion to the entire jail population was 14 per cent. It is interesting to note, however, that 63·64 per cent. of the habituals, 13·33 per cent. of the twice convicted but only 3·07 per cent. of the ordinary prisoners were so punished. Prisoners of the habitual class were kept, as usual, in cubicles at night, and in separate gangs at meal time, and were not appointed to the post of maistry. Sixteen convicts were released under the remission rules during the year, the maximum remission earned being 260 days by a convict under sentence of imprisonment of seven years. Eleven were awarded special remission for having committed no prison offences whatever during the year.

50. Statements Nos. 50 to 53—*Scales of diet.*—Diet was, as usual, supplied departmentally in accordance with the authorized scale and the result was satisfactory. The quality of food was good and the quantity sufficient to keep the prisoners in good health. The daily cost per head was three annas and one pie or six pies more than in the previous year. The increase was due to the price of food-grains being higher during the year. The gross outlay on the articles of food was Rs. 3,965 against Rs. 3,861 in the preceding year. On account of the small jail population, however, there remained at the close of the year provisions to the value of Rs. 620 out of the stock purchased during the year under report.

51. A sum of Rs. 262 was spent in purchasing clothing for the prisoners.

52. Statements Nos. 54 to 56—*Detailed statistics of health.*—Water is supplied from the Mercara reservoir. Conservancy and drainage arrangements were adequate and satisfactory. The health of the prisoners was not as good as in the previous year. There was an increase in the number of cases of dysentery and malaria and the rate of sickness per mille rose in consequence from 11·26 to 19·00. There were two deaths among the convicted prisoners, one was due to anæmia and debility and the other to chronic diarrhœa due to ankylostomiasis.

53. Statement No. 57—*Gain and loss in weight of the prisoners.*—Of the 151 convicts discharged from jail, 76 had gained in weight while 47 had lost, the variations in the case of 33 of the latter being under 5 lbs. No convicts were released on medical grounds.

54. Statement No. 58—*Expenditure on guarding and maintaining prisoners.*—The gross expenditure was Rs. 11,169 against Rs. 10,906 in the previous year. The increase in expenditure was due to the rise in the price of food-grains, to the adjustment during the year of the cost of medicines supplied by the Storekeeper with the Government of Madras and to the purchase of clothing and bedding for the prisoners.

55. Statement No. 60—*Employment of convicts.*—The work of the prisoners was, as usual, carefully arranged with reference to class, sex and health. The in-door labour consisted chiefly of grinding ragi, laundry work and carpentry.

56. Statement No. 61—*Net cash earnings of convicts.*—The total receipts from jail manufactures was Rs. 2,452 against Rs. 2,868 in the previous year. During the year the convict population was much smaller than in the previous years being the lowest on record. This materially reduced the receipts under jail manufactures and convict labour hired to the Public Works Department. The expenditure on materials amounted to Rs. 796 against Rs. 1,822 and the net profit to Government was thus Rs. 1,656 as compared with Rs. 1,046 in the previous year Taking this profit into consideration, the net expenditure was Rs 9,513 against Rs. 9,860 in 1912 but owing to the smaller number of convicts the average cost per prisoner rose from Rs. 148 to Rs. 162.

57. The jail was periodically inspected by the local official visitors. Captain W. R. J. Scroggie, I.M.S. was in charge till 13th May 1913 and was succeeded by Lieut.-Colonel J. L. Macrae, I.M.S.

Civil Justice. (1913.)

58. There was no change in the number of Civil Courts (five) or their jurisdiction.

59. Statement No. 63—*Number and description of suits instituted.*—The number of suits filed (2,682) was more than that of the previous year by 31. This is the highest figure during the past decade.

60. Statement No. 64—*Number and value of suits instituted.*—The total value of suits was Rs. 2,47,045 or 1·26 per cent. more than in the previous year and the average value (Rs. 92) was the same as in the previous year.

61. Statement No. 65—*General result of the trial of original cases.*—The number of cases decided was 2,735 as against 2,696 in 1912 and the arrears fell from 359 in the previous year to 306 in the year under report. The number of suits decreed *ex-parte* was 1,329 of which 22 were restored to file. Out of twelve applications for review of judgment two were granted. Six applications to sue *in forma pauperis* were received, of which one was granted, four were rejected and one was pending at the close of the year.

62. The total number of witnesses who attended the courts was 1,886 as against 1,990 in 1912. Fifty-eight witnesses were detained for more than three days, while 1,636 were discharged on the first day of attendance.

63. Statement No. 66—*General result of the trial of miscellaneous cases.*—Including 59 pending at the close of the previous year the number of miscellaneous applications before the courts was 645; of these, 588 cases including 43 applications under the Guardian and Wards' Act, 1890, and one for probate and letters of administration, were decided.

64. Statements Nos. 67 and 68—*Regular and miscellaneous appeals.*—The total number of regular appeals including thirteen pending at the close of the previous year was 45 as against 49 in 1912; of these, four were successful, three modified and one was remanded. There were nine miscellaneous appeals as

against eleven in the previous year and one was successful, one modified and one remanded. Nine appeals out of eighteen including two pending at the close of the year 1912, were decided by the Judicial Commissioner and in three cases the orders of the lower court were upheld. There were no miscellaneous appeals during the year under report.

65. Statement No. 69—*Particulars of execution proceedings.*—The number of cases filed was 3,290. In 61·24 per cent. of those before the courts no recovery was effected. Since the close of the year under report, under the provision of section 67 (2) of the Code of Civil Procedure, 1908, as amended by Act I of 1914, all immoveable property except such as shall have been specifically pledged as security has been exempted from attachment or sale in execution of decrees of Civil Courts in the province.

66. Statement No. 70—*Results of insolvency applications.*—Of the 25 applications including two pending from last year, nineteen were rejected, and one was granted; five were pending at the close of the year.

67. The total number of processes issued by all courts during the year was 16,545, the realisation from process fees being Rs. 8,587.

68. The quarterly and annual returns of the subordinate courts were scrutinized by the District Judge, and all the courts were inspected by that officer. There were ten first grade, twelve second grade pleaders and one Barrister practising in the province.

Registration. (1913.)

69. Statements Nos. 71 to 74—*Working of the Registration Department.*—The total number of documents registered rose to 2,933 in the year under report from 2,923 in the previous year which had been the highest number recorded during the past decade. There was an increase of Rs. 33,340 in the value of the property concerned. The total receipts from fees (Rs. 5,244) and the surplus realised (Rs. 1,330) on the working of the department were very slightly less than in the previous year, while the total expenditure increased by Rs. 48. The average surplus for the last ten years has been Rs. 1,305.

70. The number of documents pending delivery at the end of the year was 14 against 22 in the previous year, and the average time taken to register each document was 12 hours. Registration was refused in six cases. There was only one appeal against these refusals. The order was set aside and registration permitted.

71. All the sub-registry offices were inspected by the Registrar and that of the Registrar by the Inspector-General.

District Board. (1913–1914.)

72. Statement No. 75—*Constitution of the District Board.*—The term of office of the nominated members of the Board expired on 31st March 1913. Messrs. A. H. Jackson and J. A. Graham were re-appointed as representatives of the Coorg Planters' Association. The five Subedars were selected to represent the local interest of their respective taluks. As representative landholders Messrs. C. Devayya, B. I. Ganapati, P. Devayya, D. Venkatramana Shetti and M. I. Mandanna were elected in place of Messrs. P. J. Beni Singh, A. Mandanna, R.B., K. Kuttayya, R.B., and Nidtha Subbannayya.

73. Statement No. 76—*Income of the District Board.*—Excluding the opening balance the receipts amounted to Rs. 93,280 as compared against a budget estimate of Rs. 77,200. The receipts include two special grants made by the Government of India during the year, viz., a non-recurring grant of Rs. 2,153 for the improvement of hospitals and medical education and a recurring grant of Rs. 4,668 for improving the pay of the school masters. The income under tolls on roads increased by Rs. 6,285.

74. Statement No. 77—*Expenditure of the District Board.*—The expenditure was Rs. 1,15,028 as against a budget estimate for Rs. 1,12,226.

75. Five new schools were opened during the year bringing the total number of schools to 75 against 70 in the previous year; the attendance rose from 4,387 to 4,740. English was taught in eight schools to 483 pupils against 462 in the previous year.

Out of the total number of 3,462 boys and 1,278 girls attending the schools, 1,987 boys and 911 girls were Coorgs by race. The percentage of children protected from small-pox was 92·72 against 95·31 in the previous year. There were nine schools for the education of Panchamas of whom 214 were under instruction against 222 in the previous year. In five of the schools, caste boys were also admitted.

The total outlay on education was Rs. 27,608 against Rs. 18,760 in the previous year representing a percentage of 29·59 of the total income. The increase is due to the increase in the number of teachers, to the improvement in their pay and to the supply of furniture and was met entirely by an Imperial grant. The ordinary expenditure charged against the direct income of the fund was Rs. 15,590 which represents a percentage of 19·18. The income from school fees was Rs. 3,285 against Rs. 3,270 in 1912–1913.

76. There was no change in the number of local fund dispensaries (6). The total number of out-patients treated was 55,480 against 54,540 in the previous year. In the Somwarpet dispensary 293 in-patients were treated. An in-patient ward for such patients as were prepared to meet the expenses of their own maintenance while under treatment was opened during the year at the Gonikoppal dispensary but only 29 persons availed themselves of it. The principal ailments treated were malaria, dysentery, diarrhœa and diseases of the digestive and respiratory systems.

A temporary dispensary was located at Srimangala for six months during the year with a view to ascertaining the need for such an institution at that place. During this period 3,880 out-patients were treated. The dispensary has since been made permanent.

The gross expenditure on dispensaries including sanitation amounted to Rs. 12,998 as compared with Rs. 10,973 in the previous year.

77. The Sanitary Inspector was engaged in inspecting the municipalities and pettas. He was also on plague duty at Virajpet.

78. The number of travellers' bungalows (4) and of shelter houses for the use of immigrant coolies (4) remained the same as in last year. The fees realised from the bungalows (Rs. 776) failed as usual to cover the outlay incurred in the shape of establishment charges (Rs. 1,142).

The net revenue from tolls amounted to Rs. 22,485 against Rs. 15,222 in the previous year. The increase is due to keen competition at the auction sales. There was no change either in the number (25) or in the working of the ferries and the revenue realised from this source was Rs. 1,526 against Rs. 1,152 in the previous year.

Village communications and bridle-paths were improved at a cost of Rs. 3,802.

79. The grant for public works under the control of the Board was Rs. 70,626 and the expenditure Rs. 62,164. The difference was either surrendered by the Executive Engineer or lapsed to Government as the works on account of which provision was made could not be taken up for want of labour.

80. Under *civil buildings* an expenditure of Rs. 19,430 was incurred on improvements to certain local fund schools and dispensaries and quarters for Sub-Assistant Surgeons. The annual repairs to local fund buildings account for an outlay of Rs. 1,034.

81. As usual the bulk of the expenditure was devoted to communications. On *original* works the gross outlay was Rs. 7,727. The greater part of this amount was spent on the following works :—

(i) Opening a road from Sidapur to Pollibetta.

(ii) Constructing a bridge across the Kotail river on the Mercara-Nalknad road.

(iii) Metalling the first section of the Fraserpet-Sidapur road.

Under 'minor works' a sum of Rs. 7,859 was spent on the construction or improvement of petty bridges and drains on lines of communication.

82. The outlay on repairs to communications amounted to Rs. 13,032. This includes Rs. 316 expended on ferries, Rs. 652 on bridle-paths, Rs. 832 on travellers' bungalows and Rs. 251 on toll-gates.

The length of communications maintained during the year was 167 miles and 2 furlongs of which 9 miles and 7 furlongs were metalled and 157 miles and 3 furlongs unmetalled. The roads under the control of the Board were kept in order at an average cost of Rs. 63 per mile including the upkeep of bridle-paths.

83. Under miscellaneous public improvements a sum of Rs. 1,686 was spent, the major portion being on wells at Sanivarasante and Murnad and cattle pounds at Hudikeri, Kattepura and Banavara.

84. The balance of the public works expenditure represents the usual charges on account of establishment (Rs. 10,653), and tools and plant (Rs. 743).

Municipal. (1913-1914.)

85. Statements Nos. 78 to 80—*Constitution, income and expenditure of municipalities.*—The by-laws for the Mercara Municipality framed under the Coorg Municipal Regulation, 1907, were brought into operation during the latter part of the year under report.

Mercara Municipality.

86. The term of office of the elected and nominated members of the Mercara Municipality expired during the year. Of the ten members two were nominated by the Chief Commissioner in the interests of the European and Muhammadan Communities and the remaining eight were elected as representatives of the Coorg, Hindu and Muhammadan population. Mr. Pandanda Appachu was appointed Vice-President for one year with effect from the 1st November 1913 in the place of the Subedar of the Mercara Taluk. At the 12 meetings held during the year, the average attendance of the ex-officio and non-official members was respectively 3 out of 4, and 6·75 out of 11.

87. The actual receipts of the year including the opening balance of Rs. 28,099 amounted to Rs. 62,031 and the expenditure to Rs. 42,627 leaving a closing balance of Rs. 19,404. The gross demand, including an outstanding balance of Rs. 249, was Rs. 35,129. The collections and remissions (Rs. 85) amounted to Rs. 34,017 leaving an uncollected balance of Rs. 1,112 at the close of the year.

88. The most important items of expenditure were Rs. 2,991 under conservancy, Rs. 1,047 on the maintenance of roads, Rs. 11,099 on water-works, Rs. 424 on lighting, Rs. 547 on the eradication of lantana, Rs. 404 on the repair of side drains, Rs. 5,000 on the drainage of swamps round Mercara and Rs. 9,201 on improvements to the Gowli bazaar and the "Coronation Garden".

89. A special non-recurring grant of Rs. 25,000 was made by the Government at the close of the previous year for sanitary purposes. This amount having been found to be insufficient an additional similar grant of Rs. 15,000 was received during the latter part of the year under report. The works undertaken with these funds and the progress made towards their completion have been described in detail in paragraph 192 *infra*.

Virajendrapet Municipality.

90. There was no change in the composition of the Committee. The average attendance at the nine meetings held during the year was 3·3 in the case of official, and 5·3 in the case of non-official members, the total strength being five and nine respectively.

91. Including an opening balance of Rs. 10,008 the gross receipts aggregated Rs. 18,727 and the expenditure Rs. 10,818 leaving a closing balance of Rs. 7,909. The total demand under all heads of revenue, including an outstanding balance of Rs. 49 at the beginning of the year was Rs. 8,818: of this, Rs. 8,749 were collected leaving a balance of Rs. 69 at the close of the year.

92. There was an outbreak of plague in the town during the year: 12 persons were attacked of whom 8 died. Necessary precautions were taken to check the epidmic the whole town was disinfected and a sum of Rs. 1,063 was spent, mainly in disinfection of houses but a considerable portion of that will eventually be recovered from the more well-to-do house owners.

93. The progress of the tailoring institution which was started in 1912 is fairly satisfactory. The primary school for Panchamas continued to show steady progress. The erection of a new Hindustani school and the sinking of probably three wells to improve the water-supply of the town is being carried out. A site has been acquired for the school and the work will be completed during the present year.

Notified Areas.

94. The only change in the composition of the Committee of the Fraserpet notified area was consequent on the death of Mr. E. Rangachari, one of the members. Mr. Qadir Badsha Sahib was appointed in his stead. The average attendance of members at the four meetings held was 4·3, the total strength being eight. The income of the year, including the opening balance of Rs. 885, amounted to Rs. 1,849 and the expenditure to Rs. 1,237. The important items of expenditure were Rs. 525 for the construction of market stalls, Rs. 443 under conservancy and Rs. 126 under lighting. The closing cash balance was Rs. 612.

95. The Somwarpet Committee held five meetings at which the average attendance of members (7) was 5·8. The income of the year, including the opening balance of Rs. 1,654, amounted to Rs. 4,591 and the expenditure to Rs. 3,107. The important items of expenditure were Rs. 742 for the construction of additional market stalls, Rs. 666 under conservancy, Rs. 635 for the construction of side drains, Rs. 300 for the maintenance of roads, Rs. 153 under lighting and Rs. 123 for the repair of Anékeré tank. Excluding Rs. 700 held in Government securities, the cash balance at the close of the year was Rs. 1,484.

96. At the four meetings held by the Kodlipet Committee, the average attendance of members was 5·7, the total strength being six. The income of the year, including the opening balance of Rs. 593, amounted to Rs. 1,673 and the expenditure to Rs. 797. The important items of expenditure were Rs. 372 under conservancy, Rs. 109 under cattle pounds and Rs. 54 under lighting. The closing cash balance at the end of the year was Rs. 876.

(Volunteering.) (1913-1914.)

97. The total strength of the Coorg and Mysore Rifles on the 31st March 1914 was 250. The command was held by Lieut.-Col. G. R. Pearse, V. D., from 1st to 19th April 1913 and by Captain Talbot Cox, V. D., from 20th April 1913 and the adjutancy by Captain W. B. Roberts of the 101st Grenadiers throughout the year. Camps of exercise were held as follows:—For A and B Companies at Fraserpet in September 1913; for C and D Companies at Chickmagalur in October 1913; for E Company at Shimoga in March 1914.

IV.—PRODUCTION AND DISTRIBUTION. (1913-1914.)

Character of the seasons.

98. Statement No. 3—*Rainfall and climate.*—The season was on the whole favourable for wet and dry crops, but the scanty and unequal distribution of rain in the latter part of the cultivation season greatly affected the outturn in some places, particularly in the northern hoblis of Nanjarajpatna taluk. The cardamom crop was about the average. The coffee crop on European estate was above the average. Some estates did exceptionally well, and the crop on the whole was the best that has been obtained for some years past. Indian estates did not do quite so well. The total number of rainy days in 1913 was 114 with a rainfall of 108·99 inches as compared with 133·49 inches in 1912.

Area under cultivation and cropped area.

99. Statement No. 81—*Area under crops.*—The total area under cultivation was 138,205 acres against 140,253 acres in the previous year. Including the second crop cultivation (529 acres) the area under rice was 82,500 acres, giving a percentage of 81·79 to the gross wet holdings, viz., 100,867 acres as compared with 82·79 in 1912-1913. The total area of dry holdings was 21,938 acres and the extent actually cropped was 7,615 acres, which includes 303 acres of second crop cultivation. As compared with the previous year, there was a decrease of 1,236 acres in the area under dry crops attributable to insufficient rain in August and September. The gross area under coffee tenure was 94,880 acres, which includes (*a*) 9,356 acres of *ryotwari* cardamom *malés*, (*b*) 1,371 acres of orange gardens, (*c*) 37,963 acres of abandoned coffee or land granted for coffee but not planted and (*d*) 4,114 acres planted with rubber. There is thus a net area of 42,076 acres under actual coffee cultivation as compared with 42,510 acres in the previous year: the decline of 434 acres is due to the abandonment of deteriorated gardens. In addition to the area shown under (*d*) *supra* 2,745 acres are cultivated with rubber and 114 acres with *agave*.

100. The estimated area under cardamom is 2,336 acres, made up of (*a*) *jama malés* (387 acres), (*b*) leased *malés* (1,356 acres) and (*c*) coffee assessed *malés* (593 acres); the aggregate holdings under these heads being respectively 9,012, 50,170 and 9,356 acres (total 68,538 acres).

101. The 4,510 acres shown as "fruits and vegetables" include 4,277 acres of orange gardens of which 1,371 acres are cultivated in the area held under coffee tenure referred to in paragraph 99 *supra*. The extent of pepper cultivation as a by-product on lands held under coffee tenure is returned as 7,572 acres and that on other holdings as 1,138 acres.

Irrigated area.

102. The area irrigated from Government channels and tanks was respectively 2,427 and 1,692 acres against 2,610 and 1,750 acres in the previous year.

Outturn per acre and total produce.

103. Statement No. 82—*Rates of rent and produce.*—The rice and *ragi* crops were much below normal. The coffee crop was about the average, the estimated outturn being 3,682 tons as compared with 2,516 tons in 1912–1913.

Prices, trade and stocks.

104. Statements Nos. 83, 93, 94, 95 and 96—*Prices, imports, exports, coinage and paper currency.*—The prices of rice and *ragi* were in consequence of short outturn higher than those of the previous year. The price of coffee was normal though a slight fall is noticeable when compared with that of 1912–1913. The import and export figures are for the most part compiled from information supplied by the toll-gate contractors and cannot be relied upon; nor is it possible to draw any inference as to the state of trade from the prescribed returns of coinage and paper currency.

Agricultural stock.

105. Statement No. 85—*Live-stock.*—This is a quinquennial return. The figures were compiled for the year 1909–1910. The total mortality among cattle from all causes was 7,431 against 5,776 in the previous year. Of this number, 681 were reported to be due to foot and mouth disease and 531 to anthrax. There were no cases of rinderpest.

106. Statements Nos. 86, 87, 88, 89, 90, 91 and 92 —*Cost of the Veterinary Department, etc.*—Including fifteen elephants of the Forest Department, the number of animals treated by Veterinary Assistants on tour was 1,945 while 1,832 were attended to as out-patients at the dispensaries as compared with 1,298 and 1,572 in the previous year. The special work attended to by the Veterinary Assistants consisted of (*a*) delivering lectures to ryots and cattle owners on matters relating to the treatment of diseases and the management of cattle in general, (*b*) examining cattle on behalf of the Co-operative Cattle Insurance Societies and (*c*) the periodical examination of the stage coach animals belonging to the mail tonga service. The total receipts and expenditure of the department were Rs. 159 and Rs. 3,329 respectively. The buildings presented by M.R.Ry. D. Venkataramana Shetti for the location of a veterinary dispensary at Somwarpet was formally opened by the Honourable the Chief Commissioner of Coorg on the 3rd February 1914. The general supervision of the department was, as in previous years, vested in Mr. Gustav Haller.

Condition of the agricultural population.

107. Statement No. 84—*Prices of Labour.*—The labour market was well supplied. There was no diminution in the rate of hire.

108. The experimental plot at Gonikoppal was given up during the year. That at Sidapur thus became the only plot maintained. Experiments were confined to potatoes, gram, maize, oranges, leguminous plants for green manuring and sericulture. Two supervisors were trained in sericulture at the Tata Silk Farm, Bangalore. The total receipts and expenditure, including the cost of erection of buildings for silk worm experiments, amounted to Rs. 457 and Rs. 2,854 respectively.

Forests.

109. The area of the reserved forests was reduced during the year by the disafforestation of 50 acres of the Nidtha forest reserve known as the Kabbe hola paisari in North Coorg (by Chief Commissioner's Notification No. 53, dated 5th June 1913) and of 5 acres of the Brahmagiri ghât reserve (by Chief Commissioner's Notification No. 66 of 20th August 1913). The area at the close of the year was 333,002 acres.

110. Seven hundred and six old cairns were repaired at a cost of Rs. 99. A sum of Rs. 25 was also spent in demarcation. The total cost under this head was Rs. 124.

111. The existing roads and buildings were kept in repair at a cost of Rs. 2,165 and Rs. 3,550 respectively. The road up the Barapolé valley was continued, and at the end of the year about 2½ miles had been partly constructed. The first mile is complete except for the bridges. Labour was very scarce, or more work would have been done. The drag paths mentioned in last year's report were continued. About 18 miles of a bridle-path along the eastern slopes of the ghâts were constructed from near Bhagamandala to Nalknad Palace, and about 3 miles of a bridle-path from Irpu temple to the top of the Brahmagiri hills were constructed. Several traces were made for further bridle-paths in the hills.

112. The subordinates' quarters referred to in last year's report at Nagerholé, Dubaré and Gaddigé were completed during the year. New quarters were also partly constructed for one forester and four guards at Karmad, for three guards at Kutompolé and for two guards at Matré. The construction of the bungalow at Hebbalé referred to in last year's report was completed and a new bungalow was partly constructed at Matré.

113. The number of offences reported during the year was 31 against 32 in the previous year. Of these four were compounded on payment of compensation by the delinquents, and in ten cases the offenders were let off with a warning. In the remaining seventeen cases prosecutions were instituted of which fifteen ended in conviction, one in acquittal and one was pending at the close of the year. Both the cases which were pending at the close of the previous year ended in conviction of the offenders.

114. There were thirteen forest fires affecting 1,923 acres against 21 covering an area of 3,004 acres in the previous year. Three of these were attributed to incendiarism, eight were caused by accident or through carelessness in burning. The causes of the remaining two are unknown.

115. The prescribed areas were as usual open to grazing and the revenue realised including the sale proceeds of grass, amounted to Rs. 1,086 as against Rs. 1,244 in the previous year. Free grazing was permitted to persons who enjoy a customary right to it.

116. Fifty acres were sown with sandal seed at Murkal in the Hatgat Range, 50 acres near Anéchowkur in the Mawkal Range, 50 acres at Minkolli in the Cauvery Range and 50 acres near Kargode in the Sandal Range. 75 bamboo clumps were burnt in South Coorg, and sown with teak, biti and honne seed, and 1,056 blanks caused by the felling of trees were sown with seeds of the same species. Four hundred and fifty-five acres where bamboos had flowered in South Coorg and Dubaré were burnt and sown with teak seed. Seeds of evergreen species were sown along the streams in the coupes in South Coorg, and in some of the teak kumris. Recent kumris were weeded. The total expenditure under this head was Rs. 11,121 as against Rs. 7,223 in the previous year.

117. The campaign against lantana was continued with vigour. Local labour having in the previous year been found so unsatisfactory most of the work was done on contract. In reserved forests 1,984 acres were cleared at a cost of Rs. 13,386, and 651 acres of paisaris were cleared at a cost of Rs. 5,181. In reserved forests the lantana on 369 acres, and in paisaris that on 290 acres was cut and burned at a cost of Rs. 780, and Rs. 1,570 respectively. The regrowth on 955 acres of reserves, and on 361 acres of paisaris was uprooted at a cost of Rs. 1,879 and Rs. 690 respectively. In addition to these sums Rs. 2,560 were spent on temporary establishment, on uprooting scattered bushes of lantana in plantations, erecting sheds for coolies, purchase of tools and other miscellaneous works. The areas on which lantana was uprooted were as follows:—

	Acres.
Nalkeri and Hatgat forests	58
Mawkal coupe 1	500
Near Mattigodekeré	21
Balumani sandal plantation	48
Anékad forest	1,058
Dubaré Forest	11
Nidtha forest	47
Kutompolé teak plantation	141
Mercara plantations	100
Paisaris near Fraserpet	590
Paisaris south of Kargode	61
Total ...	2,635

118. The quantity of timber felled departmentally in reserved forests was 228,968 cubic feet against 161,433 cubic feet in the previous year. The increase was due partly to the larger area of the coupes under the prescriptions of the new working plan and partly to the exceptionally large stock of timber in one of the coupes. The timber felled by purchasers was 112,500 cubic feet as against

116,760 cubic feet. 200 tons of sandalwood were collected at an average cost of Rs. 26 per ton of which 144 tons were sold and realised Rs. 1,40,880, the average price per ton being Rs. 978 the highest on record. The number of bamboos and reeds removed was 104,575 and 46,200 against 181,525 and 59,550 in the preceding year.

119. The revenue realised from cardamoms was Rs. 19,766 against Rs. 18,505, and that from minor forest produce Rs. 4,220 against Rs. 3,723 in the previous year.

120. A sum of Rs. 4,515 was recovered on account of timber growth on the lands newly taken up for cultivation against Rs. 10,105 in the previous year, the total number of valuations made by forest officers being 44 as against 120 in the preceding year.

121. No free grants were made during the year.

122. Four elephants fell into pits one of which a young animal had to be shot owing to its having broken or dislocated a leg. The other three are in good condition and one of them is a particularly fine animal. One of the elephants captured in the previous year died. The cost of the capture and training amounted to Rs. 982 against Rs. 680 in the preceding year.

123. Including receipts in foreign treasuries and book adjustments the total revenue and expenditure of the year amounted respectively to Rs. 3,29,226 and Rs. 1,78,463 and the net surplus realised was Rs. 1,50,763.

124. Mr. H. Tireman continued to be in charge of the department throughout the year and Mr. E. M. Crothers, Extra Assistant Conservator in charge of the Sub-division.

Mines and quarries.

125. There are neither Act-mines nor non-Act mines in Coorg. Granite and laterite are worked out from small quarries for the purpose of metalling roads but no account of the quantity raised is kept. A large quantity of clay is used for making bricks.

Manufactures.

126. There are no factories in Coorg and manufactures in the ordinary sense of the term are locally unknown.

Public works.

127. The revenue credited to Imperial Public Works amounted to Rs. 8,827 and was realised chiefly from the sale of old materials, rent of buildings and hire of tools by contractors; Rs. 48 appertained to "Military" and the balance to civil receipts.

128. Including charges debited to Military works and outlay on stock not charged against any sanctioned works, the expenditure for the year aggregated Rs. 2,84,496 against the grant of Rs. 2,94,240.

(Military.)

129. A sum of Rs. 932 out of a grant of Rs. 1,100 was spent on improvements and repairs to the quarters of the Sergeant-Instructors at Pollibetta, Chickmagalur and Saklespur, and the work of remodelling the Sergeant-Major's quarters in the Fort, Mercara, was also put in hand.

130. The expenditure on civil buildings was Rs. 69,347 against a grant of Rs. 69,084. The major works undertaken were:—(*a*) purchasing and improving "Fair View" for the residence of the Civil Surgeon, Rs. 1,335 (total cost Rs. 13,758), (*b*) constructing quarters for the Head Master, Central High School, Mercara, Rs. 4,406 (total cost Rs. 19,313), (*c*) purchasing and improving "Rose Bank" for the residence of the Assistant Superintendent of Police, Rs. 1,858 (total cost Rs. 10,558), (*d*) remodelling the first floor of the Commissioner's Revenue and English offices in the Palace, Mercara, Rs. 3,663 (total expenditure Rs. 7,075), (*e*) constructing quarters for the Forest Sub-Divisional officer at Virajpet, Rs. 2,849 (total cost Rs. 7,839), (*f*) constructing a Model School at Virajpet, Rs. 3,507 (total cost Rs. 4,425). (Civil.) Buildings.

131. On minor works a total expenditure of Rs. 38,108 was incurred. Rs. 13,659 were spent on repairs to civil buildings.

132. The outlay on communications aggregated Rs. 1,33,457 against a grant of Rs. 1,40,785. The expenditure on original works was Rs. 33,816 against a grant of Rs. 39,250. The major works in progress were:—(i) metalling the fifth and sixth miles of the Fraserpet-Sirangal road (Rs. 2,426), (ii) metalling the worst portions of the Gonikoppal-Wynaad road (Rs. 2,553), (iii) constructing a bridge at 131/6 of the approaches to the Periambadi ghât (Rs. 5,612), (iv) reconstructing the Katakeri bridge at 167/8 on the Sampaji ghât road (Rs. 347), (v) raising the Mercara-Periambadi road on the south margin of the Cauvery at 12/5 and 6 (Rs. 199), (vi) providing Horbury's steel flooring for the bridges at 136/1 of approaches to the Periambadi ghât (— Rs. 2,370). The construction of the bridges across the Devarakolli stream and the bridge at Madénad referred to in last year's report were completed at a total cost of Rs. 5,816 and Rs. 5,168 respectively. Communications.

133. On minor works a sum of Rs. 21,331 were spent during the year.

134. Including the usual outlay on the upkeep of bungalows, cooly lines and bridges, the disbursements on account of repairs amounted to Rs. 99,641. The existing communications were maintained in good order. The length of metalled and unmetalled roads maintained during the year was 198 miles 6½ furlongs and 50 miles respectively.

The average cost of repairs worked out at Rs. 218 as of renewals at Rs. 170 per mile.

135. The rain-gauges at various centres were, as usual, repaired during the year.

136. The grant under irrigation was Rs. 10,000, of which Rs. 4,399 were spent. The work in progress was the construction of the right sluice of Mullar tank. Minor improvements were executed to several tanks in various parts of the province. Irrigation.

137. The expenditure on establishment and tools and plant was Rs. 72,951.

138. The department remained under the control of the Public Works Department of Madras and attached to the fourth circle, the Superintending Engineer of which continued to be the controlling officer and professional adviser to the Chief Commissioner.

139. Mr. A. G. Romilly held the office of Executive Engineer throughout the year.

V.—REVENUE AND FINANCE. (1913-1914.)

Imperial Revenue and Finance.

Gross Revenue.

140. The gross *demand* under all heads of Imperial revenue was Rs. 9,15,444 against Rs. 8,60,721 in the previous year. The important increases were under Land Revenue (Rs. 6,247), Forest (Rs. 13,284), Excise (Rs. 19,482), Stamps (Rs. 10,324) and Postage Labels (Rs. 3,886). The causes for increases under Land Revenue and Excise are given in paragraphs 5 and 147 respectively; the increases under Stamps and Postage Labels are due to improved sales, while that under Forest is attributable partly to the high prices realised for timber and sandalwood and partly to the larger quantity of timber in reserved forests felled for sale.

141. Statement No. 97—*Gross and net revenue.*—The gross receipts (Rs. 9,31,724) exhibit an increase of Rs. 61,762, as compared with those of 1912–1913, the most noticeable items being under Land Revenue, Forest, Excise, Stamps, Postage Labels and Public Works. The increase under the last mentioned head, viz: Public Works is fictitious as the receipts were swelled by the credit of Rs. 15,000 the contribution paid by the Mercara Municipality for carrying out works in connection with the water-supply and the draining of swamps. The expenditure charged against income being Rs. 3,38,956, the net receipts were Rs. 5,92,768 as compared with Rs. 5,39,519 in the preceding year.

142. Statement No. 98—*Expenditure from net income.*—The expenditure charged against net income aggregated Rs. 5,83,383 or Rs. 39,517 less than in the previous year, the important decreases being under Public Works and Education. The expenditure under Education in 1912–1913 was unusually large owing chiefly to the debit to that head of the special grant of Rs. 38,000 sanctioned by the Government of India for the improvement of elementary education.

143. The net result of the Imperial transactions of the year was therefore a surplus of Rs. 9,385 to which has to be added forest receipts on account of supplies to Government departments adjusted by book transfer and payments made into treasuries outside Coorg, which amounted to Rs. 6,091 and Rs. 1,89,021 respectively, raising the surplus Rs. 2,04,497.

144. Statement No. 99—*Cash transactions.*—The total receipts and expenditure of the year were respectively Rs. 37,87,286 and Rs. 39,03,400 as compared with Rs. 43,96,944, and Rs. 43,01,536 in 1912–1913. The net decreases under both cases occurred chiefly under remittances received from treasuries outside the district and remittances sent out to other treasuries. The closing balance was therefore reduced by Rs. 1,16,114.

Land Revenue.

145. Statement No. 6—*Land Revenue.*—Including the outstanding balance at the beginning of the year, the gross demand amounted to Rs. 4,31,668. The collections and remissions aggregated Rs. 3,61,217 leaving a balance of Rs. 70,451 at the close of the year.

Salt, customs and opium.

146. No revenue is derived in Coorg from salt or customs and the receipts from the sale of imported opium are included under the head "Excise."

Excise.

147. Statements Nos. 100 and 101—*Excise receipts and charges.*—The receipts amounted to Rs. 2,64,790, as compared with Rs. 2,46,587 in the previous year. The increase was under still-head duty (+ Rs. 6,223), license fees on country liquor (+ Rs. 8,757), toddy revenue (+ Rs. 654), receipts under opium (+ Rs. 310) and ganja (+ Rs. 1,534). The increase under still-head duty was due to larger issues of country liquor from the warehouse and that under the other heads to better bids during the auction sales. The increase under opium is attributable to the enhancement of the issue price.

148. Statement No. 102—*Manufactories, licenses and shops.*—The bonded warehouse is situated at Mercara. The number (4) and location of the wholesale shops remained the same as last year. There was no change in the number (8) of retail foreign liquor shops. The only beer tavern, which is situated at Mercara, did little business during the year. Six arrack shops and seven toddy shops were closed, thus reducing their number from 33 and 88 to 27 and 81 respectively. The realisations from license fees under arrack and toddy were respectively Rs. 50,777 and Rs. 46,678 as compared with Rs. 42,020 and Rs. 46,024 in the previous year. There was no change in the number of opium and ganja shops which stood at 3 and 5 respectively.

149. The question of restraining excessive home consumption of toddy was kept steadily in view. The practice which was in vogue prior to 1909–1910 which encouraged such excessive consumption, is described in detail in the report for 1911–1912. The private tree owner was advised to lease his trees or sell the toddy drawn for cash only to the licensee. He has realised the benefits of this arrangement and it may be said that the former system has almost entirely died out.

150. Statement No. 103—*Duty and consumption of spirits and drugs.*—The contract for the import and wholesale supply of arrack was granted to Messrs. Hajee Ismail Sait and Sons of Bangalore. The duty remained the same, viz., Rs. 3-15-0 per gallon of 30° under proof. The quantity of arrack issued from the warehouse during the year was 39,770 gallons as compared with 37,847 gallons in the previous year.

151. The wholesale supply of opium and ganja was, as in previous years, in the hands of Government. Opium was imported from Madras and ganja from North Arcot. The quantity of opium sold was 54 seers and 54 tolas—a decrease of seven seers and 64 tolas as compared with the previous year. The falling off is apparently due to the decrease in the number of consumers of this drug who are mainly people moving from place to place such as fakirs, traders, etc. The quantity of ganja sold was 843 seers as compared with 740 seers and 69 tolas last year. The increase in the sale of this drug is due to the better quality and price in Coorg as compared with Mysore which leads traders from Mysore to prefer Coorg ganja.

152. Statements Nos. 104 and 105—*Incidence of consumption, and demand, collection and balance of excise revenue.*—The total demand was Rs. 2,65,181 as compared with Rs. 2,45,699 in the previous year. The total incidence of still-head duty and license fees per gallon of London proof was Rs. 7-6-4.

153. Statement No. 106—*Excise offences.*—The number of prosecutions instituted was 72 as compared with 61 last year. The majority of these cases relate to illicit distillation and possession of paddy arrack and to sale of toddy without license. There were no cases of drunkenness on licensed premises during the year and no useful figures relating to drunkenness in general could be collected. A sum of Rs. 2,015 was realised on account of fines out of which Rs. 326 were distributed as rewards to excise and police officers and informants, as compared with Rs. 1,446 and Rs. 218 respectively in the previous year.

154. Statement No. 107—*Working of the Excise Department.*—The subordinate excise staff was under the direct control of the Excise Inspector and the inspection work of the preventive establishment was satisfactory.

155. Statement No. 108—*Wholesale and retail vend of foreign liquors.*—As already stated, the number of retail shops for the sale of foreign liquors remained the same. No wholesale license was issued during the year. The sales show an increase as compared with last year.

156. The location of both arrack and toddy shops was, as usual, regulated with due regard to the opinions of neighbouring planters and ryots, representative local men being consulted in each case.

Stamps.

157. Statements Nos. 109 to 112—*Receipts and charges under Stamps.*—The receipts amounted to Rs. 62,961 and the charges to Rs. 2,633 resulting in a net revenue of Rs. 60,328 as compared with Rs. 51,545. The larger receipts under both non-judicial and judicial stamps account for the increase in the net revenue.

158. Statements Nos. 113 and 114—*Insufficiently stamped or unstamped instruments and stamp prosecutions and results.*—The aggregate sum levied in respect of duty and penalty was Rs. 1,431 on 301 documents impounded under the Stamp Act. There was no stamp prosecution during the year.

159. Statement No. 115—*Action taken to test the valuation of estates.*—One case to test valuation of estate for which application for letters of administration had been made was referred to the Collector. As a result of the enquiry instituted thereon Rs. 2,630 being deficit court-fee and Rs. 2,030 on account of penalty were recovered in addition to Rs. 2,082 originally paid on account of court-fee.

Income-tax.

160. Statement No. 116—*Collections of the tax from salaries, pensions, etc.*—The total collections under this head amounted to Rs. 2,933 against Rs. 2,817 in the previous year. The increase is due to new appointments to certain posts with progressive salaries.

161. Statement No. 117—*Realisations from interest on securities.*—The amount collected (Rs. 152) was Rs. 30 less than in the previous year. The following Government securities to the aggregate amount of Rs. 55,700 were exempted:—the Mercara School Endowment Plantation Fund, Rs. 30,000; the Thomson Prize Fund, Rs. 1,300; the Fraser Endowment Fund, Rs. 500; the Proclamation Jubilee Prize Endowment Fund, Rs. 100; the Koravanda Bollavva Nanjappa's Charity Fund, Rs. 5,000; the Kodandera Tangavva Prize Fund, Rs. 1,000; the investments of the civil dispensaries, Rs. 6,000; the municipal committees, Rs. 1,800; and the Coorg District Board, Rs. 10,000.

162. Statement No. 118—*Collections of the tax from all sources.*—The increase of Rs. 116 under salaries, pensions, annuities and gratuities paid by Government has been explained above. No taxable salary or pension was paid by any local authority, nor were there any assessments to income-tax under the head "profits of companies" during the year. There was a decrease of Rs. 642 in the revenue from salaries, etc., paid by companies and private employers and Rs. 146 under "other sources of income" which are attributed partly to balance outstanding and partly to depression in trade.

163. Statement No. 119—*Original and final demand and uncollected balance.*—The final demand under salaries and pensions was Rs. 8,219 as against Rs. 8,098 and the aggregate assessment on other sources of income was Rs. 3,564 as compared with Rs. 3,057 in the previous year. There were in all 35 objection petitions against 21 in the previous year resulting in a total reduction of Rs. 292. Of the final demand under all heads including arrears, viz., Rs. 12,944, all but Rs. 2,109 were collected before the close of the year. Of the balance, a sum of Rs. 1,587 has since been recovered, leaving Rs. 522 for collection.

164. The collections of the tax as usual devolved on the ordinary revenue establishment of the province and no extra expenditure was incurred on the assessment during the year. The First Assistant Commissioner exercised the functions of Collector of Income-tax as in the previous year.

Forests.

165. The total receipts, including a sum of Rs. 1,95,112 realised outside Coorg or adjusted by book transfer, amounted to Rs. 3,29,226, and the charges, as debited in the treasury accounts, to Rs. 1,74,905. The net surplus was thus Rs. 1,54,321 as compared with Rs. 1,18,323 in the preceding year.

Revenue and Finance other than Imperial.

The District Fund.

166. The gross demand of the District Fund, together with the uncollected balance outstanding at the beginning of the year (Rs. 4,380), was Rs. 99,184. The realisations amounted to Rs. 93,280 and remissions to Rs. 270. The

outstanding balance for collection at the end of the year was therefore Rs. 5,634. With the opening cash balance (Rs. 62,022) the gross receipts of the fund amounted to Rs. 1,55,302 and the expenditure to Rs. 1,15,028 leaving a cash balance of Rs. 40,274, of which a sum of Rs. 10,000 was held in Government securities.

167. Including an outstanding balance of Rs. 626, the total demand of the municipalities and the notified areas amounted to Rs. 49,252. The collections and remissions aggregated Rs. 47,755 leaving an uncollected balance of Rs. 1,497. Together with an opening cash balance of Rs. 41,239, the receipts amounted to Rs. 88,871 and the expenditure to Rs. 58,586. The closing cash balance was thus Rs. 30,285. Municipal Funds.

168. Including the opening cash balance Rs. (2,152), the income of the fund amounted to Rs. 3,775. The expenditure being Rs. 2,561, the closing balance was Rs. 1,214. The Mercara School Endowment Fund.

VI.—VITAL STATISTICS AND MEDICAL SERVICES.

169. Statement No. 120—*Particulars of births, deaths and marriages in towns.*—The excess of deaths over births is chiefly due to the mortality among the immigrant coolies admitted into hospitals at Mercara and Virajendrapet. Births and deaths. (1913.)

170. Statement No. 121—*Births registered.*—The number of births (4,529) registered was 77 less than in 1912. Of these, 94 occurred in families not permanently resident in the province. Male births exceeded female by 19.

171. Statement No. 122—*Births and deaths registered.*—5,859 deaths (33·48 *per mille*) were recorded against 6,713 in 1912 and 5,695 in 1910; of these, 305 occurred among individuals not permanently resident in the province. The high mortality is chiefly attributable to the prevalence of malarial fever, dysentery and diarrhœa. The death-rate among females was higher than among males.

172. Statement No. 123—*Deaths registered during each month.*—The mortality was, heaviest in the months of April, May, June and July. The healthiest season of the year was the last quarter.

173. Statement No. 124—*Deaths registered according to age.*—Excluding infants, deaths were more numerous in the age groups from 20 to 30 and 30 to 40 which comprised the bulk of the immigrant cooly population.

174. Statement No. 125—*Deaths registered according to class.*—The mortality among Hindus was slightly lower than in the previous year, while the death-rate among Coorgs was 36·80 *per mille* as compared with the general average of 34·89.

175. Statement No. 126—*Deaths registered from different causes in towns and districts.*—As usual, fever caused the greatest number of deaths (4,584), while dysentery and diarrhœa were responsible for 199. The mortality in municipal areas was lower than in the previous year.

176. Statements Nos. 127 and 128—*Deaths registered from cholera and small-pox.*—192 deaths occurred from cholera during the year. The deaths from small-pox fell from 53 to 41.

177. Statement No. 129—*Deaths from fevers.*—There was a decrease of 1,113 deaths under this head as compared with the previous year, the ratio *per mille* being 26·20 against 32·56. The mortality was highest in the months of June and July and lowest in December.

178. Statement No. 130—*Deaths from dysentery and diarrhœa.*—The mortality ascribed to this cause was 199 being 32 less than in the previous year.

179. Statement No. 131—*Deaths from plague.*—Plague accounted for 10 deaths against 9 in the previous year.

180. Statement No. 132—*Deaths from respiratory diseases.*—The rate of deaths *per mille* from this cause was 0·41 as compared with 0·43 in the previous year.

181. Statements Nos. 133 and 134—*Ratio of deaths from small-pox, fever, dysentery and diarrhœa and comparative statement of mortuary and meteorological statistics with prices of food-grains.*—From the latter return it will be observed that the mortality was lower than in the previous year but higher than in 1909 and 1911.

Emigration and immigration. (1913-1914.)

182. There are no recruiting stations in Coorg and no record is kept of emigration and immigration.

Medical relief. (1913.)

183. Statement No. 135—*Hospitals and dispensaries.*—The Mercara Jail hospital is excluded from this statement as it is dealt with separately. Of the twelve other institutions, three are of a private character and are maintained in the "Bamboo" district by the South Coorg Medical Relief Fund.

184. Statements Nos. 136 to 142—*Accommodation, number of patients treated during the year and the rate of mortality among in-patients.*—There was a decrease of 11,883 in the total number of patients (86,376) treated in the Imperial and local fund dispensaries, while 8,235 against 8,415 in the year 1912 received treatment in the three private institutions in South Coorg. The in-patients all of whom were treated in the public institutions numbered 2,692 or 370 less than in the previous year; the rate of mortality was 9·81 against 12·87.

185. Fifteen persons are shown as having been treated for plague at Virajendrapet and Sidapur in consequence of the slight outbreaks of that epidemic at those places.

186. Sixteen patients suffering from small-pox were treated as compared with twenty-four in the previous year; two of them died. The contagion in most of the cases was traced to persons who had carried the disease from adjoining districts in Mysore and the West Coast.

187. Statement No. 143—*Patients under treatment according to sex and race.*—As in the previous year, the proportion of adult males treated exceeded that of females by more than three to one.

188. Statement No. 144—*Operations performed.*—Operations numbered 1,482 against 1,589 and the percentage of success was 97·38 against 99·12 in 1912.

189. The sale of quinine to the public through the agency of the post offices continued during the year. The number of powders sold was 45,050 as compared with 55,800 in the previous year.

190. Statement No. 145—*Income and expenditure of hospitals and dispensaries.*—Excluding the pay and allowances of the Civil Surgeon and the reserve sub-assistant surgeons which are not debitable to any specific institutions, the total expenditure on medical relief was Rs. 29,619 or Rs. 1,211 more than in the previous year. The increase is due to the cost of medicines being more than in the previous year.

191. Captain W. R. J. Scroggie, I.M.S., was in Medical charge of the Department till 13th May 1913 and was succeeded by Lieut.-Colonel J. L. Macrae, I.M.S.

Sanitation. (1913-1914.)

192. All the *pettas* were inspected during the year either by the Civil Surgeon, who is also the Sanitary and Health officer, the Commissioner or the Assistant Commissioners. The duties of the Sanitary Inspector were mainly confined to the periodical inspection of the municipalities and *pettas*, and the supervision of the meat supply in Mercara, but he was also engaged for a considerable time at Virajendrapet in the supervision of the total disinfection of the town and other preventive measures in connection with plague. The special non-recurring grant of Rs. 25,000 made by the Government of India in 1912–1913 for expenditure on sanitary works in Mercara having been found insufficient an additional similar grant of Rs. 15,000 was made at the close of the year. With these funds the work of laying out the Coronation Garden has been completed at a cost of Rs. 2,578. Flowering plants and ornamental trees have been planted; seats and lamp posts have been provided; and a fountain has been erected in the Garden which has been handed over to the Municipality for maintenance. In the Gowli Bazaar the conjested parts have been opened up. Six model quarters and cattle sheds have been built and the swamp which runs through the middle of the bazaar has been drained, at a total cost of Rs. 6,637. The present water-supply being insanitary attempts were made to sink a new well but the work had to be abandoned as a substratum of decomposed rock was reached and the sides began to fall in. The draining of swamps round Mercara is in progress. Rs. 1,784 were spent on the work during the year. The estimates for the improvement of the water-supply of the town have been approved by the Superintending Engineer and the work will be carried out during the present year. It is hoped that with the increased supply thus provided it will be possible to extend the pipe system to the Gowli Bazaar.

193. Statement No. 147—*Sanitary works and comparison of mortality prior and subsequent to the construction of the Mercara water-works.*—As remarked in other years no safe inference can be drawn from this statement as the municipal death-rate fluctuates considerably from year to year with the numbers of immigrant coolies brought to the hospital in a moribund condition. This year owing to the exceptionally long drought the supply became somewhat low towards the end of the hot weather and some inconvenience was experienced in certain localities, but no sickness can be attributed to this cause as the water remained of excellent quality.

Vaccination. (1913-1914.)

194. Statement No. 148—*Summary of vaccination work.*—The number of operations performed was 13,151. Of these 8,728 were primary cases and 4,423 were re-vaccinations against 8,867 and 3,863 respectively in the previous year. The percentage of successful cases was 94·91 and 87·27 respectively compared with 94·63 and 81·84 in 1912–1913. Only calf lymph was used.

195. Statement No. 149—*Cost of the vaccine department.*—There was no change in the establishment which consisted of eight vaccinators. The total cost including supervision charges, amounted to Rs. 2,898.

196. Statement No. 150—*Dispensary vaccination.*—224 vaccinations were performed by the staff of the Jail hospital and the dispensaries of the province compared with 247 in 1912-1913. Of these, 78 were primary cases and 146 were re-vaccinations; the percentage of success was respectively 96·05 and 78·52 compared with 96·61 and 84·80 in the preceding year.

197. Statements Nos. 151 and 152—*Number and result of primary vaccinations during the last decade and verification of vaccinations.*—3·13 per cent. of these cases were inspected by the Civil Surgeon and 46·25 per cent. by the Assistant Surgeon and the Inspector of Vaccination compared with 1·51 and 49·97 respectively in the previous year.

198. Statement No 153—*Infantile vaccinations in municipal areas.*—From October 1912 to September 1913, 145 infants were born. One hundred and six children under one year old were available for vaccination and the total number vaccinated was 115.

199. Statement No. 154—*Statistics of vaccination and mortality from small-pox during the past fifteen years.*—The number of successful vaccinations was considerably above and the number of deaths from small-pox below the average.

VII.—INSTRUCTION. (1913-1914.)

General system of public instruction.

200. The standing information on this subject isprinted at pages 33 and 34 of the administration report for the year 1911–1912 under the heading "General System of Public Instruction."

Education—Preliminary remarks.

201. There were a few important changes in the educational arrangements of the province during the year under report. With a view to facilitate inspection and to provide an educational adviser in closer communication with the Chief Commissioner of Coorg, Coorg was included in a new circle, known as the Ninth Circle with head-quarters at Bangalore. The educational official, resident in the province, and known as Assistant Inspector of Schools, was raised to gazetted rank, his appointment being included in the Madras Provincial Educational Service. With the more liberal recurring grant-in-aid of Rs. 10,000 sanctioned by the Government of India, the staff and the scale of salaries of teachers in elementary schools have been improved to some extent.

General summary.

202. Statements Nos. 155 and 157—*General Statistics of attendance.*—On the 31st of March 1914, there were in all 103 public institutions with 7,684 pupils in attendance as against 6,942 during the previous year. Five new local fund schools were established during the year, part of the Imperial grant-in-aid having been utilised for the purpose. The Basel Mission also opened and obtained recognition for four elementary schools. The number of private schools and the attendance in them was 16 and 355 as against 31 and 603 in the previous year. The percentage of pupils under instruction to the total population of school-going age was 21·01 as against 19·71 for the year 1912–1913, the percentage being higher in the case both of boys and girls.

203. The educational institutions in the province consisted of one training school, one upper secondary school and one lower secondary girls' school at Mercara and one lower secondary school at Virajendrapet and 99 elementary schools throughout the province. English was taught as an optional subject in 18 of the elementary schools. These figures exclude the 16 private schools referred to in the preceding paragraph, all of which were elementary. The private lower secondary school at Ammatti continued to exist. This school does not at present fulfil any of the requirements of the Education Department, but it is understood that the management is attempting to collect funds with a view to place the institution on a better footing.

204. Statements Nos. 159 and 160—*Stages of instruction and results of examinations.*—There was a further increase during the year under review in the number of pupils in all stages of instruction, which is noticeable both in the boys' schools and the girls' schools. The results of the examinations are dealt with in paragraphs 213 and 228 *infra*.

205. Of the 103 public institutions at the end of the year, thirteen were managed by Government, seventy-five were under the control of the District Board, five were municipal institutions and ten were aided either by Government or by the District Board, nine of these being missionary institutions.

206. Statement No. 163—*Scholars according to sex, race or creed.*—As usual non-Brahmin Hindus (6,958) formed the predominating element among the school-going population and included no less than 4,656 Coorgs. The number of Coorgs, Brahmins and Muhammadans attending school increased by 223, 59 and 47 respectively. There was no appreciable change in the number of children of other communities under instruction.

207. An examination of the social position of the parents of the children attending public institutions showed that the great majority (78·80) were dependent on agriculture. The percentages recorded as belonging to the poorer, middle and richer classes were 75·54, 22·73 and 1·77, respectively, against 80·19, 18·34 and 0·66 of the previous year.

208. The percentages of pupils protected from small-pox was 94·95 as against 93·96 of the previous year.

209. Statements Nos. 156, 158 and 161—*Expenditure on education.*—The total expenditure on public instruction was Rs. 91,223 during the year as against Rs. 1,09,531 in 1912–1913, the distribution according to the source of income being as follows :— Financial summary.

Imperial Funds	58·28
Local Funds	18·61
Municipal Funds	1·72
Fees	15·69
Other sources	5·70

210. The private contributions to expenditure consisted of subscriptions in aid of the mission schools and of the income from the Mercara School Endowment Fund. During the year a total sum of Rs. 613 was disbursed from this fund for scholarships to students studying in professional colleges and secondary schools and for the upkeep of the boarding house attached to the school. The average cost of education of each pupil in the primary and secondary schools was Rs. 5–11–9 and Rs. 54–2–2 against Rs. 7–5–4 and Rs. 58–9–2, respectively, in the previous year. In the Lower Secondary Girls' school, Mercara, the average cost of educating each girl amounted to Rs. 77–2–2 against Rs. 106–12–10 in the previous year, while the cost to provincial revenues amounted to Rs. 37–14–10 against Rs. 43–6–9 in 1912–1913. The average cost of educating each student at the Government Training School was Rs. 212–4–6 against Rs. 178–4–7 in the previous year.

211. The latter part of the year saw the formation of a new educational circle, called the Ninth Circle with head-quarters at Bangalore and comprising Coorg, South Canara and the Civil and Military Station, Bangalore. Previous to this, Coorg was under the control of the Inspector of Schools, Eighth Circle, with head-quarters at Cannanore. Three visits of inspection were paid by the Inspector during the year, the first by Mr. R. Littlehailes in May 1913, the second by Mr. H. O. Kershaw in November 1913 and the third in March 1914 by Mr. T. O. Hodges, the Inspector of the newly formed Ninth Circle. The second of the above visits was mainly for the inspection of the secondary and training schools in Coorg, while during the other two visits, a number of elementary schools in the province were visited. The Hon'ble Sir Alfred Bourne, Director of Public Instruction, also paid a visit to the province in the month of October 1913. The Assistant Inspector inspected 126 schools during the year, travelling 1,669 miles and also paid surprise visits to several schools not included in the annual programme. Towards the latter part of the year an additional Supervisor of primary schools was entertained. The elementary schools in Coorg are now divided into sub-ranges among the two inspecting officials of this class. Revenue officers from Subedars upwards paid frequent visits to the schools. Controlling agencies.

212. There are no colleges in Coorg, but 10 scholarships of the monthly value of Rs. 10 and Rs. 15 each tenable in the Arts and professional colleges outside Coorg are awarded annually. Collegiate education.

213. In the three secondary schools the total attendance rose from 451 to 510, 109 of these being girls. The average number on the rolls was 508 as compared with 449 in the previous year. Twenty-one candidates from the Mercara High School went up for the Secondary School Leaving Certificate examination, and the results were fairly satisfactory being slightly above the average for the Madras Presidency. Secondary education.

214. The Central High School, Mercara, is very badly equipped and there is need of a very large expenditure on furniture and apparatus. This is equally the case with the Government English School, Virajendrapet.

215. Mr. S. A. Steele was in charge of the Central High School, Mercara, during the year and also supervised the Government English School, Virajpet. He was assisted by an efficient staff of teachers, most of whom have specialised in the subjects they taught. It is becoming yearly more difficult to procure graduates for the High School, as very few Coorgs take their degrees and hardly any are willing to take up the scholastic profession, with the result that teachers have to be found outside Coorg.

216. The two hostels attached to the Central High School, Mercara, were well filled but are not in a healthy situation. There has been for sometime a proposal to transfer them to a more suitable site but nothing has been definitely settled yet. The Headmaster's new quarters are now occupied by him.

217. There was no issue of the High School Magazine during the year owing to lack of funds but arrangements have been made to issue it during the coming year at the expense of the Old Boys' Society.

218. The Old Boys' Society was re-started during the year and an Old Boys' Day celebrated during which there were athletic sports for past and present students.

219. With the increase of numbers the question of accommodation has become a serious problem. All the available space is fully occupied and any increase in numbers will have to be checked until the new hostels are built.

220. The English School at Virajendrapet continued to be under the management of M.R.Ry. M. Srinivasa Rau, supervisd by the Headmaster of the Central High School, Mercara. There were 39 boys residing in the hostel of this school.

221. During the year quinine prophylactic treatment was tried in the two secondary schools and the model primary schools at Mercara and Somwarpet. The Headmaster of the Central High School considers that this measure has been productive of good results, as evidenced by the very small number of cases of fever in these schools.

Primary education.

222. As shown in paragraph 202 above the number of primary schools increased by nine during the year, and the attendance rose from 6,466 to 7,149. In many of these schools, in addition to the compulsory subjects, geography, nature study, elements of hygiene and outlines of Indian history and civics are taught while garden work, clay-modelling, and other manual occupations are employed both on account of their intrinsic value and as a relief from intellectual work. The school garden has always formed a feature of elementary education in Coorg.

223. In teaching many of the subjects, kindergarten methods are adopted. Schemes of study involving a certain amount of practical work have been drawn up for such subjects as arithmetic, geography, nature study, etc., in the larger elementary schools. With a view to render the teaching of geography more realistic a set of lantern slides on India costing £ 50 prepared by the Visual Instruction Committee of the Colonial office has been recently purchased.

224. Organised games and sports including national dances and exercises are being encouraged in the boys' as well as the girls' primary schools. During the year sports requisites to the value of Rs. 90 were purchased and supplied to the schools.

225. Clay-modelling, rope-making, basket-making, rattan work and similar manual occupations are taught in most of the schools. Regular instruction in carpentry is given in two of the primary schools and in tailoring in the tailoring school attached to the Virajendrapet Hindustani school. More tools and appliances were recently purchased for use in the two former institutions, but in order to equip these schools properly for providing manual training for all the

pupils, a much larger expenditure with more commodious workshops is necessary. During the year an instructor for Sloyd work was appointed in the Government Training School, Mercara, and when the present batch of students is relieved it will be possible to provide more organised instruction in manual work in some of the elementary schools. The weaving school at Sanivarsante continued to work during the year with six students on the rolls, three of them being in receipt of stipends of the value of rupees five each and three of the value of rupees two each. The stipends of lower value are not attractive enough to outsiders, and as there are no suitable candidates in Sanivarsante itself the question of enhancing the value of these stipends is under consideration.

226. The system of village school committees or panchayat was in force during the year and worked satisfactorily.

227. During the year a number of the larger local fund schools were extended and repaired, the total funds spent on these improvements amounting to nearly 34,000 rupees. The scale of salaries of teachers in local fund schools has also been slightly improved, so that it is possible now to give every trained teacher a starting salary of Rs. 10. About 31 additional teachers were also entertained with a view to relieve the congestion in existing schools. The attendance in the schools is however steadily rising and further extensions to buildings and additions to the staff have already become necessary. In order to ensure some flow of promotion to local fund teachers a revision of the scale of salaries is a pressing want. At present many a raw recruit as well as a teacher of some years' standing both draw the same Rs. 10.

Training schools.

228. The only training school in the province is the Government Training School at Mercara, which provides the provincial supply of primary school masters. The teaching staff was strengthened during the year by the entertainment of a Sloyd instructor and a music master. Ten trained students were relieved from the institution on the 31st March 1914 and were provided with appointments. It is not known how many of these passed the Preliminary Test for Teachers' Certificates in March 1914, as the results have not been published.

229. During the year the value of stipends tenable in the training school was increased, those of Rs. 5 per mensem were raised to Rs. 7, and those of Rs. 7 to Rs. 9. Nine additional stipends of the higher value were also sanctioned. The question of revising the scale of salaries of the staff in the training school is under consideration. M.R.Ry. N. Dasappa continued to be in charge of the school throughout the year.

Technical education.

230. There are no technical schools in Coorg. The weaving school at Sanivarsante and the carpentry and the tailoring schools at Mercara and Virajendrapet are dealt with in paragraphs 225 and 234. A boot and shoe making class for the Panchama at Virajendrapet has been proposed.

Female education.

231. There are altogether one secondary and six primary schools (five Government and two aided) exclusively appropriated to girls. The total number of girls in all classes of schools rose from 2,128 to 2,356 during the year. Of these 109 were studying in secondary schools and one was undergoing training in the Government Training School, Mercara. The Lower Secondary Girls' School at Mercara worked successfully during the year, there being 100 girls on the rolls, of whom 46 were boarders in the school hostel. The staff of the Virajendrapet and Parane girls' schools was strengthened by the entertainment of additional mistresses. Money has been budgetted for in the estimates of the current year for a girls' school at Hudikeri. It will be opened as soon as the estimates are sanctioned.

European education.

232. There are no separate schools for Europeans and Eurasians in the province.

Muhammadan education.

233. There were two schools intended solely for Muhammadans and maintained by the municipalities at Mercara and Virajendrapet. The attendance of Muhammadans in elementary schools rose from 228 to 291 and in secondary schools from 5 to 7. A recurring grant of Rs. 1,500 was sanctioned by the Government of India during the year for the improvement of Muhammadan education. This amount will be utilised for the appointment of a Urudu teacher in the English school, Virajendrapet, for additional teachers in the Municipal Hindustani schools at Mercara and Virajendrapet, and for increasing the number of Muhammadan scholarships in secondary and elementary schools.

234. The carpentry and tailoring branches attached to the Municipal Hindustani schools, at Mercara and Virajendrapet continued to work satisfactorily. Proposals have been submitted for increasing the number and value of the stipends tenable in these institutions and for the provision of additional accommodation in the workshops.

Special classes.

235. There are ten schools for Panchamas, the Basel Mission having established a new school for them during the year at Balele in Kiggatnad taluk. In three of the above schools caste boys are also admitted. Out of a total of 324 Panchama children, 288 attended the schools for the special classes and 36 attended the caste schools. With a view to encourage the Panchamas to send their children to school, books and slates are given free of cost, and prizes in the shape of cloth are being annually given to the children who have regularly attended school during the year.

Private institutions.

236. The number of private institutions and the attendance in them diminished from 31 and 603 to 16 and 355 respectively. These institutions call for no special remarks as they are unaided, ill-housed and poorly equipped.

Educational conferences.

237. Six meetings of the Teachers' Association were held during the year. These meetings were well attended. Most of the teachers gave lectures and model lessons and took part in the discussions held on educational subjects. Several of them also made use of the lending library opened in connection with the association.

238. M.R.Ry. A. Rama Rau Avargal, B.A., Assistant Inspector of Schools, was in charge of the elementary schools throughout the year.

Preparation and distribution of text-books.

239. There is a Government Depôt at Mercara with five branch depôts, the operations of which are confined to the supply and distribution of text-books to elementary schools. These depôts, however, did not transact any business during the year.

240. There is no Text-book Committee for Coorg.

The Press.

241. Statements Nos. 165 to 170.—*Receipts, expenditure, etc.*—The only printing press in the province is the Coorg District Press at Mercara. Including a sum of Rs. 300 adjusted by book transfer on account of depreciation of plant and type the charges amounted to Rs. 3,832 as compared with Rs. 4,091 in the previous year. The value of the work done for the various offices and the cash receipts were respectively Rs. 3,661 and Rs. 665 as compared with Rs. 4,000 and Rs. 759 in the preceding year. The value of plant at the close of the year was Rs. 9,628.

242. The outturn of composing work done was equal to 2,488 pages of pica solid foolscap folio and the number of impressions printed was 533,000. The cost of composing a page of pica solid foolscap folio was Rs. 0-14-6, while the cost of printing 100 impressions was Rs. 0-3-9, as compared with Rs. 1-0-5 and Rs. 0-3-3 respectively last year.

243. The management of the press which, as usual, devolved on the Foreman, was satisfactory.

Literary societies.

244. There are no literary societies properly so called in Coorg, but in Statement No. 171 will be found particulars of three institutions which incidentally foster the study of literature through the medium of libraries and reading rooms.

VIII.—ARCHÆOLOGY. (1913–1914.)

Archæology.

245. No action was taken under this head during the year. The question of declaring ancient monuments which are the property of Government to be protected monuments under section 3 of the Ancient Monuments Preservation Act (VII of 1904) has, in consultation with the Superintendent, Archæological Survey Department, Southern Circle, Madras, been kept in abeyance until he can visit Coorg and inspect them. The monuments selected for conservation are in good order.

IX.—MISCELLANEOUS. (1913–1914.)

Ecclesiastical jurisdiction.

246. The standing information which concerns this chapter is printed at page 39 of the administration report for the year 1911–1912 under the head "Ecclesiastical jurisdiction".

Ecclesiastical.

247. Statement No. 172—*Religious institutions.*—There were no changes during the year. A new Roman Catholic Church at Pollibetta is under construction.

248. The total contributions paid by Government to the indigenous religious institutions in the province amounted to Rs. 19,408, consisting of cash payments (Rs. 7,049), deductions from land-revenue demand (Rs. 972) and assignments of land-revenue (Rs. 11,387). Of this sum, Rs. 12,584 forms the endowment of minor temples under the management of the village communities concerned, while the remaining Rs. 6,824 relates to the grants made to the temples under the management of the Committee constituted under the Coorg Temple Funds Management Regulation, 1892. This body, of which there are 15 members, held one special and eleven general meetings, the average attendance being 8·83 members. Including the opening cash balance of Rs. 1,420 and the Government grant (Rs. 6,737) towards the upkeep of *chattrams*, the gross receipts amounted to Rs. 19,919 and the expenditure to Rs. 17,785 leaving a closing cash balance of Rs. 2,134. The main source of income was the Government grant of Rs. 13,561 added to which were voluntary offerings by pilgrims and contributions of grain, which amounted respectively to Rs. 1,509 and Rs. 1,223. The receipts also include a sum of Rs. 1,500 generously contributed by the Raja of Ramnad as a part payment towards the cost of constructing a building at Talakaveri to be used as a *chattram* by pilgrims. The expenditure was chiefly incurred on the performance of the customary religious services and ceremonies and on the purchase of food-grains for pilgrims.

Charitable institutions.

249. Statement No. 173—*Charitable institutions.*—There are four *chattrams* at Mercara (2), Bhagamandala and Irpu respectively under the Temple Funds Management Committee, and they enjoy an annual endowment of Rs. 6,737 from Government. The three unaided institutions of this description located at Talakaveri, Virajendrapet and Somwarpet are maintained by private charity during a certain period of the year.

Stationery.

250. The supply of articles of stationery to Government offices in Coorg is arranged for in communication with the Superintendent of Stationery, Madras.

Condition of records.

251. The work of sorting and arranging the records continued during the year. The work is now being done by the record-keepers of the several branches of the Commissioner's Office assisted by such clerks as can be spared from the ordinary establishment. The work in respect of the records of the office of the Assistant Superintendent of Police was brought to a close during the year and the records of the office of the First Assistant Commissioner and District Magistrate have now been taken in hand. The indexing of the records of the Commissioner's English Branch already sorted and arranged is being done at the same time.

Co-operative credit societies.

252. There was no change in the number (22) of societies. Together with the opening balance of (Rs. 14,853) and the Government loan of Rs. 1,000, the receipts aggregated Rs. 74,174 and the out-goings to Rs. 59,654 leaving a closing balance of Rs. 14,520. The number of members rose from 2,295 to 2,449. The collections of outstandings were satisfactory.

Cattle insurance.

253. Seven societies for the insurance of cattle, with 263 members, were registered during the year. Three hundred and seventy-three head of cattle were insured and the amount of fees recovered was Rs. 1,558.

Treasure trove.

254. There were no cases of treasure trove during the year.

Fish preservation.

255. The preservation of fish continued to be the care of the Coorg Fishing Association but its operations were seriously hampered by want of funds. A proposal to reconstruct the Association and with assistance from Government to provide it with sufficient funds is under consideration. February 15th to June 30th was fixed as the close season for netting. Four prosecutions were instituted during the year for offences committed under the Fisheries Act, viz., for fish-poisoning in the Cauvery and the Sampaji rivers. All of them resulted in convictions. The rewards paid by the Coorg Fishing Association to persons giving information of the offence amounted to Rs. 50.

PART III.

STATISTICAL APPENDICES.

I.—PHYSICAL AND POLITICAL GEOGRAPHY.

I.—PHYSICAL AND POLITICAL GEOGRAPHY.

Total area of the province of Coorg for the year 1913-1914.

Presidency or Province.	Coorg.	
Total area.	Acres.	
1. Area according to professional survey ...	1,012,260	*Note.*—This statement corresponds with Form A—1 of the Tables of Agricultural statistics.
2. Deduct { (*a*) Feudatory States ... / (*b*) Area for which no returns exist ...	... / ...	
3. Net area by professional survey ...	1,012,260	
4. Corresponding area by village papers ...	1,012,260	

(2). Character of Surface.

1. Forests	357,740	*Note* 1.—This statement is Form A—2 of the Agricultural Tables. A detailed description of the character of the surface will be found in paragraphs 1 to 11 of the administration report for the year 1911-1912 *vide* pp. 1—3.
2. Not available for cultivation ...	335,694	
3. Culturable waste other than fallow ...	21,364	
4. Current fallows	159,257	*Note* 2.—The area shown as not available for cultivation consists of (*a*) unculturable Government waste and (*b*) unculturable *banés*, estimated respectively at 12,337 and 213.357 acres.
5. Net area cropped during the year	138,205	
Total ...	1,012,260	
6. Irrigated during the year. (*a*) Government canals ...	2,427	*Note* 3.—Item 3 is the estimated area of culturable Government waste.
(*b*) Private canals ...	...	
(*c*) Tanks	1,692	*Note* 4.—Item 4 is composed of (*a*) the estimated area of culturable *banés* (13,289 acres) and (*b*) the difference between the net area cropped and the gross holdings other than *banés*. It thus includes unculturable extents under actual holding, the area of which there is no means of ascertaining.
(*d*) Wells	...	
(*e*) Other sources ...	...	
Total area irrigated...	4,119	
7. Crops irrigated. (*a*) Rice	4,119	
(*b*) Other cereals and pulses ...	...	
(*c*) Miscellaneous food-crops ...	...	
(*d*) Miscellaneous non-food crops ...	...	
Total ...	4,119

COORG.	Coorg.	*Civil*—District Judge (1), Subordinate Judge (1), Assistant Commissioner (1), Munsiffs (2) ...	2	1,582	174,976	Mercara, 6,269	516
		Criminal—Sessions Judge (1), District Magistrate (1), First-Class Magistrates (2), Second-Class Magistrates (7) ...	7				
		Revenue—Commissioner (1), Assistant Commissioners (3), Subedars (5) ...	7				

Notes.—Col. 2. The whole province constitutes a single district.

Col. 3. (*a*) This does not show the Chief Commissioner who forms the highest revenue court and in his capacity as Judicial Commissioner is also the highest civil and criminal court.

(*b*) Under Assistant Commissioners has been included the Deputy Director of Land Records and Agriculture, who is invested with the powers of an Assistant Commissioner.

Col. 4. The civil, criminal and revenue sub-divisions are, respectively, the local areas in charge of (*a*) the munsiffs, (*b*) the second-class magistrates, and (*c*) the European and the Native Assistant Commissioners and the subedars. The powers of the other officers named in column 3 extend to the whole province.

Col 8. Only 495 villages are shown in the census tables, but 516 are recognised as units for the purpose of revenue collections.

PART I.

SUMMARY OF THE ADMINISTRATION.

PART I.

GENERAL SUMMARY.

SECTION I.—General and Political.

General.

Col. Sir Hugh Daly, K.C.I.E., C.S.I., held the office of Chief Commissioner throughout the year. He paid two visits to Coorg—in November 1914 and February 1915.

His Excellency Lord Pentland, Governor of Madras, paid a short informal visit to Mercara from the 10th to 12th November 1914, motoring up the Sampaji Ghât from Mangalore and proceeding to Mysore through Fraserpet. He received a small informal deputation and went over the Haleri coffee-estate and the Rajahs' Tombs at Mercara. He is the first Governor of Madras to have visited Coorg since the time of the Duke of Buckingham.

2. Mr. R. H. Ellis, I.C.S., officiated as Commissioner from April 16th to September 17th during the absence on combined leave of Mr. F. Hannyngton, I.C.S., who was in charge for the remainder of the year.

SECTION II.—Administration of the land.

Realisation of the revenue and agricultural advances.
[*Part II, pages 1-3.*]

3. The rice crop was good throughout and bumper in many places. Prices, which ruled high in November and December, fell rapidly in January and the ryots failed to get the prices which were at first anticipated.

The coffee crop was fair and, though forward sales were impossible to negotiate, the prices eventually realised were good. Cherry coffee found the coast market over-stocked and prices were weak throughout.

(Re-settlement).
[*Part II, page 3.*]

Land revenue demand was Rs. 3,65,233 against Rs. 3,64,845 in the previous year. Collections were not as good as in the previous year. Excluding Rs. 61,508 due by European planters, there was a balance of Rs. 13,522 on 31st March 1915.

SECTION III.—Protection.

Police. *[Part II, page 4.]*

4. The number of cognizable cases increased by three to 576 which is the highest figure yet recorded. The number of murder cases still continued high and thirteen cases were recorded of which two were reported as undetected. The three cases of culpable homicide all ended in convictions. The number of cases of preferring a false charge was remarkably high.

The Yeravars gave no particular trouble during the year. The settlements of Wodders in South Coorg appear to act in unison with the Bestas who gave some trouble in the cold weather. All these gangs require careful watching.

Criminal Justice. *[Part II, pages 5-6.]*

5. The number of cases brought to trial remained almost stationary. The number of cases filed under the Breach of Contract Act increased from 1,657 to 1,729 and the increase of late years seems to indicate that all is not well with the labour market.

Prisons. *[Part II, pages 6-8.]*

6. The convict population increased considerably and numbered 65 on 31st December 1914 as compared with only 38 on 31st December 1913 when the jail population was the lowest on record.

Owing to a serious outbreak of dysentery in September and October the rate of sickness *per mille* rose from 19 to 65·51 and there were thirteen deaths during the year. Some of the prisoners were transferred to Coimbatore and Cannanore and the general health of the remainder has since improved.

The plans and estimates for the new jail have been sanctioned and it is hoped that the present jail will shortly be vacated.

Civil Justice. *[Part II, pages 8-9.]*

7. It is satisfactory to note that the number of suits instituted decreased by 118 while the average value rose to Rs. 107. The number of witnesses attending courts dropped by 346.

Registration. *[Part II, page 9.]*

8. While the number of documents registered decreased, the fees increased and realised the handsome surplus of Rs. 2,978—more than twice the annual average for the last ten years.

District Board. *[Part II, pages 9-10.]*

9. Including portion of an Imperial grant the total outlay on education was Rs. 25,745 representing a percentage of 30·63 of the total income.

One new school was opened during the year.

The new in-patient ward at Gonikoppal has proved a success and it is hoped to start a similar ward at Sidapur, thanks to the public spirit of a local Indian planter. The recurring expenditure on dispensaries has increased by over Rs. 3,000 in the last two years.

SECTION IV.—Production and distribution.

Weather and crops. *[Part II, pages 12-14.]*

10. The total rainfall at Mercara amounted to 129·82 inches or 4·57 inches above the average for the previous fifteen years. The south-west monsoon was continuous and fairly copious. It was succeeded by a curiously damp cold weather with rain at intervals throughout the dry season which had an adverse effect on the coffee crop.

The area of wet holdings increased by 153 acres.

The new tea garden opened out near Hudikeri by the Glen Lorna Tea Company is coming on well, but the situation and altitude appear to demand the raising of artificial shade to protect the young bushes. Para rubber at Makut and Sampaji continued to show a most promising rate of growth, but tapping has not yet started. Great success has been obtained at the Sidapur Experimental Farm in the growth of oranges, potatoes, maize and mulberries.

Forests. [*Part II, pages 14-16.*]

11. The area of only 208 acres affected by fires is quite the lowest on record and only one fire—on the slopes of Tadiandamol—was of any importance.

Owing to heavy showers in January, protective firing on the Western Ghâts had to be restricted to the Brahmagiris.

The necessary preliminaries to the exploitation of the ghât forests are still in progress and the new Special Working Plans Officer joined duty in October. Fair progress is reported in the development of communications in this difficult tract. The heavy decrease in forest revenue is purely temporary, but the difficulties of transport render any large increase in normal years almost impossible.

Congestion of sandalwood at the depôts was unavoidable. The opportunity should now be taken for a general enumeration of sandalwood and a careful investigation of the areas affected by spike-disease.

The experimental sowing of 'Padauk' at Makut with seed obtained from the Andamans showed a very promising rate of growth.

Public works. [*Part II, pages 16-17.*]

12. As in the previous year, the new Pollibetta-Sidapur road and the Sidapur-Fraserpet road claimed special attention. The new girder bridge over the Chikleholé on the latter road and culvert and bridge-work on the former were commenced. The Pollibetta-Gonikoppal road was widened and one mile of the Gonikoppal-Wynaad road was metalled.

The work was commenced on the new bungalow for the District Magistrate and on the High School hostels while the new dormitory for the Mercara Girls' School was nearly completed at the close of the year.

Municipal. [*Part II, pages 11-12.*]

13. In Mercara the various sanitary improvements started in the previous year with the aid of the special grant were completed. The draining of the Gowli swamp has had the desired effect and may be pronounced a complete success. Further drainage on the same lines is dependent on the receipt of special grants from the Government of India.

SECTION V.—Revenue and Finance.

Gross revenue. [*Part II, page 18.*]

14. The net financial results of the year's transactions showed a deficit of Rs. 4,008, the receipts under land revenue remaining practically stationary while those under Forests declined by Rs. 70,056.

Excise. [*Part II pages 18-19.*]

15. The slight decrease in Excise receipts is entirely due to the fall in the consumption of arrack, which may be due to the higher prices ruling for other commodities. All other branches of excise revenue show slight increases.

There are only 75 toddy shops now in Coorg compared with 126 five years ago.

The number of excise offences dropped from 72 to 59.

Stamps. [*Part II, page 20.*]

16. There was a slight falling off in the receipts from the sale of stamps.

Local Funds. [*Part II, pages 20-21.*]

17. The finances of the various local funds remained in a satisfactory condition.

SECTION VI.—Vital statistics and medical services.

Births and deaths. [*Part II, pages 21-22.*]

18. The death-rate rose from 33·48 to 34·05 *per mille*. The year was decidedly unhealthy, though there was only one small outbreak of plague at Suntikoppa and a single imported case at Fraserpet. The death-rate among Coorgs rose to the high total of 42·06 *per mille*.

Sanitation. [*Part II, pages 23.*]

19. The second Sanitary Inspector having resigned, it was decided to keep the appointment in abeyance.

The Sanitary Inspectors carried out a thorough disinfection of Suntikoppa during the outbreak of plague and supervised the cleansing of insanitary *pettas* besides assisting the permanent staff in the two Municipalities.

SECTION VII.—Instruction.

Education. [*Part II, pages 24-28.*]

20. The Inspector was able to pay four visits to Coorg during the year. His inspection of the Lower Secondary School, Virajpet, showed that several reforms are urgently needed and the school is, on the whole, the least satisfactory one in the province.

The Mercara High School has been brought to a most satisfactory state of efficiency and the school average in English was no less than twelve per cent. above the Presidency average. Mr. Steele is to be congratulated on these results.

At Mercara the purchase of a hostel for non-Coorgs was completed and the construction of one of the new hostels for Coorg boys was started during the year.

Quinine prophylaxis among the boys of the two secondary schools yielded excellent results: in Mercara the fever-rate declined in spite of a great epidemic of malaria in the town itself.

The Lower Secondary Girls' School at Mercara had no fewer than 44 boarders on its rolls. The new dormitory was nearing completion at the close of the year. Arrangements were also made to extend the municipal water-supply to this school.

SECTION IX.—Miscellaneous.

21. The Co-operative credit societies continued to do good work and fair progress was made in cattle insurance in spite of very heavy cattle mortality in North Coorg. Co-operative credit societies.

The success of the new grain bank at Kokeri seems to show that the scheme is capable of development.

22. As was anticipated last year, it has been found that regrowths have to a great extent overtaken original clearance work, much of which has now to be done over again. No doubt much of the original clearance carried out five or six years ago was carelessly done and it is probable that, even with the help of the new Regulation, it will not be possible to do more than prevent the further spread of the weed. Lantana.

23. The year was fortunately unmarked by any serious visitation of insect pests. Agricultural Supervisor B. Machayya was placed on special duty for six months from 1st April 1914 to investigate the ravages of "green bug" in Native coffee estates. Agricultural pests.

He advised owners as to the best means of fighting the pest but found many of them very apathetic. Luckily the heavy monsoon brought on a good growth of the fungus which is the surest enemy of the green bug in the damp climate of Coorg. Mr. Bainbrigge Fletcher, Imperial Entomologist, visited Coorg in April and May 1914 and made several interesting discoveries. It appears that ants are the chief means of spreading the pest and planters who have systematically destroyed the ants' nests on their estates report excellent results.

Towards the close of the year the "borer beetle" began to appear in abnormal profusion on many estates. As practically nothing is known of its life-history, it will probably be found necessary to obtain expert advice in order to deal with it more effectively.

PART II.

DEPARTMENTAL CHAPTERS.

PART II.

DEPARTMENTAL CHAPTERS.

I.—PHYSICAL AND POLITICAL GEOGRAPHY.

1. The standing information which should be incorporated in this Chapter is printed in the administration report for the year 1911–1912 under the following headings :— Standing information and geographical statistics.

	PAGE.
Physical features of the country ...	1
Area	3
Climate	3
Chief staples	3
Historical summary	4
Form of administration	5
Character of land tenures	7
System of survey and settlements ...	8
Civil divisions of the British territory ...	10
Details of the last census	10
Tribes and languages	11

Other statistical information will be found in the Coorg District Gazetteer, Volume B. Statements Nos. 1 to 5 exhibit the prescribed statistics regarding the area, character of the surface, climate, civil divisions and population of the province.

2. There were no changes in the form of administration during the year under report. Changes in the administration.

3. Mysore is the only foreign State adjoining Coorg and the relations therewith were satisfactory. Relations with Native States.

4. The public health during the year was fair. The number of deaths registered was lower by 1·28 per cent. than the average for the previous five years though there were outbreaks of plague at Suntikoppa and of small-pox in parts which accounted for 124 deaths. The rice crop was good, while the coffee crop was fair. The prices of the principal food-grains ruled high. Though there was no outbreak of rinderpest in the province the cattle mortality was heavy. The statistics of litigation and registration point to a general prosperity. There was a material increase in the rate of hire payable for labour. Condition of the people.

II.—ADMINISTRATION OF THE LAND. (1914–1915.)

5. Statement No. 6—*Land revenue*.—The *demand* for the year was Rs. 3,65,233 as campared with Rs. 3,64,845 for 1913–1914 giving a net increase of Rs. 388. The variations were an increase of Rs. 1,495 under land and coffee assessment, due partly to expansion of coffee cultivation and partly to levy of full assessment on lands held at concessional rates in previous years, and a diminution of Rs. 1,107 under miscellaneous or fluctuating land revenue owing to smaller receipts on account of Government waste lands sold for cultivation. Including an outstanding balance of Rs. 70,451 at the beginning of the year, the Realisation of the revenue.

gross demand amounted to Rs. 4,35,684. Of this sum, Rs. 3,60,334 were collected and Rs. 320 remitted leaving a balance of Rs. 75,030 at its close. This amount, however, included Rs. 61,508 due from coffee planters who are allowed to ~~differ~~ defer payment until 31st May. The actual balance was therefore Rs. 13,522.

6. Statement No. 7—*Assignments of land revenue.*—The total value of assignments was Rs. 1,09,894 or an advance of Rs. 392 when compared with that of previous year, due chiefly to concessions granted to the patels of enlarged villages in certain hoblis of Nanjarajpatna Taluk by reduction of a portion of land revenue on the lands held by them, while allowing dispossessed patels to retain their *goudumbli* allowances during their life time.

7. The acreage held under the principal tenures is shown in the following table, which includes the corresponding figures for the previous year :—

Years.	*Sagu.*		*Jama.*		*Jodi.*		*Umbli.*		*Jágir.*	
	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.
1913-1914	45,275	19,964	40,490	195	3,679	862	7,671	34	3,752	883
1914-1915	45,454	19,489	40,456	195	3,676	862	7,682	34	3,752	883

Continued.

Years.	Coffee.	Orange.	Arecanut.	Cardamom.	Rubber.	Agave.	Pepper.	Tea.	Total.
1913-1914	94,880	2,906	237	59,182	2,745	280	1,138	...	284,173
1914-1915	93,907	4,271	237	69,427	3,367	269	1,069	1,040	296,070

The increases under cardamom, rubber and tea are due to fresh grants, while that under orange is attributable to expansion of cultivation. The decreases under *sagu* dry and coffee are accounted for by the relinquishment of unremunerative areas.

8. Statement No. 8—*Incidence of land revenue on area and population.*—This is a quinquennial return and was last prepared in 1912-1913 (vide paragraph 8 of the report for that year).

9. Statement No. 9—*Transfers of landed property.*—Of the 42 transfers of unprivileged lands, 32 cases refer to sales by revenue courts for the recovery of arrears of assessment, etc., and the remaining 10 to sales by order of civil courts. In 19 cases under the former head the lands were resumed to Government for want of bidders. The number of privileged holdings brought to sale for arrears of revenue and for non-payment of loans obtained from Co-operative Credit Societies was 10. On their transfer to auction purchasers or resumption to Government the privileged tenure became extinct.

Agricultural advances

10. Statements Nos. 10, 11 and 12—*Transactions under the Land Improvement and Agriculturists' Loans Acts.*—The total amount advanced to cultivators during the year under both acts, which aggregated Rs. 23,840 decreased by Rs. 1,045 when compared with that of previous year. This, together with the outstanding balance (Rs. 47,650) at the commencement of the period under review, brought the gross amount for recovery to Rs. 71,490. The realisations aggregated Rs. 19,032 leaving a balance of Rs. 52,458 made up of (*a*) Rs. 961 which became due but was not realised before the close of the year and (*b*) Rs. 51,497 not payable during the year. The whole of the arrear balance, except Rs. 324, the collection of which has been suspended, has

since been realised. Lands had to be attached in three cases and sold for arrears amounting to Rs. 277–1–5. The net result from these loan operations was an income of Rs. 2,215 as compared with Rs. 1,642 in 1913–1914 and Rs. 1,746 in 1912–1913.

11. The sum advanced under the Land Improvement Loans Act, 1883, was Rs. 10,350 distributed among 103 ryots in sums ranging from Rs. 20 to Rs. 300. The amount falling due for recovery during the year (including arrears) was Rs. 8,458 and the percentage of collection was 95·27 against 95·21 in the previous year.

12. The advances under the Agriculturists' Loans Act, 1884, amounted to Rs. 13,490. The number of ryots benefited was 313 and the sums distributed ranged from Rs. 20 to Rs. 200. The percentage of realisations was 95·13 as compared with 97·47 in 1913–1914.

13. Statement No. 13—*Survey and Settlement.*— The Department of Land Records and Agriculture continued to be under the executive charge of Mr. Gustav Haller. Surveys, settlements and land records.

14. The progress made by the Land Record Department was satisfactory. The maps and records were kept up to date and 64 village maps were republished. Sixteen land disputes were disposed of by the Deputy Director and 44 crop experiments were conducted by the Land Record Department.

15. A survey school was held at Fraserpet during the monsoon and ten officials who attended it were declared to have qualified in surveying.

16. The area of land sold under the Waste Land Rules during the year was 213·31 acres. Excluding timber growth, the value realised was Rs. 7,509 giving an average per acre of Rs. 35-4-0, compared with an average of Rs. 17–4–0 in the preceding year. The increase in the average value was due to keen competition in certain cases. Waste lands.

17. The number of minors under the official guardian rose from four to eleven during the year under report. Proper arrangements have been made for the management of their landed properties and for the recovery of the debts due to them. Wards' estates.

18. There are no *zamindaris* in Coorg and the great bulk of the holdings are *ryotwari*, the ordinary tenure being known as *sagu*, though there are one or two separate villages held as *jágirs*. Particulars have been given in paragraph 7 *supra* of the holdings under the various classes of tenure, a separate description of which will be found in paragraphs 23—30 in the administration report for the year 1911–1912. Owing to the fact that individual ryots frequently hold land under more than one tenure it is impracticable to compile statistics of the several rent-paying classes. Reference has been made in paragraphs 6 and 8 *supra* to the revenue foregone in respect of the several privileged tenures and to the incidence of the land revenue demand on the population, while information as to the average assessment is furnished in Statement No. 82. Revenue and rent-paying classes.

III.—PROTECTION.

Standing information.

19. The standing information which should be incorporated in this Chapter is printed at page 14 of the administration report for the year 1911–1912 under the heading "Legislating Authority".

Course of legislation. (1914–1915.)

20. Statement No. 14—*Acts of the Governor General in Council affecting Coorg.*—The Police Act, V of 1861, and the Foreigners' Act, III of 1864, were extended to Coorg during the year under the Scheduled Districts Act and the Excise Regulation, I of 1915, was promulgated under Statute 33, Victoria, C. 3.

Police. (1914.)

21. Statements Nos. 15 and 16—*Cognizable crime.*—The number (576) of cognizable offences reported was 3 more than in the previous year. There was a fall under breaches of special and local laws, but there was a rise under minor offences against property. There was a slight decrease under serious offences against person and property.

22. The percentage of convictions obtained in cognizable cases investigated by the police was 76·88 against 85·18 in the previous year. Of 590 persons arrested by the police, 440 were convicted, the figures for 1913 being 661 and 433 respectively.

23. Thirteen cases of murder were dealt with during the year. Six ended in conviction, two were referred as mistake of fact, two were undetected and the remaining cases were pending.

24. Three cases of culpable homicide were reported during the year. Convictions were obtained in all of them.

25. Twenty cases for preferring false charges were dealt with during the year. In ten cases convictions were obtained, in five the accused were discharged, one was dismissed and four were pending.

26. Statement No. 19—*Property stolen and recovered.*—The recovery of property was better than in the previous year, the percentage being 55·50 as against 46·38.

27. Statement No. 20—*Sanctioned strength and cost.*—The total expenditure was Rs. 58,172 against Rs. 59,591 in the previous year.

28. Statement No. 21—*Equipment, discipline, and internal management.*—The actual strength of the police was 232 against 239 in the previous year. All the stations were in charge of sub-inspectors. One policeman was punished judicially and 108 were dealt with departmentally as against 98 in the previous year. One man was dismissed during the year. The conduct of the police force on the whole was satisfactory. The number of men who are literate in Canarese was 227 against 233 in 1913. The training school at Mercara was open throughout the year for the instruction of recruits and eighteen men passed through it. The number of Coorgs in the department was 131 against 138 in the previous year.

29. The number of processes issued during the year was 12,266 against 10,490 in 1913; Of this number 54 were pending execution at the close of the year.

30. Five suicides were reported as compared with 12 in the previous year and the number of accidental deaths rose from 30 to 38.

31. Mr. C. A. Lidbury went on leave and Mr. G. V. Stanbury was in charge of the department from 10th August 1914.

Criminal Justice. (1914.)

32. Statement No. 23—*Number of criminal courts and trials conducted.*—Mr. R. H. Ellis, I.C.S., held the post of District Magistrate but during the absence of this officer as Officiating Commissioner from 16th April to 17th September 1914, Mr. E. Graham, I.C.S., officiated as District Magistrate. There were no permanent changes in the personnel of the subordinate magistracy.

33. Statement No. 24—*Particulars regarding the trial of offences.*—The number of cases brought to trial (2,948) was 16 less than in the previous year, while the number of offences reported (3,124) decreased by 19. Under the Workman's Breach of Contract Act, 1,729 cases involving 1,729 persons were instituted as compared with 1,657 cases in 1913. Of these, and of the cases pending from last year (146), 1,605 cases were brought to trial, leaving 239 cases pending at the close of the year. Excluding cases of this class the criminal trials during the year resulted in the discharge or acquittal of 1,214 persons and the conviction of 825. The percentage of convictions was 40·46 compared with 41·65 and 38·95 in the two previous years. Excluding petty cases of hurt, assault, mischief and insult, most of which are only technically criminal, the percentage of persons convicted comes to 60·71 against 67·54 in the previous year. Offences against public tranquillity and justice numbered 59, those against the person 330, and those against property 287, while there were 160 other offences under the Indian Penal Code, and 2,112 breaches of special and local laws. Petty cases under the Police Act showed a decrease (240 as against 308), and also cases under the Arms Act (36 as against 135), Excise Act (61 as against 82), and municipal by-laws (34 as against 59). The number of offences against property was 287 against 229 in the previous year. Fifty persons were found guilty of offences classed as heinous crime. Of these, eight were convicted of murder and dacoity with murder, one being hanged and the other seven transported for life.

There were no cases of opium smuggling during the year, nor were any proceedings taken under the Indian Press Act.

34. Statement No. 26—*General result of criminal trials.*—The average duration of each case was 9 days in the District Magistrate's court and 11 days in the subordinate courts.

35. Statements Nos. 27 to 31—*Punishments inflicted by various courts.*—Two persons were sentenced to capital punishment and six to transportation for life by the Sessions Judge but the death sentence in one case was commuted to one of transportation for life by the Judicial Commissioner. Whipping was awarded in only one case. As stated in previous years' reports the decrease in this form of punishment is chiefly due to the withdrawal of whipping powers from the second class magistrates. The amount of fines imposed and of compensations paid was Rs. 6,707 and Rs. 1,533 respectively as compared with Rs. 7,494 and Rs. 164 in the previous year. The percentage of realisations was 97. The increase in compensation awarded was due to a sum of Rs. 1,000 awarded to the Forest Department in a case under the Forest Act involving serious damage to Reserve Forests.

36. Statement No. 32—*General result of the trial of European British subjects.*—One European British subject was brought to trial for an offence under sections 323 and 352 of the Indian Penal Code and was convicted. Two distinct charges for offences under section 409 of the Indian Penal Code were brought against another European British subject but the cases were transferred to the High Court, Madras, for trial.

37. Statement No. 33—*Result of appeal and revision.*—The Judicial Commissioner received twenty appeals against convictions. In two cases the sentences were reversed and in another reduced. Twenty-five cases were dealt with by the Sessions Judge. Sentences in two cases were reversed and in another reduced. Twenty-eight appeals were preferred before the District Magistrate.

In six cases the sentences were reversed, in five reduced and in two a new trial was ordered. In two cases in which five persons were involved, sentence was reversed in respect of one, reduced in respect of another, and confirmed in respect of the other three. The Assistant Commissioner and Sub-Divisional Magistrate disposed of 21 appeals. In three cases the sentences were reduced and in one reversed the order of the lower court. There were in all 28 applications for revision as compared with 30 in the previous year. Of these, ten were preferred to the Judicial Commissioner who, in four cases, upheld the orders passed, reduced the sentence in one and reversed the finding in another.

38. Statement No. 34—*Juries and assessors.*—Trials before the Sessions Court were conducted with the assistance of assessors.

39. The records and registers of all subordinate courts were inspected by the District Magistrate during the year.

Prisons. (1914.)

40. Statements Nos. 35 to 62—*Detailed statistical information regarding the administration of the jail department during the year 1914.*—The particulars for the Mercara District Jail and the four lock-ups attached to the taluk offices at Somwarpet, Napoklu, Virajendrapet and Ponnampet, are given separately.

41. The bulk of the jail population is confined in the District Jail and the lock-ups are used only for under-trial prisoners, persons sentenced to periods of imprisonment not exceeding fifteen days, and convicts temporarily detained pending transfer to the District Jail. It is proposed to convert these lock-ups into sub-jails at an early date.

Lock-ups.

42. The total number of admissions to lock-ups during the year under report was 535 or 187 more than in the previous year. The number of convicts included in this total rose from 57 to 109, and 85 of these were for transfer to the District Jail. Twenty four convicts were confined in the lock-ups as against eleven in the previous year. The maximum period of detention in the case of under-trial prisoners was 59 days, the average being 9·63 days. The expenditure on dieting charges per annum per head of average strength rose from Rs. 59 to Rs. 89. The ordinary allowance per man is one seer of rice and five pies' worth of curry stuff.

District Jail.

43. The accommodation available was the same as in 1913. The wards provide for the custody of 151 prisoners of all classes. The largest number in custody on any one day was 112. In the male under-trial ward there was slight overcrowding which was relieved by making use of other wards.

44. Statements Nos. 36 to 43—*Number and disposal of jail population, classification according to religion, age, offences, etc.*—The daily average strength including under-trials and civil prisoners was 80·44 against 58·41 during the previous year. Of the total jail population (480), 249 were convicted prisoners, 214 under-trials and 17 civil debtors. The figures for 1913 were 189, 145 and 17 respectively while those for 1912 were 190, 169 and 11.

45. Thirty-eight convicts were in custody on the 31st December 1913 and 211 were admitted during the year. Of these, 145 were released on the expiry of sentence, eight on appeal, nine under remission rules, two were transferred, six were transported to the Andamans, one was executed, one was released on medical grounds and twelve died. There were 65 convicts in confinement on the 31st December 1914.

46. Of the under-trials, 66 were subsequently convicted, 105 were released, 33 were transferred to other jails, one died and 9 remained at the close of the year.

47. Statements Nos. 44 to 49—*Particulars regarding jail discipline.*—The number of offences committed by convicts rose from 14 to 25. Five offences related to work, eleven to receiving and possessing forbidden articles, eight to assault and one to other breach of jail discipline. One civil debtor had also to be punished for giving three pies to a convict for buying snuff. The convict who escaped in 1902 and the two convicts who escaped in 1905 have not been re-arrested. Corporal punishment was inflicted in one case during the year on a dacoit for attempting to escape from the jail. Of the total number of jail offences 51·91 per cent. were committed by habitual offenders whose proportion to the entire jail population was 16·06 per cent. Prisoners of the habitual class were kept, as usual, in cubicles at night, and in separate gangs at meal time, and were not appointed to the post of maistry. Nine convicts were released under the remission rules during the year, the maximum remission earned being 195 days by a convict under sentence of imprisonment of five years. Ten were awarded special remission for having committed no prison offences whatever during the year, two for excellence in work and 30 for economy in the wearing of clothing.

48. Statements Nos. 50 to 53—*Scales of diet.*—Diet was, as usual, supplied departmentally in accordance with the authorized scale and the result was satisfactory. The quality of food was good and the quantity sufficient to keep the prisoners in good health. The daily cost per head was two annas and nine pies or four pies less than in the previous year. The decrease was due to a larger population having been dieted during the year, although the food-grains were dearer. The gross outlay on the articles of food was Rs. 4,983 against Rs. 3,965 in the preceding year. Though the jail population was considerably greater than in the previous year, due to larger quantity of food-grains having been purchased during the year, however, there remained at the close of the year provisions to the value of Rs. 570 out of the stock purchased during the year under report.

49. A sum of Rs. 234 was spent in purchasing clothing for the prisoners.

50. Statements Nos. 54 to 56—*Detailed statistics of health.*—Water is supplied from the Mercara reservoir. Conservancy and drainage arrangements were adequate and satisfactory. During the latter part of the year under report owing to the outbreak of Jail dysentery an iron incinerator was obtained in which the night soil of the dysentery cases is burnt. The health of the prisoners was poor, especially during the latter half of the year. There was an increase in the number of cases of dysentery and malaria and the rate of sickness per mille rose in consequence from 19·00 to 65·51. There were thirteen deaths during the year, twelve occurred among the convicted prisoners and one among the under-trial prisoners, one was due to lobar pneumonia, one from chronic diarrhœa, two from enteritis, six from dysentery, one from ankylostomiasis and one from hepatitis and that of the under-trial from pneumonia with enteritis.

51. Statement No. 57—*Gain and loss in weight of the prisoners.*—Of the 184 convicts discharged from jail, 89 had gained in weight while 54 had lost, the variations in the case of 40 of the latter being under 10 lbs. One convict was released on medical grounds.

52. Statement No. 58—*Expenditure on guarding and maintaining prisoners.*—The gross expenditure was Rs. 13,176 against Rs. 11,169 in the previous year. The increase in expenditure was due to compensation allowance for dearness of provision having had to be paid to the warder establishment, to increase in dieting, to rise in price of food-grains, to the purchase of larger quantity of provisions, to sanitary charges and to the biennial supply of clothing to warders.

53. Statement No. 60—*Employment of convicts.*—The work of the prisoners was, as usual, carefully arranged with reference to class, sex and health. The in-door labour consisted chiefly of grinding ragi, and laundry work. During the early part of the year convicts who had become proficient carpenters were released; hence very little carpentry work was done during the year.

54. Statement No. 61—*Net cash earnings of convicts.*—The total receipts from jail manufactures was Rs. 2,796 against Rs. 2,452 in the previous year. During the year the convict population was much higher than in the previous year which considerably increased the receipts under jail manufactures and convict labour hired to the Public Works Department. The expenditure on materials amounted to Rs. 1,093 against Rs. 796 and the net profit to Government was thus Rs. 1,703 as compared with Rs. 1,656 in the previous year. Taking this profit into consideration, the net expenditure was Rs. 11,473 against Rs. 9,513 in 1913, but owing to the larger number of convicts the average cost per prisoner fell from Rs. 162 to Rs. 142.

55. The jail was visited by the Honourable the Chief Commissioner of Coorg who is also the Inspector-General of Prisons, the Surgeon-General with the Government of Madras and other official visitors from time to time. Lieut.-Colonel J. L. Macrae, I.M.S., was in charge of the Jail throughout the year.

Civil Justice. (1914.)

56. There was no change in the number of Civil Courts (five) or their jurisdiction.

57. Statement No. 63—*Number and description of suits instituted.*—The number of suits filed (2,564) was less than that of the previous year by 118.

58. Statement No. 64—*Number and value of suits instituted.*—The total value of suits was Rs. 2,73,276 or 10·61 per cent. more than in the previous year and the average value (Rs. 107) was fifteen rupees higher.

59. Statement No. 65—*General result of the trial of original cases.*—The number of cases decided was 2,501 as against 2,735 in 1913 and the arrears rose from 306 in the previous year to 366 in the year under report. The number of suits decreed *ex-parte* was 1,334 of which 28 were restored to file. Six out of sixteen applications for review of judgment were granted. Four applications to sue in *formâ pauperis* were received, of these one was granted and three were rejected.

60. The total number of witnesses who attended the courts was 1,540 as against 1,886 in 1913: this is the lowest figure on record during the past decade.

61. Statement No. 66—*General result of the trial of miscellaneous cases.*—Including 57 pending at the close of the previous year the number of miscellaneous applications before the courts was 663; of these, 611 cases including 44 applications under the Guardian and Wards' Act, VIII of 1890, and six for probate and letters of administration, were decided.

62. Statements Nos. 67 and 68—*Regular and miscellaneous appeals.*—The total number of regular appeals including five pending at the close of the previous year was 34 as against 45 in 1913; of these, three were successful and three modified. There were eight miscellaneous appeals as against nine in the previous year. In five the orders of the lower court were confirmed, one was dismissed and two were pending at the close of the year. Twelve appeals out of seventeen including nine pending at the close of the previous year were decided by the Judicial Commissioner and in seven cases, the orders of the lower court were upheld. There were two miscellaneous appeals of which one was dismissed and the other remanded.

63. Statement No. 69—*Particulars of execution proceedings.*—The number of cases filed was 3,546. In 60·70 per cent. of those before the courts no recovery was effected.

64. Statement No. 70—*Results of insolvency applications.*—Of the 23 applications including five pending from last year, fifteen were withdrawn, one was rejected and two were granted; five were pending at the close of the year.

65. The total number of processes issued by all courts during the year was 15,808, the realisation from process fees being Rs. 8,457.

66. The quarterly and annual returns of the subordinate courts were scrutinized by the District Judge, and all the courts were inspected by that officer. There were eight first grade and twelve second grade pleaders practising in the province.

---

67. Statements Nos. 71 to 74—*Working of the Registration Department.*— The total number of documents registered fell from 2,933 in the preceding year to 2,760 in the year under report. On the other hand there was an increase of Rs. 7,26,088 in the value of property concerned. The total receipts from fees (Rs. 7,072) were more than in any one year during the past decade and the expenditure was Rs. 4,094. The surplus realised on the working of the department was Rs. 2,978, the average surplus for the last ten years being Rs. 1,304. Registration. (1914.)

68. The number of documents pending delivery at the end of the year was 41 against 14 in the previous year, and the average time taken to register each document was 25 hours. Registration was refused in three cases and there were no appeals against the refusal orders.

69. All the sub-registry offices were inspected by the Registrar and that of the Registrar by the Inspector-General.

---

70. Statement No. 75—*Constitution of the District Board.*—There was no change in the *personnel* of the District Board during the year under report. District Board. (1914-1915.)

71. Statement No. 76—*Income of the District Board.*—Excluding the opening balance the receipts amounted to Rs. 84,031 as against Rs. 86,900 estimated in the budget.

72. Statement No. 77—*Expenditure of the District Board.*—The expenditure was Rs. 1,14,750 as compared with Rs. 1,13,370 budgetted for.

73. The number of schools rose from 75 to 76 owing to the opening of a new school at Boyikeré. The attendance rose from 4,740 to 4,798. English was taught in ten schools to 585 pupils against 483 in the previous year.

Out of the total number of 3,601 boys and 1,197 girls, 2,040 boys and 837 girls were Coorgs by race. The percentage of children protected from small-pox was 93·01 against 92·72 in the previous year. There were nine schools for the education of Panchamas of whom 214 were under instruction. In five of these schools caste boys were also admitted.

The total outlay on education was Rs. 25,745 as compared with Rs. 27,608 in the previous year representing a percentage of 30·63 of the total income. The ordinary expenditure charged against the direct income of the fund was Rs. 18,077 which represents a percentage of 23·66. The income from school fees was Rs. 3,713 against Rs. 3,285 in the previous year.

74. There were seven dispensaries against six in the previous year, the temporary dispensary at Srimangala having been made permanent. The total number of out-patients treated was 59,824 against 55,480 in the previous year. At the Somwarpet hospital, 307 in-patients were treated against 293 in the previous year and at Gonikoppal 100 in-patients received treatment as against 29. The principal ailments treated were malaria, dysentery, diarrhœa, and diseases of the digestive and respiratory systems.

ERRATUM.

Substitute the following for the first sentence in paragraph 73, page 9 of the Administration Report for 1914–1915.

"The number of schools rose from 75 to 77 owing to the opening of two new schools at Boikeri and Maragodu."

The gross expenditure on dispensaries including sanitation (Rs. 14,169) was Rs. 1,171 more than in the previous year.

75. The Sanitary Inspector was engaged in inspecting the municipalities and *pettas*. He was also on plague duty at Fraserpet and Suntikoppa. The candidate who was selected for the post of second Sanitary Inspector joined duty during the latter part of the year under report after undergoing training in Madras. He worked for three months inspecting the *pettas* and municipalities in North Coorg and tendered his resignation at the close of the year. The appointment of the second Sanitary Inspector has therefore been kept open till a more favourable opportunity presents itself.

76. The number of travellers' bungalows (4) and of shelter houses for the use of immigrant coolies (4) remained the same as in last year. The fees realised from the bungalows (Rs. 667) failed as usual to cover the outlay incurred in the shape of establishment charges (Rs. 1,149).

The net revenue from tolls amounted to Rs. 13,297 against Rs. 22,485 in the preceding year. The decrease is chiefly due to the fact that in some cases the amount due for the year under report was collected in advance in the previous year and that in other cases the arrears were collected after the close of the year under report. There was no change either in the number (25) or in the working of the ferries; the revenue realised was Rs. 1,460 as compared with Rs. 1,526 in the preceding year.

Village communications and bridle-paths were improved at a cost of Rs. 3,989.

77. The grant for public works under the control of the Board was Rs. 62,170 and the expenditure Rs. 62,115.

78. Under *civil buildings* an expenditure of Rs. 14,722 was incurred on improvements to certain local fund schools and dispensaries, quarters for Sub-Assistant Surgeons and for constructing a dispensary at Srimangala. The annual repairs to local fund buildings account for an outlay of Rs. 442.

79. As usual the bulk of the expenditure was devoted to communications. On *original* works the gross outlay was Rs. 9,646. The greater part of this amount was spent on the following works :—

(i) Constructing a bridge across the Kotail stream on the Mercara-Nalknad road.
(ii) Opening out a road from Sidapur to Pollibetta.
(iii) Reconstructing the Chickleholé bridge on the Fraserpet-Sidapur road.
(iv) Widening the Gonikoppal-Pollibetta road.

Under 'minor works' a sum of Rs. 7,920 was spent on the construction or improvement of petty bridges and drains on lines of communication.

80. The outlay on repairs to communications amounted to Rs. 15,512. This includes Rs. 266 expended on travellers' bungalows, Rs. 323 on ferries, Rs. 415 on toll-gates and Rs. 389 on bridle-paths.

The length of communications maintained during the year was 169 miles and 7½ furlongs of which 9 miles and 6½ furlongs were metalled and 160 miles and one furlong unmetalled. The roads under the control of the Board were kept in order at an average cost of Rs. 75 per mile including the upkeep of bridle-paths.

81. Under miscellaneous public improvements a sum of Rs. 2,845 was spent; the more important being a well at Murnad and cattle pounds at Banavara, Kattepura and Hudikeri. The well at Murnad was still unfinished at the close of the year.

82. The balance of the public works expenditure represents the usual charges on account of establishment (Rs. 10,309), and tools and plant (Rs. 719).

83. Statements Nos. 78 to 80—*Constitution, income and expenditure of municipalities.*—The by-laws for the Mercara Municipality framed under the Coorg Municipal Regulation, 1907, were in force during the year. Municipal. (1914-1915.)

Mercara Municipality.

84. There was no change in the constitution of the Committee. Thirteen meetings were held during the year: the average attendance of the ex-officio and non-official members was respectively 3·3 out of 4, and 7·4 out of 11.

85. Including the opening cash balance of Rs. 19,404 the receipts of the year amounted to Rs. 40,239 and the expenditure to Rs. 26,464 leaving a closing balance of Rs. 13,775. The gross demand, together with the outstanding balance at the commencement of the year (Rs. 1,112) was Rs. 21,979. The collections and remissions (Rs. 117) amounted to Rs. 20,952 leaving an uncollected balance of Rs. 1,027 at the close of the year.

86. The most important items of expenditure were Rs. 4,224 on improvements to Gowli bazaar, Rs. 3,960 on the drainge of swamps round Mercara, Rs. 3,627 under conservancy, Rs. 2,344 on the maintenance of roads and Rs. 1,003 on water-works.

87. A special non-recurring grant of Rs. 3,000 was made by Government towards the construction of a building and purchase of tools for the carpentry class attached to the Hindustani primary school. Of this sum, Rs. 448 was spent during the year in acquiring of sites.

Virajendrapet Municipality.

88. There was no change in the composition of the Committee except that Mr. E. Graham held the office of President from the 11th May to the 17th September 1914 while Mr. R. H. Ellis was officiating for the Commissioner. The average attendance at the ten meetings held during the year was 3·1 in the case of ex-officio and 4·7 in the case of non-official members, the total strength being five and nine respectively.

89. Including an opening balance of Rs. 9,009, the gross receipts aggregated Rs. 21,188 and the expenditure Rs. 11,823 leaving a closing balance of Rs. 9,365, of which Rs. 1,100 represents the amount deposited in Government promissory notes. The total demand under all heads of revenue, including an outstanding balance of Rs. 69 at the beginning of the year and Rs. 4,020 being the Government grant towards education, was Rs. 12,345: of this, Rs. 12,179 was collected leaving a balance of Rs. 166 at the end of the year.

90. An outbreak of plague in the district necessitated the taking of precautions to disinfect the houses and Rs. 413 was spent on this; much of it will be recovered from the house owners.

91. The progress of the tailoring institution is fairly satisfactory. The primary school for Panchamas continued to show steady progress. The grant of Rs. 2,500 towards the construction of a Hindustani school last year was found to be insufficient and an additional grant of Rs. 3,000 was received from Government. The construction of the building has been taken in hand and it is rapidly nearing completion. The sinking of a well in the main street was also undertaken. Water has been found within a reasonable distance of the surface and the well promises to be a success.

92. As in last year quinine was distributed to all the children in the municipal schools. The question of introducing new Municipal By-laws and a wheel-tax was taken up during the year and discussed. It is expected that the by-laws will be introduced during the coming year.

Notified Areas.

93. The average attendance of members at the seven meetings held by the Fraserpet Committee was 6·6, the total strength being ten. The income of the year, including the opening balance of Rs. 612, amounted to Rs. 1,828 and the expenditure to Rs. 924: the closing balance was thus Rs. 904. Rs. 92 was spent on road repairs and Rs. 477 under conservancy.

94. The Somwarpet Committee held six meetings at which the average attendance of members (11) was 6·6 The gross receipts of the year, including the opening balance of Rs. (1,484), was Rs. 4,274 and the expenditure was Rs. 2,813 leaving a closing cash balance of Rs. 1,961. The important items of expenditure were Rs. 825 under conservancy, Rs. 391 for road repairs and Rs. 519 for repairs to the Anékeré tank.

95. At the six meetings held by the Kodlipet Committee, the average attendance of members was 3·9, the total strength being six. Together with the opening balance of Rs. 876, the receipts amounted to Rs. 1,796 and the expenditure to Rs. 970. The cash balance at the close of the year was Rs. 826, Rs. 207 was spent under lighting and Rs. 402 under conservancy.

(Volunteering.) (1914–1915.)

96. The total strength of the Coorg and Mysore Rifles on the 31st March 1915 was 250. The command was held by Lieut. Colonel G. R. Pearse, V. D., and the adjutancy by Captain W. B. Roberts of the 101st Granadiers throughout the year. A combined camp of exercise was held in Mercara in March 1915.

IV.—PRODUCTION AND DISTRIBUTION. (1914–1915.)

Character of the seasons.

97. Statement No. 3—*Rainfall and climate.*—The weather conditions were abnormal practically no rain falling between November 1913 and June 1914. In spite of the long drought and the late sowing the rice crop was exceptionally good and uniform throughout the province as the monsoon was copious, though late. The outturn of dry crops was below the average. The coffee crop was poor as a natural result of heavy crop in the previous year on most of the estates. The cardamom crop was more affected by the drought in the early part of the season than any other industrial crop the result being that the outturn was the poorest on record for the past 20 years. The total rainfall in 1914 was 129·82 inches as compared with an average of 128 inches for the past fifteen years.

98. Statement No. 81—*Area under crops.*—The total area cropped during the year was 138,691 acres as compared with 138,205 acres in 1913–1914 or a net increase of 486 acres. Including the second crop cultivation (596 acres) the area under rice was 81,895 acres giving a percentage of 81·07 to the gross wet holdings (101,020 acres) as compared with 81·79 in the previous year. The decrease in the area cultivated was due to high mortality among plough cattle. The total area of dry holdings was 21,463 acres, the extent actually cropped being 7,094 acres, which includes 402 acres of second crop cultivation. The total extent held under the coffee tenure was 93,907 acres, which included (*a*) 9,356 acres of *ryotwari* cardamom *malés*, (*b*) 1,174 acres of orange gardens, (*c*) 37,085 acres of abandoned coffee or land granted for coffee but not planted and (*d*) 3,797 acres planted with rubber. The area under actual coffee cultivation is thus 42,495 acres as compared with 42,076 acres in the previous year. In addition to the area shown under (*d*) *supra* 3,367 acres are cultivated with rubber and 114 acres with *agave*. Area under cultivation and cropped area.

99. The area which is estimated as being cultivated with cardamom, viz., 2,344 acres, is made up of (*a*) *jama malés* (389 acres), (*b*) leased *malés* (1,360 acres) and (*c*) coffee assessed *malés* (595 acres); the aggregate holdings under these heads being 9,012, 60,415 and 9,356 acres respectively (total 78,783 acres).

100. The 5,761 acres shown as "fruits and vegetables" include 5,445 acres of orange gardens of which 1,174 acres are cultivated in the area held under coffee tenure referred to in paragraph 98 *supra*. The extent of pepper cultivation on the holdings other than those under coffee tenure was 1,069 acres.

101. The area irrigated from Government channels and tanks was respectively 2,243 and 1,555 acres as compared with 2,427 and 1,692 acres in the preceding year. Irrigated area.

102. Statement No. 82—*Rates of rent and produce.*—The outturn under rice and *ragi* was about normal. The coffee crop was poor, the estimated outturn being 2,100 tons against 3,682 tons in the previous year. Outturn per acre and total produce.

103. Statements Nos. 83, 93, 94, 95 and 96—*Prices, imports, exports, coinage and paper currency.*—Compared with the previous year there was no marked variation in the prices of rice and *ragi*. Owing to dullness in the coffee market there was a slight fall in the price of coffee when contrasted with that of preceding year. The import and export figures are for the most part compiled from the information suppplied by the toll-gate contractors and cannot be relied on; nor is it possible to draw any inference as to the state of trade from the prescribed returns of coinage and paper currency. Prices, trade and stocks.

104. Statement No. 85—*Live-stock.*—This is a quinquennial return prepared for the year under report. The total number of deaths among cattle from all causes aggregated 10,398 as compared with 7,431 in 1913–1914. Of this number, 649 were reported to be due to foot and mouth disease and 339 to anthrax. There was unusually high mortality, especially among plough cattle, in the Nanjarajpatna taluk. Agricultural stock.

105. Statements Nos. 86, 87, 88, 89, 90, 91 and 92—*Cost of the Veterinary Department, etc.*—Including twelve elephants of the Forest Department, the number of animals treated by Veterinary Assistants on tour was 2,845 while 2,981 were attended to as out-patients at the dispensaries as compared with 1,945 and 1,832 in the previous year. The special work attended to by the Veterinary Assistants consisted of (*a*) delivering lectures to ryots and cattle owners on matters relating to the treatment of diseases and the management of cattle in general, (*b*) examining cattle on behalf of the Co-operative Cattle Insurance Societies and (*c*) the periodical examination of the ponies and mules belonging to the mail tonga service. The total receipts and expenditure of the department were Rs. 91 and Rs. 3,152 respectively. The general supervision of the department was, as in previous years, vested in Mr. Gustav Haller.

Condition of the agricultural population.

106. Statement No. 84—*Prices of Labour.*—The labour market was well supplied. There was no change in the rate of hire.

107. Experiments in the only farm at Sidapur were confined to potatoes, gram, maize, oranges and leguminous plants for green manuring and sericulture. The result of the silk-worm experiment is awaited with interest though it is doubtful whether the rearing of silk-worms will ever become a "cottage industry" in Coorg. The receipts and expenditure of the department were respectively Rs. 327 and Rs. 2,235.

Forests.

108. The area of the reserved forests remained the same as at the close of the previous year, viz:—333,002 acres.

109. Four hundred and ninety-nine cairns were repaired at a cost of Rs. 67. A sum of Rs. 19 was also spent in demarcation. The total cost under this head was Rs. 86.

The field work in connection with the preparation of the Working Plan of the ghât forests was commenced and 68 miles and 20 chains of lines were enumerated during the year. The cost under this head including the pay and travelling allowance of the Assistant Working Plans Officer amounted to Rs. 5,204.

110. The existing roads and buildings were kept in repair at a cost of Rs. 2,940 and Rs. 2,416 respectively. The road up the Barapolé valley was continued, and at the close of the year 2 miles of the road were complete with bridges. Blasting work was completed over 2 miles and 4 furlongs and earth work over 2 miles 5 furlongs. The cost incurred on this road during the year was Rs. 5,912.

111. In addition, 6½ miles of bridle-paths were constructed and 92½ miles repaired. 45 miles of traces were made for further bridle-paths. The construction of the drag paths referred to in last year's report was continued One furlong of Sollekolli drag path was constructed and stones were collected and culverts built on Watekolli drag path over a distance of 3 miles 1 furlong. The cost of these works was Rs. 1,303.

The bungalow at Matré and the subordinates' quarters at Karmad, Kutompolé and Matré referred to in last year's report were completed during the year.

A Hydraulic Ram for supplying water to the "Knoll" bungalow was installed at a cost of Rs. 847.

112. The number of offences reported during the year was 22 against 31 in the previous year. Of these seven were compounded on payment of compensation by the delinquents, and in five cases the offenders were let off with a warning. In the remaining ten cases prosecutions were instituted of which six ended in conviction, one in acquittal and three were pending at the close of the year. The case which was pending at the close of last year ended in acquittal.

113. There were five fires covering an area of 208 acres as against thirteen fires covering 1,923 acres in the previous year. One of these fires was due to incendiarism, and the culprits were prosecuted and fined Rs. 25 and Rs. 2 respectively. Three other fires were attributed to endeavours of the part of certain Kurubars to obtain fresh grass for their cattle, but the culprits could not be traced. These four fires only burnt eight acres. The remaining fire occurred on the Tadiandamol hill in an area where experiments are being conducted with

a view to restore the growth of shola trees in the ravines. Of the 250 acres the protection of which was attempted for this purpose 200 acres were burnt but not much damage was done. The cause of this fire is unknown, but it was probably started by passers by throwing a lighted cigarette end into the grass.

114. The prescribed areas were as usual open to grazing and the revenue realised including the sale proceeds of grass amounted to Rs. 1,531 as against Rs. 1,086 in the previous year. Free grazing was permitted to persons who enjoy a customary right to it.

115. *Sowing sandalwood seed.*—The areas sown in former years (with the exception of the 1,912 area at Kurubarapanché near Murkal which is well stocked) were resown, and further areas of 54 acres at Murkal, 50 acres at Bambukadu (Tittimatti), and 30 acres near Kargode were sown.

116. *Other sowings.*—456 blanks caused by the felling of trees in Mawkal coupe 1 and 2,000 blanks in Hatgat coupe 1 were sown with teak, honné and biti seeds. 705 acres where bamboos had seeded in South Coorg and Dubaré were sown with teak, honné and biti. Seeds of these species were also sown over 225 acres in Anékad forest where lantana had been cleared. Seeds of evergreen species were sown along ten miles of stream banks in coupe 1 Hatgat and four miles in coupe 1 Mawkal; as also over 258 acres in the sandal range. Nine acres of Mallikatté teak kumri were sown with seeds of aini. 656 acres of kumri in Hatgat, five acres of Malagamani, 133 acres in Cauvery and 453 acres in Bhagamandala Range were weeded. 31 miles of inspection paths were cleared. Inferior species over 225 acres of Muthugadaré kumri were girdled. The total expenditure under sowing and planting was Rs. 9,799 as against Rs. 11,121 in the previous year.

117. The eradication of lantana was continued during the year. In reserved forests 4,000 acres were cleared at a cost of Rs. 10,507. 2,185 acres of this area were sparsely stocked with lantana, and the cost was only Rs. 729. 548 acres of paisaris were also cleared at a cost of Rs. 2,580. In reserved forests the lantana on 75 acres, and in paisaris that on 60 acres was cut and burnt at a cost of Rs. 205 and Rs. 153 respectively. The regrowth on 4,118 acres of reserved forests and 1,311 acres of paisaris was uprooted at a cost of Rs. 3,874 and Rs. 1,465 respectively. In addition to these sums Rs. 1,349 were spent on temporary establishment, erecting sheds, purchase of tools, etc. The areas on which lantana was uprooted for the first time were as follows :—

	Acres.
Nalkeri and Hatgat forests	178
Mawkal coupes 1 and 2	2,540
Balumani teak plantation	40
Anékad forest	1,011
Dubaré forest	82
Kuttepura forest	5
Nidtha sample area	1
Jugganka du sandal area	56
Mercara plantations	87
Paisaris near Fraserpet	210
Paisaris south of Kargode	338
Total ...	4,548

The total expenditure on lantana during the year was Rs. 20,133.

118. The quantity of timber felled departmentally in reserved forests was 265,636 cubic feet against 228,968 cubic feet in the previous year. The timber felled by purchasers was 152,969 cubic feet as against 112,500 cubic feet in the previous year. 372 tons of rough sandalwood were collected. 236 tons of this wood were converted into 219 tons of clean wood of which 3½ tons were

sold for Rs. 2,805. The revenue realised under this head, viz:—Rs 45,582 represents chiefly the sales of the previous year, the proceeds having been collected during the year under report. The number of bamboos and reeds removed was 112,000 and 62,600 as against 104,575 and 46,200 respectively in the preceding year.

119. The revenue realised from cardamoms was Rs. 18,068 as against Rs. 19,766, and that from minor forest produce was Rs. 2,993 against Rs. 4,220 in the previous year.

120. A sum of Rs. 7,256 was recovered on lands taken up for cultivation against Rs. 4,515 in the previous year. The total valuations made by forest officers were 57 against 44 in the previous year.

121. No free grants were made during the year.

122. Four elephants were captured during the year. One of the elephants captured in the previous year died. Four of the previous captures were sold by auction at Cannanore for Rs. 5,175. The cost of the capture and training amounted to Rs. 1,502 against Rs. 982 in the previous year. The feed and keep of the whole stud including buffaloes amounted to Rs. 10,649.

123. Including receipts in foreign treasuries and book adjustments the total revenue and expenditure of the year amounted to Rs. 1,99,237 and Rs. 1,75,734 respectively and the net surplus realised was Rs. 23,503. The figures for the previous year were:—Revenue Rs. 3,29,226, expenditure Rs. 1,78,463, surplus Rs. 1,50,763. The decrease in revenue is due to the dislocation of trade caused by the war, to the congestion of timber in the forests and to the expenditure in connection with the special working plans party. Owing to these causes very little timber and sandalwood was sold.

124. Mr. H. Tireman continued to be in charge of the Division till 2nd March 1915 when he went on leave and was relieved by Mr. E. M. Crothers, Extra Assistant Conservator of Forests, who held charge until the close of the official year in addition to his own duties. Mr. N. E. Shrigley, Assistant Working Plan Officer, was on special duty in connection with the preparation of the working plans of the ghât forests.

Mines and quarries.

125. There are neither Act-mines nor non-Act mines in Coorg. Granite and laterite are worked from small quarries for the purpose of metalling roads but no account of the quantity raised is kept. A large quantity of clay is used for making bricks.

Manufactures.

126. There are no factories in Coorg and manufactures in the ordinary sense of the term are locally unknown.

Public works.

127. The revenue credited to Imperial Public Works amounted to Rs. 6,971 and was realised chiefly from the sale of old materials, rent of buildings, hire of tools by contractors and refunds and miscellaneous; Rs. 48 appertained to "Military" and the balance to civil receipts.

128. Including charges debited to Military works and outlay on stock not charged against any sanctioned works, the expenditure for the year aggregated Rs. 3,08,466 against the grant of Rs. 2,92,895.

(Military.)

129. A sum of Rs. 611 was incurred against a grant of Rs. 600 on improvements and repairs to the quarters of the Sergeant-Instructors at Mercara, Chickmagalur, Pollibetta and Saklespur.

(Civil.) Buildings.

130. The expenditure on civil buildings was Rs. 83,929 against a grant of Rs. 66,176. The major works undertaken were:—(*a*) constructing a hostel for 50 boys with subsidiary buildings for the Central High School, Mercara, Rs. 16,801, (*b*) constructing a Dormitory for the Girls' School, Mercara, Rs. 10,591, (*c*) constructing quarters with outhouses for the residence of the District Magistrate of Coorg, Rs. 7,090, (*d*) constructing quarters with outhouses for the Forest Sub-Divisional Officer at Virajendrapet, Rs. 676 (total cost Rs. 8,514), (*e*) constructing quarters for the Public Works Department Sub-Divisional Officer at Virajendrapet, Rs. 2,002, (*f*) constructing a Model School at Virajendrapet, Rs. 6,771 (total cost Rs. 11,196).

131. On minor works a total expenditure of Rs. 23,905 was incurred. Rs. 16,094 were spent on repairs to civil buildings.

Communicatons.

132. The outlay on communications aggregated Rs. 1,34,287 against a grant of Rs. 1,34,340. The expenditure on original works was Rs. 33,826 against a grant of Rs. 32,270. The major works in progress were:—(i) metalling the fifth and sixth miles of the Fraserpet-Sirangal road (Rs. 212), (ii) metalling the worst portions of the Gonikoppal-Wynaad road (Rs. 2,498), (iii) constructing a bridge at 131/6 of the approaches to the Periambadi ghât (Rs. 255), (iv) reconstructing the Katakeri bridge at 157/8 on the Sampaji ghât road (Rs. 4,341). The work of raising the Mercara-Periambadi road on the south margin of the Cauvery at 12/5 and 12/6 referred to in last year's report was completed at a total cost of Rs. 6,078.

133. On minor works a sum of Rs. 23,836 were spent during the year.

134. Including the usual outlay on the upkeep of bungalows, cooly lines and bridges, the disbursements on account of repairs amounted to Rs. 1,00,461. The length of metalled and unmetalled roads maintained during the year was 200 miles one furlong and 43 miles and one furlong respectively.

The average cost of repairs worked out at Rs. 413 per mile.

135. The rain-gauges at various centres were, as usual, kept in repair during the year.

Irrigation.

136. The grant under irrigation was Rs. 7,000, of which Rs. 5,691 were spent. The works in progress were:—(i) the opening out of a feeder channel from Anékad tank to Chikleholé channel and (ii) reconstructing the right sluice of Mullar tank referred to in last year's report.

137. The expenditure on establishment and tools and plant was Rs. 76,985.

138. The department remained under the control of the Public Works Department of Madras and attached to the Fourth Circle, the Superintending Engineer of which continued to be the controlling officer and professional adviser to the Chief Commissioner.

139. Mr. A. G. Romilly, Executive Engineer, continued to be in charge of the Division until 30th March 1915 when he handed over charge to Mr. F. E. Schembry, Honorary Assistant Engineer, on proceeding to England on six months' combined leave preparatory to retirement. Mr. F. E. Schembry held charge only until 31st March 1915 when charge was assumed by Mr. M. Brown.

V.—REVENUE AND FINANCE. (1914-1915.)

Imperial Revenue and Finance.

Gross Revenue.

140. The gross *demand* under all heads of Imperial revenue (Rs. 8,38,799 as compared with Rs. 9,15,444 in 1913–1914) showed a net decrease of Rs. 76,645. The important decreases were under Forest (Rs. 70,056), Excise (Rs. 2,509) and Stamps (Rs. 2,928). The reasons for these decreases are given in paragraphs 123, 147 and 158 respectively.

141. Statement No. 97—*Gross and net revenue.*—The gross receipts (Rs. 8,45,081) as compared with the figures of 1913–1914 show a net decrease of Rs. 86,643, which is chiefly under Forest, Excise, Stamps and Public Works. The decrease under the Public Works is nominal as the receipts in the previous year were swelled by the credit of Rs. 15,000 contributed by the Mercara Municipality for carrying out works in connection with the water-supply and the draining of swamps. The expenditure charged against income was Rs. 3,67,248, while the net receipts were Rs. 4,77,833 against Rs. 5,92,768 in the previous year.

142. Statement No. 98—*Expenditure from net income.*—The expenditure charged against net income amounted to Rs. 6,17,917 as compared with Rs. 5,83,383 in 1913–1914 or a net increase of Rs. 34,534: this was almost entirely due to additional expenditure under Public Works.

143. The net result of the Imperial transactions of the year was thus a deficit of Rs. 1,40,084. If allowance be made, however, for forest receipts on account of supplies to Government departments adjusted by book transfer and for payments made into treasuries outside Coorg, which amounted to Rs. 9,140 and Rs. 1,26,936 respectively, the deficit is reduced to Rs. 4,008.

144. Statement No. 99—*Cash transactions.*—The total receipts (Rs. 39,01,875) as compared with those of previous year show an advance of Rs. 1,14,589 owing to larger remittances received from treasuries outside the district. The total expenditure (Rs. 37,03,911) was less by Rs. 1,99,489 than that of 1913–1914, owing chiefly to smaller remittances to other treasuries and to less number of supply bills cashed during the year. The closing balance thus rose from Rs. 3,92,567 to Rs. 5,90,531.

Land Revenue.

145. Statement No. 6—*Land Revenue.*—The gross demand including the outstanding balance (Rs. 70,451) amounted to Rs. 4,35,684, of which Rs. 3,60,334 were collected and Rs. 320 were remitted, leaving a balance of Rs. 75,030 at the end of the year.

Salt, customs and opium.

146. No revenue is derived in Coorg from salt or customs and the receipts from the sale of imported opium are included under the head "Excise."

Excise.

147. Statements Nos. 100 and 101—*Excise receipts and charges.*—The total receipts and charges amounted respectively to Rs. 2,63,505, and Rs. 9,391 giving a net revenue of Rs. 2,54,114 or a decrease of Rs. 1,266 as compared with the previous year. The important variations in receipts were under (*a*) license fees on country liquor (+ Rs. 3,548), (*b*) rent on toddy shops (+ Rs. 3,400), (*c*) duty on ganja (+ Rs. 1,800) and (*d*) still-head duty (— Rs. 9,860). The increases under (*a*) and (*b*) were owing to better bids during the auction sales and the advance under (*c*) to the enhancement in the rate of duty from Rs. 7–8–0 to Rs. 10 per seer. The decrease under (*d*) is attributable to the smaller quantity of country liquor issued from the warehouse on which duty was levied.

148. Statement No. 102—*Manufactures, licenses and shops.*—The bonded warehouse is situated at Mercara. The number and location of the wholesale shops remained the same as in the previous year. There was no change in the number of retail foreign liquor shops. The numbers of arrack and toddy shops

were reduced by three and six respectively and now stand at 24 and 75. The license fees from these shops fetched Rs. 54,325 and Rs. 50,078 against Rs. 50,777 and Rs. 46,678 in 1913–1914. There was no change in the number of opium and ganja shops. Owing to low sales in the arrack shops at Suntikoppa for a time due to outbreak of plague a remission to the extent of Rs. 383 was granted. Steps will be taken to reduce the hours of sale to between 8 A.M. and 7 P.M. from 6 A.M. to 9 P.M. It has not been found necessary to appoint formal advisory committees to deal with the number and location of liquor shops but the suitability of each site in Municipalities is discussed by the Vice-President of the Municipality concerned, the member appointed for the ward and the adjacent residents, the question being finally settled by the Divisional Officer subject to the approval of the Commissioner.

149. The steps taken in previous years for restraining excessive home consumption of toddy were continued with satisfactory results.

150. Statement No. 103—*Duty and consumption of spirits and drugs.*—The contract for the import and wholesale supply of arrack remained in the hands of Messrs. Hajee Ismail Sait and Sons of Bangalore. The rate of duty remained the same, viz., Rs. 3-15-0 per gallon of 30° under proof. The quantity of arrack issued from the warehouse was 36,339 gallons as compared with 39,770 gallons in the previous year.

151. The wholesale supply of opium and ganja was, as in previous years, managed departmentally: opium was imported from Madras and ganja from North Arcot. The quantity of opium sold was 45 seers and 60 tolas and that of ganja 676 seers and 49 tolas—a decrease of eight seers and 74 tolas and 166 seers and 31 tolas respectively as compared with the figures of previous year. The falling off in ganja is apparently due to the lessening in the demand on the part of traders coming from Mysore.

152. Statements Nos. 104 and 105—*Incidence of consumption, and demand, collection and balance of excise revenue.*—The total demand was Rs. 2,62,672—a net decrease of Rs. 2,509, as compared with that of previous year, chiefly under still-head duty. The total incidence of still-head duty and license fees per gallon of London proof was Rs. 7-13-6.

153. Statement No. 106—*Excise offences.*—The number of prosecutions instituted (59) was 13 less than that of previous year. Twenty-four of these cases relate to illicit distillation and possession of paddy arrack and 24 to sale of toddy without license. There were no cases of drunkenness on licensed premises during the year and no useful figures relating to drunkenness in general could be collected. A sum of Rs. 2,014 was realised on account of fines, out of which Rs. 277 was distributed as rewards to excise and police officers and to informants as compared with Rs. 326 in 1913–1914.

154. Statement No. 107—*Working of the Excise Department.*—The subordinate excise staff was under the direct control of the Excise Inspector and the inspection work of the preventive establishment was satisfactory.

155. Statement No. 108—*Wholesale and retail vend of foreign liquors.*—The number of retail shops for the sale of foreign liquors was 8 as in the previous year. Two of these enjoyed wholesale licenses for three months. There was an improvement in the sale of spirits.

156. Due regard was, as usual, paid to the opinions of neighbouring planters and ryots in the matter of location of both arrack and toddy shops: representative local men were also consulted.

157. No cocaine was confiscated during the year. The quantity required by the medical profession is imported direct from the druggists.

Stamps.

158. Statements Nos. 109 to 112—*Receipts and charges under Stamps.*—The receipts and charges aggregated Rs. 60,033 and Rs. 1,501 respectively giving a net revenue of Rs. 58,532 against Rs. 60,328 in the preceding year. The decrease in the surplus is due to diminution in receipts under both general and court-fee stamps attributable respectively to the fall in the number of documents registered and in the number of suits instituted during the year 1914.

159. Statements Nos. 113 and 114—*Insufficiently stamped or unstamped instruments and stamp prosecutions and results.*—The aggregate sum levied in respect of duty and penalty was Rs. 1,343 on 281 documents impounded under the Stamp Act. There was no stamp prosecution during the year.

160. Statement No. 115—*Action taken to test the valuation of estates.*—No application for probate and letters of administration was filed during the year.

Income-tax.

161. Statement No. 116—*Collections of the tax from salaries, pensions, etc.*—The total collections under this head amounted to Rs. 3,097 against Rs. 2,933 in the previous year. The increase is due to new appointments to certain posts with progressive salaries.

162. Statement No. 117—*Realisations from interest on securities.*—The amount collected (Rs. 112) was Rs. 40 less than in the previous year. The following Government securities to the aggregate amount of Rs. 50,700 were exempted:—the Mercara School Endowment Plantation Fund, Rs. 31,000; the Thomson Prize Fund, Rs. 1,300; the Fraser Endowment Fund, Rs. 500; the Proclamation Jubilee Prize Endowment Fund, Rs. 100; the Koravanda Bollavva Nanjappa's Charity Fund, Rs. 5,000; the Kodandera Tangavva Prize Fund, Rs. 1,000; the municipal committees, Rs. 1,800; and the Coorg District Board, Rs. 10,000.

163. Statement No. 118—*Collections of the tax from all sources.*—The increase of Rs. 164 under salaries, pensions, annuities and gratuities paid by Government has been explained above. No taxable salary or pension was paid by any local authority, nor were there any assessments to income-tax under the head "profits of companies" during the year. There was an increase of Rs. 376 in the revenue from salaries, etc., paid by companies and private employers. The collections under other sources of income shows an increase of Rs. 820 which is due to the inclusion of new assessees.

164. Statement No. 119—*Original and final demand and uncollected balance.*—The final demand under salaries and pensions was Rs. 8,057 against Rs. 8,219 and the aggregate assessment on other sources of income was Rs. 3,531 as compared with Rs. 3,564 in the previous year. There were in all 21 objection petitions against 35 in the previous year resulting in a total reduction of Rs. 187. Of the final demand under all heads including arrears, viz., Rs. 13,838, all but Rs. 1,243 were collected before the close of the year. Of the balance, a sum of Rs. 813 has since been recovered, leaving Rs. 430 for collection.

165. The collections of the tax as usual devolved on the ordinary revenue establishment of the province and no extra expenditure was incurred on the assessment during the year. The First Assistant Commissioner exercised the functions of Collector of Income-tax as in the previous year.

Forests.

166. The forest receipts, including a sum of Rs. 1,36,076 realised outside Coorg or adjusted by book transfer, amounted to Rs. 1,99,237, and the charges, as debited in the treasury accounts, to Rs. 1,67,858. The net surplus was thus Rs. 31,379, which was Rs. 1,22,942 less than that of previous year.

Revenue and Finance other than Imperial.

The District Fund.

167. Including an outstanding balance of Rs. 5,634 at the commencement of the year, the gross demand of the District Fund amounted to Rs. 95,585. The collections and remissions aggregated Rs. 84,159 leaving an uncollected balance of

Rs. 11,426 at the close of the year. With the opening cash balance (Rs. 39,869) the gross receipts of the fund amounted to Rs. 1,23,900, and the expenditure to Rs. 1,14,750 leaving a closing balance of Rs. 9,150.

Municipal Funds.

168. Including an outstanding balance of Rs. 1,497 the total demand of the municipalities and the notified areas amounted to Rs. 39,671. The collections and remissions aggregated Rs. 38,096 leaving an uncollected balance of Rs. 1,575. Together with an opening cash balance of Rs. 30,285 the receipts amounted to Rs. 68,225 and the expenditure to Rs. 42,494 reducing the closing balance to Rs. 25,731.

The Mercara School Endowment Fund.

169. The opening cash balance of the Mercara School Endowment Fund was Rs. 1,214. The receipts and expenditure amounted respectively to Rs. 1,425 and Rs. 2,130: the closing balance was thus reduced to Rs. 509.

VI.—VITAL STATISTICS AND MEDICAL SERVICES.

Births and deaths. (1914.)

170. Statement No. 120—*Particulars of births, deaths and marriages in towns.*—The excess of deaths over births is chiefly due to the mortality among the immigrant coolies admitted into hospitals at Mercara and Virajendrapet.

171. Statement No. 121—*Births registered.*—The number of births (4,590) registered was 61 more than in 1913. Of these, 73 occurred in families not permanently resident in the province. Male births exceeded female by 104.

172. Statement No. 122—*Births and deaths registered.*—5,958 deaths (34·05 *per mille*) were recorded against 5,859 in 1913 and 6,713 in 1912; of these, 365 occurred among individuals not permanently resident in the province. The high mortality is chiefly attributable to the prevalence of malarial fever, dysentery and diarrhœa. The death-rate among females was higher than among males.

173. Statement No. 123—*Deaths registered during each month.*—The mortality was, heaviest in the months of May, June, July and August. The healthiest season of the year was the last quarter.

174. Statement No. 124—*Deaths registered according to age.*—Excluding infants, deaths were more numerous in the age groups from 20 to 30 and 30 to 40 which comprised the bulk of the immigrant cooly population.

175. Statement No. 125—*Deaths registered according to class.*—The mortality among Hindus was slightly higher than in the previous year, while the death-rate among Coorgs was 42·06 *per mille* as compared with the general average of 38·37.

176. Statement No. 126—*Deaths registered from different causes in towns and districts.*—As usual, fever caused the greatest number of deaths (4,802), while dysentery and diarrhœa were responsible for 177. The mortality in municipal areas was higher than in the previous year.

177. Statements Nos. 127 and 128—*Deaths registered from cholera and small-pox.*—There was no death from cholera during the year. The deaths from small-pox rose from 41 to 114.

178. Statement No. 129—*Deaths registered from fevers.*—There was an increase of 218 deaths under this head as compared with the previous year, the ratio *per mille* being 27·44 against 26·20. The mortality was highest in the months of June and July and lowest in February.

179. Statement No. 130—*Deaths registered from dysentery and diarrhœa.*—The mortality ascribed to this cause was 177 being 22 less than in the previous year.

180. Statement No. 131—*Deaths from plague.*—Plague accounted for 10 deaths against the same number in the previous year.

181. Statement No 132—*Deaths from respiratory diseases.*—The rate of deaths *per mille* from this cause was 0·31 as compared with 0·41 in the previous year.

182. Statements Nos. 133 and 134—*Ratio of deaths from small-pox, fever, dysentery and diarrhœa and comparative statement of mortuary and meteorological statistics with prices of food-grains.*—From the latter return it will be observed that the mortality was higher than in the previous year but lower than in 1910 and 1912.

Emigration and immigration. (1914-1915.)

183. There are no recruiting stations in Coorg and no record is kept of emigration and immigration.

Medical relief. (1914.)

184. Statement No. 135—*Hospitals and dispensaries.*—The Mercara Jail hospital is excluded from this statement as it is dealt with separately. Of the twelve other institutions, three are of a private character and are maintained in the "Bamboo" district by the South Coorg Medical Relief Fund.

185. Statements Nos. 136 to 142—*Accommodation, number of patients treated during the year and the rate of mortality among in-patients.*—There was an increase of 14,768 in the total number of patients (101,144) treated in the Imperial and local fund dispensaries, while 8,653 against 8,235 in the year 1913 received treatment in the three private institutions in South Coorg. The in-patients all of whom were treated in the public institutions numbered 3,096 or 404 more than in the previous year; the rate of mortality was 10·89 against 9·81.

186. Seventeen persons were treated for plague at Suntikoppa in consequence of an outbreak at that place in December 1914.

187. Twenty-four patients suffering from small-pox were treated as compared with sixteen in the previous year; one of them died. The contagion in most of the cases was traced to persons who had carried the disease from adjoining districts in Mysore and the West Coast.

188. Statement No. 143—*Patients under treatment according to sex and race.*—As in the previous year, the proportion of adult males treated exceeded that of females by more than three to one.

189. Statement No. 144—*Operations performed.*—Operations numbered 1,474 against 1,482 and the percentage of success was 97·56 against 97·38 in 1913.

190. The sale of quinine to the public through the agency of the post offices continued during the year. The number of powders sold was 52,900 as compared with 45,050 in the previous year.

191. Statement No. 145—*Income and expenditure of hospitals and dispensaries.*—Excluding the pay and allowances of the Civil Surgeon and the reserve sub-assistant surgeons which are not debitable to any specific institutions, the total expenditure on medical relief was Rs. 29,343 or Rs. 276 less than in the previous year.

192. Lieut.-Colonel J. L. Macrae, I.M.S., was in Medical charge of the Department throughout the year.

Sanitation. (1914–1915.)

193. All the *pettas* were inspected during the year by the Civil Surgeon, who is also the Sanitary and Health officer, the Commissioner or the Assistant Commissioners. The duties of the Sanitary Inspector were mainly confined to the periodical inspection of the municipalities and *pettas*, and the supervision of meat supply in Mercara, but he was engaged for a considerable time at Suntikoppa in the supervision of the total disinfection of the village and other preventive measures in connection with plague. Wells were sunk in two *pettas*, the funds being supplied by the District Board. A sum of Rs. 451 was spent in supplying water from the spring at mile 150/3 Mercara-Fraserpet road to the residents of Boikeri in addition to the execution of repairs to several tanks in the province. The following sanitary works were carried out in Mercara at a cost of Rs. 12,553 during the year:—(*a*) draining the school and *petta* swamps, (Rs. 4,594); (*b*) constructing a subsidiary tank below the reservoir, (Rs. 3,709); and (*c*) improving the Gowli quarters and swamps, (Rs. 4,250). Besides this, the piped water-supply was extended to Hill Road and the houses on the west of Mercara.

194. Statement No. 147—*Sanitary works and comparison of mortality prior and subsequent to the construction of the Mercara water-works.*—As remarked in previous years no safe inference can be drawn from this statement as the municipal death-rate fluctuates considerably from year to year with the numbers of immigrant coolies brought to the hospital in a moribund condition. The water supplied is of excellent quality and the quantity available was ample for all except during a short period of the year.

Vaccination. (1914–1915.)

195. Statement No. 148—*Summary of vaccination work.*—The number of operations performed was 13,988. Of these, 8,592 were primary cases and 5,396 were re-vaccinations against 8,728 and 4,423 respectively in the previous year. The percentage of successful cases was 96·66 and 85·29 respectively compared with 94·91 and 87·27 in 1913–1914. Only calf lymph was used.

196. Statement No. 149—*Cost of the vaccine department.*—There was no change in the establishment which consisted of eight vaccinators. The total cost including supervision charges, amounted to Rs. 3,027.

197. Statement No. 150—*Dispensary vaccination.*—426 vaccinations were performed by the staff of the Jail hospital and the dispensaries of the province compared with 224 in 1913-1914. Of these, 152 were primary cases and 274 were re-vaccinations; the percentage of success was respectively 100·00 and 86·27 compared with 96·05 and 78·52 in the preceding year.

198. Statements Nos. 151 and 152—*Number and result of primary vaccinations during the last decade and verification of vaccinations.*—3·02 per cent. of these cases were inspected by the Civil Surgeon and 43·70 per cent. by the Assistant Surgeon and the Inspector of Vaccination compared with 3·13 and 46·25 respectively in the previous year.

199. Statement No. 153—*Infantile vaccinations in municipal areas.*—From October 1913 to September 1914, 203 infants were born. One hundred and forty-seven children under one year old were available for vaccination and the total number vaccinated was 116.

200. Statement No. 154—*Statistics of vaccination and mortality from small-pox during the past fifteen years.*—The number of successful vaccinations was considerably above and the number of deaths from small-pox considerably below the average.

VII.—INSTRUCTION. (1914–1915.)

General system of public instruction.

201. The standing information on this subject is printed at pages 33 and 34 of the administration report for the year 1911–1912 under the heading "General System of Public Instruction."

Education—Preliminary remarks.

202. During the year under report there were no important changes in the educational arrangements of the province. With a view to improve Muhammadan education, a number of secondary schools and elementary school scholarships were made available for Muhammadans, and Muhammadan assistants were appointed to teach Urdu in four of the Anglo-Vernacular elementary schools.

General summary.

203. Statements Nos. 155 and 157—*General Statistics of attendance.*—On the 31st of March 1915, there were in all 105 public institutions with 7,937 pupils in attendance as against 7,684 during the previous year. A new local fund boys' school at Boikeri and a Government girls' school at Hudikeri were opened during the year. The number of Basel Mission schools fell by one, the Mission Panchama school at Balelé having been closed. The number of private schools and the attendance in them was 19 and 364 as against 16 and 355 in the previous year. The percentage of pupils under instruction to the total population of school-going age was 21·68 as against 21·01 for the year 1913–1914, the percentage being higher in the case both of boys and girls.

204. The educational institutions in the province consisted of one training school, one upper secondary school and one lower secondary girls' school at Mercara and one lower secondary school at Virajendrapet and 101 elementary schools throughout the province. English was taught as an optional subject in 20 of the elementary schools. These figures exclude the 19 private schools mentioned in the preceding paragraph, all of which were elementary. The private lower secondary school at Ammatti continued to exist. This school does not at present fulfil any of the requirements of the Education Department, but it is understood that the management is attempting to collect funds with a view to place the institution on a better footing.

205. Statements Nos. 159 and 160—*Stages of instruction and results of examinations.*—There was a further increase during the year under review in the number of pupils in the high and primary stages of instruction, both in the boys' schools and the girls' schools, but in the middle stage there was a decrease of 23 pupils. The results of the examinations are dealt with in paragraphs 215 and 229 *infra*.

206. Of the 105 public institutions at the end of the year, fourteen were managed by Government, seventy-seven were under the control of the District Board, five were municipal institutions and nine were aided either by Government, by the District Board or by the Municipalities, eight of these being missionary institutions.

207. Statement No. 163—*Scholars according to sex, race or creed.*—As usual non-Brahmin Hindus (7,142) formed the predominating element among the school-going population and included no less than 4,864 Coorgs. The number of Coorgs and Muhammadans attending school increased by 208 and 98 respectively, while the number of Brahmins decreased by 26. There were seven Jain pupils under instruction during the year. There was no appreciable change in the number of children of other communities under instruction.

208. An examination of the social position of the parents of the children attending public institutions showed that the majority (76·65) were dependent on agriculture. The percentages recorded as belonging to the poorer, middle and richer classes were 77·24, 22·35 and 0·41, respectively, against 75·54 and 22·73 and 1·77 of the previous year.

209. The percentage of pupils protected from small-pox was 95·56 as against 94·95 of the previous year.

210. Statements Nos. 156, 158 and 161—*Expenditure on education.*—The total expenditure on public instruction was Rs. 1,04,153 during the year as against Rs. 91,223 in 1913–1914, the distribution according to the sources of income being as follows :— Financial summary.

Imperial Funds	60·95
Local Funds	16·86
Municipal Funds	1·65
Fees	15·62
Other sources	4·92

211. The additional expenditure during the year was met by the Imperial Government and was mainly due to a grant for the equipment of the Central High School, Mercara, and building grants for the Hindustani schools at Mercara and Virajendrapet.

212. The private contributions to expenditure consisted of subscriptions in aid of the mission schools and of the income from the Mercara School Endowment Fund. During the year a total sum of Rs. 990 was disbursed from this fund for scholarships to students studying in professional colleges and secondary schools and for the upkeep of the boarding house attached to the Central High School. The average cost of educating each pupil in the primary and secondary schools was Rs. 6–12–10 and Rs. 55–11–6 as against Rs. 5–11–9 and Rs. 54–2–2 respectively in the previous year. In the Lower Secondary girls' school, Mercara, the average cost of educating a girl amounted to Rs. 75–5–9 against Rs. 77–2–2 in the previous year, while the cost to provincial revenues amounted to Rs. 35–1–8 against Rs. 37–14–10 in the previous year. The average cost of educating each student in the Government Training School was Rs. 181–9–6 against Rs. 212–4–6 in the previous year.

213. Mr. T. O. Hodges was in charge of the Ninth Circle throughout the year. He paid four visits to Coorg during the year, the first and the last being for the inspection of the elementary schools in Coorg. The second was mainly for the inspection of secondary schools and during the third visit the final test for Teachers' Certificate was held. The Assistant Inspector inspected 119 schools during the year travelling 1,138 miles and also paid surprise visits to several schools not included in the programme. The Supervisors constantly toured within their ranges paying on an average 3 visits to each school during the year. Revenue officers from Subedars upwards paid frequent visits to the schools. Controlling agencies.

214. There are no colleges in Coorg, but 10 scholarships of the monthly value of Rs. 10 and Rs. 15 each tenable in Arts and professional colleges outside Coorg are awarded annually. Collegiate education.

215. In the three secondary schools the total attendance rose from 510 to 535, 109 of these being girls. The average number on the rolls was 524 as compared with 508 in the previous year. Eleven candidates from the Mercara High School went up for the Secondary School Leaving Certificate examination, and the results were satisfactory being well above the average for the Madras Presidency in most of the subjects. The school average in English was twelve above the Presidency average showing that there has been a marked improvement in the teaching of this subject. Secondary education.

216. Since the last report the Government of India, sanctioned a sum of Rs. 5,000 for improving the equipment of the school. This sum was spent on the purchase of additional furniture, apparatus and books for the school library.

217. Mr. S. A. Steele was in charge of the Central High School, Mercara, during the year, and also supervised the Government English School, Virajendrapet. The difficulty experienced in securing the services of graduates for the High School reported last year continues to be felt and teachers have still to be found outside Coorg. As a partial remedy, the Plantation Endowment Committee intend awarding a scholarship tenable by a Coorg for studying in the Arts college on condition that after graduation, he agrees to serve in the Coorg Educational Department.

218. The two hostels attached to the Central High School, continued to be well-filled. Mr. T. V. Nagaratnam Pillai's bungalow was purchased in March 1915 and is being fitted up for the residence of the Goudagal boarders. The construction of a new hostel for Coorgs on a healthy site is also being pushed forward.

219. The school magazine was re-started and issued during the year but owing to limited resources of the District Press, Mercara, the issue for September 1914 was published only in April 1915. Unless the Old Boys' Society makes a larger contribution towards the cost of printing the magazine, the latter cannot be published as soon as the manuscripts are ready. The celebration of the school day of the old boys has been fixed for the 15th October 1915.

220. The number of sections of various classes having increased, additional rooms for holding the same are necessary and admissions will have to be restricted until the new hostels are built.

221. The English School at Virajendrapet continued to be under the management of M.R.Ry. M. Srinivasa Rau, supervised by the Headmaster of the Central High School, Mercara. There were 43 boys residing in the hostel of the school.

222. During the year quinine prophylactic treatment was continued in the two secondary schools and the model schools at Mercara and Somwarpet. The Headmaster of the Central High School considers that this measure has been productive of good results as there were few cases of fever in these schools.

Primary education.

223. As shown in paragraph 203 above, the number of primary schools increased by two during the year, and the attendance rose from 7,149 to 7,365. In many of these schools, in addition to the compulsory subjects, geography, nature study, elements of hygiene and outlines of Indian history and civics are taught, while garden work, clay-modelling, and other manual occupations are employed both on account of their intrinsic value and as a relief from intellectual work. The school garden has always formed a feature of elementary education in Coorg.

224. In teaching many of the subjects, kindergarten methods are adopted. Schemes of study involving a certain amount of practical work have been drawn up for such subjects as arithmetic, geography, nature study, etc., in the larger elementary schools. With a view to render the teaching of geography more realistic some more lantern slides were purchased during the year. Seven lantern lectures on the European War were also delivered by the Assistant Inspector at certain selected centres of the province the gate money realised amounting to over Rs. 250 being made over to the Imperial War Relief Fund.

225. Organised games and sports including national dances and exercises are being encouraged in the boys' as well as in the girls' elementary schools. During the year sports requisites to the value of Rs. 90 were purchased and supplied to the schools.

226. Clay-modelling, rope-making, basket-making, rattan work and similar manual occupations are taught in most of the schools. Regular instruction in wood work is given in three of the primary schools, in rattan work in the Napoklu Model school and in tailoring in the Municipal tailoring school at Virajendrapet. A further supply of tools and appliances was made to the three former institutions but in order to equip these schools properly for providing manual training to all the pupils, a much larger expenditure with more commodious workshops is necessary. Instruction in Sloyd work was imparted in the Government Training School at Mercara. The weaving school at Sanivarsante continued to work during the year with five students on the rolls, three of them being in receipt of stipends of the value of Rs. 5 each and two of the value of Rs. 2 each. The value of the stipends has since been raised to Rs. 5 each, in order to attract students from the whole of Coorg. The stipends tenable in the tailoring school at Virajendrapet have also been increased both in number and value. There are now 6 stipends of the value of Rs. 5 each and 6 stipends of the value of Rs. 3 each, two of the higher value and two of the lower value being made available for non-Muhammadans also.

227. The system of village school committee or panchayats was in force during the year and worked satisfactorily.

228. The attendance in the elementary schools is steadily rising and extensions to buildings and additions to the staff are becoming more and more necessary. In order to ensure promotion to local fund teachers, a revision of the scale of salaries is a pressing want. At present many a raw recruit as well as a teacher of some years' standing both draw the same Rs. 10.

229. The only training school in the province is the Government Training School at Mercara, which provides the provincial supply of trained elementary school masters. Thirteen trained students were relieved from the institution on the 31st March 1915 and were provided with appointments. It is not known how many of these passed the Preliminary Test for Teachers' Certificate held in March 1915 as the results have not been published. **Training schools.**

230. The scale of salaries of the teaching staff was revised during the year. M.R.Ry. N. Dasappa continued to be in charge of the institution throughout the year.

231. There are no technical schools in Coorg. The weaving school at Sanivarsante and the carpentry and the tailoring schools at Mercara and Virajendrapet are dealt with in paragraphs 226 and 235. **Technical education.**

232. There are altogether one secondary and seven primary schools (six Government and two aided) exclusively appropriated to girls. The total number of girls in all classes of schools rose from 2,356 to 2,426 during the year. Of these, 109 were studying in secondary schools and four were training in the Government Training School, Mercara. The Lower Secondary girls' school at Mercara worked successfully during the year, there being 101 pupils on the rolls, of whom 44 were boarders in the school hostel. A Government girls' school of the elementary grade was opened at Hudikeri during the year. **Female education.**

233. There are no separate schools for Europeans and Eurasians in the province. **European education.**

234. There were two schools intended solely for Muhammadans and maintained by the municipalities at Mercara and Virajendrapet. The attendance of Muhammadans in elementary schools rose from 291 to 318 and in secondary schools from 7 to 9. Nonrecurring grants of Rs. 3,000 were sanctioned during the year to each of the municipalities of Mercara and Virajendrapet for improving the accommodation in both the Hindustani schools. **Muhammadan education.**

235. The improvement of Muhammadan education in Coorg is steadily kept in view and the following are among the measures recently sanctioned for the purpose:—

(1) the entertainment of a Urdu teacher in the Virajendrapet English School;

(2) Urdu assistants in the elementary schools at Fraserpet, Ammatti, Ponnampet and Hudikeri;

(3) one additional assistant in each of the Hindustani schools at Mercara and Virajendrapet;

(4) six scholarships of the value of seven rupees each tenable, by Muhammadan pupils in secondary schools;

(5) 25 scholarships, eight of the value of Rs. 3 each and seventeen of the value of Rs. 2 each, tenable by Muhammadan pupils in elementary schools.

The above scholarships are in addition to the 24 industrial stipends tenable in the carpentry and tailoring schools at Mercara and Virajendrapet.

236. The work of the carpentry and the tailoring schools has been dealt with in paragraph 226 *supra*.

Special classes.

237. There were nine schools for Panchamas during the year, the Basel Mission having closed the school at Balelé in Kiggatnad taluk. In three of the above schools caste boys are admitted. Out of 327 Panchama children, 290 attended the schools for the special classes and 37 attended the caste schools. With a view to encourage the Panchamas to send their children to school, books and slates are given free of cost, and prizes in the shape of cloth are being annually given to the children who have regularly attended school during the year.

Private institutions.

238. The number of private institutions and the attendance in them rose from 16 to 19 and 355 to 364 respectively. These institutions call for no special remarks as they are unaided, ill-housed and poorly equipped.

Educational conferences.

239. Eight meetings of the Teachers' Association were held during the year. These meetings were well attended. Most of the teachers gave lectures and model lessons and took part in the discussions held on educational subjects. Several of them also made use of the lending library opened in connection with the association.

240. M.R.Ry. A. Rama Rau Avargal, B.A., Assistant Inspector of Schools, was in charge of the elementary schools throughout the year.

Preparation and distribution of text-books.

241. There is a Government Depôt at Mercara with five branch depôts, the operations of which are confined to the supply and distribution of text-books to elementary schools. These depôts, however, did not transact any business during the year.

242. There is no Text-book Committee for Coorg.

The Press.

243. Statements Nos. 165 to 170.—*Receipts, expenditure, etc.*:—The only printing press in the province is the Coorg District Press at Mercara. Including a sum of Rs. 298 adjusted by book transfer on account of depreciation of plant and type the charges amounted to Rs. 4,209 as compared with Rs. 3,832 in the previous year. The value of the work done for the various offices and the cash receipts were respectively Rs. 3,341 and Rs. 750 as compared with Rs. 3,661 and Rs. 665 in the preceding year. The value of plant at the close of the year was Rs. 9,869.

244. The outturn of composing work done was equal to 2,415 pages of pica solid foolscap folio and the number of impressions printed was 510,100. The cost of composing a page of pica solid foolscap folio was Rs. 0-14-9, while the cost of printing 100 impressions was Rs. 0-3-6, as compared with Rs. 0-14-6 and Rs. 0-3-9 respectively last year.

245. The management of the press which, as usual, devolved on the Foreman, was satisfactory.

246. There are no literary societies properly so called in Coorg, but in Statement No. 171 will be found particulars of three institutions which incidentally foster the study of literature through the medium of libraries and reading rooms. Literary societies.

VIII.—ARCHÆOLOGY. (1914–1915.)

247. No action was taken under this head during the year. The question of declaring ancient monuments which are the property of Government to be protected monuments under section 3 of the Ancient Monuments Preservation Act (VII of 1904), has in consultation with the Superintendent, Archæological Survey Department, Southern Circle, Madras, been kept in abeyance until he can visit Coorg and inspect them. The monuments selected for conservation are in good order. Archæology.

IX.—MISCELLANEOUS. (1914–1915.)

248. The standing information which concerns this chapter is printed at page 39 of the administration report for the year 1911–1912 under the head "Ecclesiastical jurisdiction". Ecclesiastical jurisdiction.

249. Statement No. 172—*Religious institutions.*—There were no changes during the year. Ecclesiastical.

250. The contributions paid by Government to the indigenous religious institutions in the province aggregated Rs. 19,381 and consisted of cash payments (Rs. 7,049), deductions from the land revenue demand (Rs. 972) and assignments of land revenue (Rs. 11,360). Of the gross amount (Rs. 19,381), Rs. 12,557 forms the endowment of minor temples under the management of village communities concerned, while the remaining Rs. 6,824 relates to the grants made to the temples under the management of the Committee constituted under the Coorg Temple Funds Management Regulation, 1892. This body which consists of 15 members held twelve general meetings during the year and the average attendance was 7·58. With an opening cash balance of Rs. 2,134, the income, including the sum of Rs. 6,737 paid by Government towards the upkeep of the *chattrams*, was Rs. 19,318. The expenditure amounted to Rs. 17,696 and the closing balance was Rs. 1,622. In addition to the Government grant (Rs. 13,561), the other sources of income were voluntary offerings by pilgrims (Rs. 1,466) and contributions of grain by the people Rs. (1,055). The chief items of expenditure were the purchase of food-grains to the value of Rs. 10,443 and the performance of the customary religious services and ceremonies.

251. Statement No. 173—*Charitable institutions.*—The *chattrams* are situated at Mercara (2), Bhagamandala and Irpu. They enjoy an annual endowment of Rs. 6,737 from Government and are under the control of the Temple Funds Management Committee. There are three similar institutions maintained by private charity during certain festivals and they are located at Talakaveri, Virajendrapet and Somwarpet. Charitable institutions.

252. The supply of articles of stationery to Government offices in Coorg is arranged for in communication with the Superintendent of Stationery, Madras. Stationery.

Condition of records.

253. The work of sorting and arranging the records continued during the year. The work is being done by the record-keepers of the several branches of the Commissioner's Office assisted by such clerks as can be spared from the ordinary establishment. About half of the records of the Office of the First Assistant Commissioner and District Magistrate were sorted and arranged during the year.

Co-operative credit societies.

254. The number (22) of societies remained stationary, but that of the members rose from 2,449 to 2,493. The total receipts, including the opening balance of Rs. 14,520 and a Government loan of Rs. 250, amounted to Rs. 70,343 and the disbursements to Rs. 56,883 leaving a closing balance of Rs. 13,460. The collections of outstanding debts were satisfactory.

Cattle insurance.

255. Three new societies were registered during the year bringing the total to ten. The number of policy holders rose from 263 to 339 and that of the cattle insured from 373 to 498. The amount of fees collected was Rs. 1,852 as compared with Rs. 1,558 in the previous year. Fifty-two policies were redeemed at a cost of Rs. 490. All the societies promise to do well.

Grain bank.

256. A grain bank, established at Kokeri village in Kadietnad with 92 members, was registered in the early part of the year. It is in a sound working condition and there was at its credit 683 battis of paddy valued at Rs. 2,390 at the close of the year.

Treasure trove.

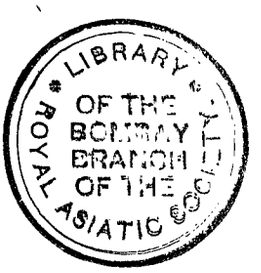
257. There were no cases of treasure trove during the year under report.

Fish preservation.

258. The preservation of fish continued to be the care of the Coorg Fishing Association but its operations were seriously hampered by want of funds. A proposal to reconstruct the Association and with assistance from Government to provide it with sufficient funds is under consideration. February 15th to June 30th was fixed as the close season for netting. Five prosecutions were instituted during the year for offences under the Fisheries Act. All of them resulted in convictions. Mr. H. C. Wilson, Piscicultural Expert, Madras, visited Coorg in March 1915 for studying the subject on the spot and his report is awaited.

PART III.

STATISTICAL APPENDICES.



I.—PHYSICAL AND POLITICAL GEOGRAPHY.

I.—PHYSICAL AND POLITICAL GEOGRAPHY.

Total area of the province of Coorg for the year 1914-1915.

Presidency or Province.	Coorg.	
Total area.	Acres.	
1. Area according to professional survey ...	1,012,260	*Note.*—This statement corresponds with Form A—1 of the Tables of Agricultural statistics.
2. Deduct (*a*) Feudatory States ...	...	
(*b*) Area for which no returns exist ...	...	
3. Net area by professional survey ...	1,012,260	
4. Corresponding area by village papers ...	1,012,260	

(2). Character of Surface.

1. Forests	357,740	*Note* 1.—This statement is Form A—2 of the Agricultural Tables. A detailed description of the character of the surface will be found in paragraphs 1 to 11 of the administration report for the year 1911-1912 *vide* pp. 1—3.
2. Not available for cultivation ...	334,225	
3. Culturable waste other than fallow ...	10,490	
4. Current fallows	171,114	*Note* 2.—The area shown as not available for cultivation consists of (*a*) unculturable Government waste and (*b*) unculturable *banés*, estimated respectively at 120,868 and 213,357 acres.
5. Net area cropped during the year	138,691	
Total ...	1,012,260	
6. Irrigated during the year. (*a*) Government canals ...	2,243	*Note* 3.—Item 3 is the estimated area of culturable Government waste.
(*b*) Private canals ...	...	
(*c*) Tanks	1,555	*Note* 4.—Item 4 is composed of (*a*) the estimated area of culturable *banés* (13,289 acres) and (*b*) the difference between the net area cropped and the gross holdings other than *banés*. It thus includes unculturable extents under actual holding, the area of which there is no means of ascertaining.
(*d*) Wells	...	
(*e*) Other sources ...	...	
Total area irrigated...	3,798	
7. Crops irrigated. (*a*) Rice	3,798	
(*b*) Other cereals and pulses ...	...	
(*c*) Miscellaneous food-crops ...	...	
(*d*) Miscellaneous non-food crops ...	...	
Total ...	3,798	

(3). Climate, 1914.
